

SUPPLEMENTAL APPLICATION

This document is intended to supplement your application to graduate studies in Biology at Western University. Please complete the form and attach it to your [application](#) within the Supplemental Documents section as required.

RESEARCH

Please list peer-reviewed publications or other research communications, including those submitted for publication. Show the complete citation including all authors, title, journal name, manuscript number, and submission or publication date. For each, briefly describe your role.

Please list conference presentations you have given. Provide the full citation including conference, location, type (international, national, regional, local), all authors and year, and whether each was a poster or oral presentation. For each, briefly describe your role.

Please list any other non-peer-reviewed publications, e.g. preprints, government reports, presentations, or other research communications you would like the admissions committee to consider. (e.g., popular science articles, public presentations). Please use format as described above.

Please list any other non-peer-review communication aimed at outreach or public-engaged scholarship. Include the venue and type of audience, as well as your role.

Please list your research experiences, including volunteer positions, summer technician or research assistant positions, independent research thesis work, and research positions. For each position state the time commitment in hours/week.

SCHOLARSHIP AND AWARDS

Please list scholarships and awards you have received. Briefly describe the awarding body, nature and subject (e.g. academic, community service, citizenship).

SKILLS AND EXPERIENCE

Please describe how your skills and experience are relevant to your proposed supervisor's research area (250 words maximum, please).

LEADERSHIP

Please describe your leadership experience, be it in an academic/research environment or in the broader community. Describe your role and time commitment for each (250 words maximum, please).

PERSONAL

We recognize that people may have commitments beyond academic endeavours that may impact academic/research trajectories. If this applies to you please feel free to share those experiences or situations with us.

Is there anything else you would like to share about your qualifications or lived experiences that speaks to your potential for success in the Biology graduate programme?
