Instructions for Selecting Items from the Vocabulary Lists

Goals:

- To have the classroom teacher select vocabulary items that are currently, or will soon be, relevant to the curriculum being covered in the classroom.
- To select vocabulary items that will help the student in learning the curriculum content.

Guidelines for selecting vocabulary items:

1. Give the vocabulary list to the classroom teacher.
 - Have the classroom teacher select around 10 vocabulary items that will be used in the classroom for the current unit or the unit that is about to begin.
 - The majority of the selected items should fall under tier 2 vocabulary.
 - Have the classroom teacher check off the first box next to the selected vocabulary items.
2. Once the classroom teacher has returned the list to you, use the Rating Checklist with the student to determine the student's level of knowledge for each of the selected vocabulary items.
3. Based on the results of the Rating Checklist, focus intervention and programming towards increasing the student's knowledge of the vocabulary items (e.g., focusing more attention on vocabulary with a lower rating).
Note: You could use evidence-based strategies included on the Strategy Checklist to help with this.
4. After working on the vocabulary items, you may complete the Rating Checklist again. If the student now has the knowledge of the target vocabulary, check off the second box on the vocabulary list to indicate that the student now knows these vocabulary items.
5. Return the vocabulary list to the classroom teacher and have them select another set of vocabulary items relevant to the current/upcoming classroom unit(s).
6. Repeat the process as necessary.

Instructions for Selecting Vocabulary Items

The best vocabulary to target in intervention is tier 2 vocabulary as it is made up of high-frequency words with high utility (e.g., they are useful in many contexts). There can be some subjectivity in determining which tier certain words fit into. Here are some guidelines to help determine which vocabulary to target.

Tier 1 Vocabulary:

- This includes the most basic words that most people would know without direct instruction
- These words are commonly used in oral language
- Examples include: common nouns like cat, dog, book, table, and common words that most people would know and use such as think, run, move, create, exercise

Tier 2 Vocabulary:

- This includes high-frequency words and words that can be used across multiple domains
- These words are found in more mature language use (e.g., adult language, written language) and may have multiple meanings
- These words require instruction
- Examples include: goal, include, conversation, prepare, instruction, advantage, patterns

Tier 3 Vocabulary:

- These are low-frequency words that are specific to a particular subject or domain (context-specific) and might only be learned by those studying that subject
- Examples include: photosynthesis, proton, square-based pyramid, stanza, alveoli, topographical features

Vocabulary Rating Checklist

Using the vocabulary words selected from the vocabulary lists by the classroom teacher, fill in the first column of the template. With the student, go through each vocabulary item (one at a time) to determine their level of knowledge for each word. Begin by asking if they've ever heard the word. If they say no, indicate that in the table (#1) and move on to the next word. If they say yes, indicate that in the table (#1) and ask more about their knowledge of the word (#2-5). These don't have to go in order (e.g., if the student defines the word right away, that's fine). Try to get an idea of how complete their knowledge is of each vocabulary item (e.g., try to fill in multiple columns of the table).

Use the information gathered about the vocabulary items to help plan programming to target curriculum-based vocabulary that is now/will soon be relevant in the classroom.

Note: This rating checklist can be used multiple times for the same vocabulary items if you want to measure change.

Rating	Explanation	What This Means
1 - I've never heard the word before	The student doesn't know the word and can't provide any information about this word. Response: ✓ or X	This word needs to be taught and may need more time and attention.
2 - I've heard it but I don't know the meaning	The student has heard the word but can't tell you anything about it (e.g., can't explain what it means, can't use it in a sentence, can't tell you a synonym, etc.). Response: ✓ or leave blank	This word will need to be taught, but the student has minimal knowledge of the word already (they have heard it used before). This word may need more time and attention.
Context - Where have you heard it before?	If the student has heard the word before, what context was it in? Response: record context (e.g., person, place, situation)	This question will help you understand the knowledge the student has of this word (e.g., knowledge of the word "system" in the context of FM system, but not in the context of science curriculum).
3 - I can use it in a sentence	The student may not be able to fully explain the word, but they can use the word (correctly) in a sentence. Response: record sentence	This shows that the student has some knowledge of the word, but will need some more teaching to fully understand it.
4 - I know the function, attribute, category, synonyms, or antonyms	The student may not be able to define the word, but they can explain certain aspects of the word (e.g., how it is used, a synonym, whether it is a noun or a verb, etc.). Response: record aspects given by student	This shows that the student has some knowledge of the word, but needs a little more information to be able to fully understand it.
5 - I can give the definition	The student (accurately) defines the word Response: record definition	The student knows and understands this word and should not need much time devoted to it.

Vocabulary Rating Checklist

Student Name: _____ Date: _____

Vocabulary Item	1 - I've never heard it before	2 - I've heard it but don't know the meaning	<i>Context:</i> Where have you heard it before?	3 - I can use it in a sentence	4 - I know the function, attribute, category, synonyms, or antonyms	5 - I can give the definition

Vocabulary Item	1 - I've never heard it before	2 - I've heard it but don't know the meaning	<i>Context:</i> <i>Where have you heard it before?</i>	3 - I can use it in a sentence	4 - I know the function, attribute, category, synonyms, or antonyms	5 - I can give the definition

Vocabulary Strategy Checklist

Using the vocabulary items selected from the vocabulary lists by the classroom teacher, fill in the first column of the table below. It is helpful to go through the *Vocabulary Rating Checklist* prior to this *Vocabulary Strategy Checklist*, to help guide how much attention needs to be devoted to a particular vocabulary item based on the student's current knowledge of the word.

You should **not** use every strategy in the table with a single vocabulary item. We have included a variety of strategies to help target a student's knowledge of a word, but do not intend for all 17 to be used together. Select a few that are relevant to the particular vocabulary item, the student's skills, and the student's knowledge of the word. For example, if the student has never heard the word before, it likely makes sense to start with some of the basic strategies to begin to develop their understanding of the word. If the student can use the word in a sentence, but can't give a definition, it likely makes sense to use some of the more intermediate or advanced strategies to foster their knowledge of the word.

As the student's knowledge of the word increases, select some more challenging strategies. Ideally you want to use a variety of strategies to help the student develop a full understanding of the vocabulary items.

Note: Some of the columns may not apply to all of the vocabulary words (eg. acting out the word).

Vocabulary Strategy Checklist - Part 1

Student Name: _____ Date: _____

Fill in the first column of the table below with the target vocabulary items (selected by the classroom teacher from the vocabulary list).

Note: Some of the columns may not apply to all of the vocabulary words (eg. acting out the word).

Vocabulary Item	The student can...								
	1 - repeat the word when someone else models it	2 - identify a picture of the word	3 - say the word on its own	4 - draw a picture of the word	5 - act out / demonstrate the word	6 - select the correct definition from a group of options	7 - name the class of the word (eg. noun, verb, adjective)	8 - use the word in a sentence	9 - define the word
Difficulty Level	Basic					Intermediate			

Vocabulary Strategy Checklist - Part 2

Student Name: _____ Date: _____

Fill in the first column of the table below with the target vocabulary items (selected by the classroom teacher from the vocabulary list).

Note: Some of the columns may not apply to all of the vocabulary words (eg. acting out the word).

Vocabulary Item	The student can...							
	10 - talk about related words / concepts	11 - use the word multiple ways	12 - manipulate the word into different classes (eg. verb - to run; noun - runner)	13 - recall the word a week later	14 - talk about the phonological properties of the word (eg. number of syllables, first letter, vowel sounds)	15 - spell the word out loud	16 - read the word	17 - write the word
Difficulty Level:	Advanced				Literacy			

Summary Form: Vocabulary

Student Name: _____

Date: _____

Note: Only administer sections relevant to your specific student's needs. This summary form can help to guide programming.

Information - What is this task assessing? These tools help with the monitoring of knowledge related to curriculum-based vocabulary being used in the classroom.	Vocabulary items in the accompanying lists were pulled from the Ontario Ministry of Education curriculum documents. Tier 2 vocabulary is used across many domains, and is therefore ideal vocabulary to target in intervention as it has the potential to be most useful for students.	
Section A: Student Performance – use table on reverse side to capture student performance		
Section B: Prompts, Supports, Accommodations – use this table to summarize helpful strategies		
List prompts or supports attempted or trialed	Effective (E) Sometimes Effective (S) Not Effective (N)	Notes
Accommodation(s) that may be helpful for this student (e.g., for intervention, in the classroom, in general, etc.): 		
Section C: Next Steps (where to go from here) <ul style="list-style-type: none"> ● Target relevant vocabulary items with which the student is less familiar. See Vocabulary Strategy Checklist for evidence-based strategies to target vocabulary. ● Target Tier 2 vocabulary to allow the greatest benefit from intervention (as these vocabulary items can be used in diverse situations). ● Provide opportunities for word use in other contexts (e.g., send a word list home for practice) ● Incorporate other languages, if applicable (e.g., provide translations of vocabulary words in students' additional language(s) to foster vocabulary knowledge - may seek assistance from parents for this) Note: use the supports considered effective in <i>Section B</i>		
Section D: Sample IEP Statements <i>Note: Be sure to adapt these sample statements to be appropriate for your specific student, their goal(s), and the practices of your specific school board.</i> <u>Sample Statement #1:</u> The student will increase vocabulary knowledge of curriculum-based vocabulary from grade X mathematics curriculum. <u>Sample Statement #2:</u> The student will show their understanding of curriculum-based vocabulary by responding accurately to relevant questions in their science and technology curriculum. <u>Sample Statement #3:</u> The student will increase vocabulary knowledge to understand and define curriculum-based vocabulary terms from the grade X science and technology curriculum.		

Section A: Student Performance

Indicate the vocabulary items targeted with the student in the Vocabulary Items Known section (if the student knows the vocabulary item) or the Vocabulary Items to Target section (if the student does not know the vocabulary item well). The Vocabulary Rating Checklist can be used to help determine the student's level of knowledge of vocabulary items. Include any relevant notes (e.g., prompts used, observations, etc.).

Vocabulary	Date(s)			Notes
Vocabulary Items Known <i>(e.g., items for which the student was able to provide a definition)</i>				
Vocabulary Items to Target <i>(e.g., items for which the student was unable to provide a definition, even if partial word knowledge is evident)</i>
