

# Mitacs

Delivering Innovation Through  
Research, Development and  
Training

How do we do that?

# fund collaborative research projects

**ALL Disciplines**

**Industry, Not-for-Profits  
All Sectors**

# Mitacs Accelerate

More than  
**20,000**  
internships in  
Canada  
since 2007

Small- and large-scale  
**multidisciplinary** projects

Funding from  
**\$15,000 to multi-million \$**

**Over 90%**  
application  
success rate

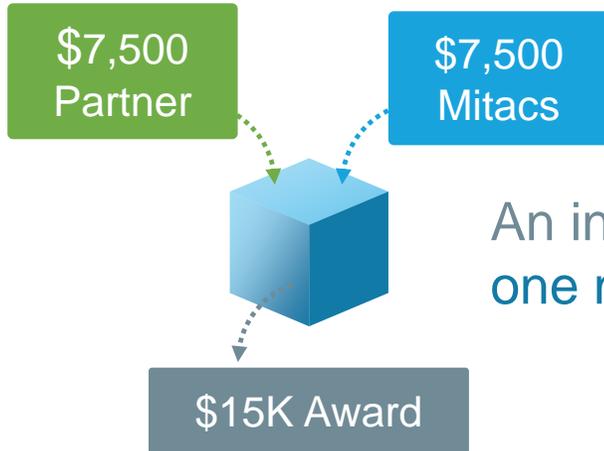

**Quick**, simple  
application process

Decision within  
**6–8 weeks**

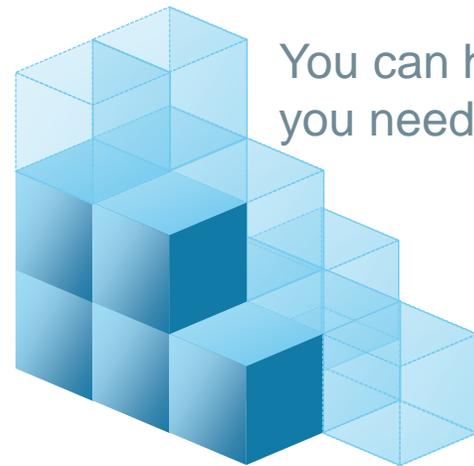

Both domestic and  
foreign students and  
postdoctoral fellows  
are **eligible**

# Mitacs Accelerate

An intern spends a minimum of 4-to-6 months — or one module — on a project.

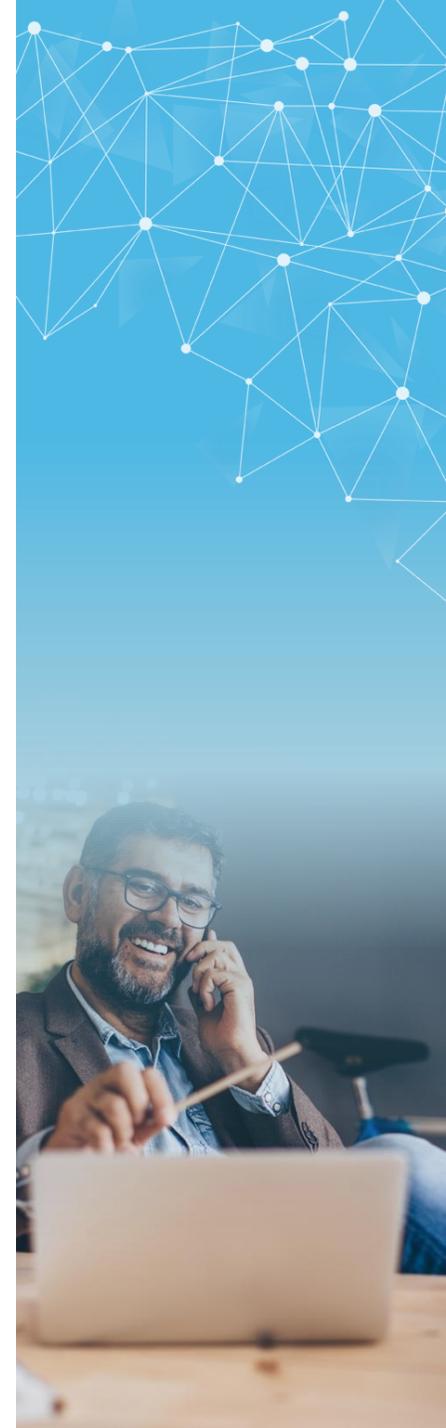

You can have as many modules as you need.

Better leveraging is available for larger projects

Trainees split their time between academic and partner site (min 25%)

# Mitacs Accelerate—strategic partners

While Accelerate is a standalone funding program, it can be used in conjunction with certain other partnership programs.

SSHRC  CRSH

CIHR IRSC

GenomeCanada

Ontario Centres  
of Excellence

Where Next Happens

# Thanks to our funding partners

Canada 

# Thank you for your interest
