ITEM 1.0 – Land Acknowledgement

ACTION: APPROVAL INFORMATION DISCUSSION

A land acknowledgement will be offered at the start of the Senate meeting.

Offering a land acknowledgment was adopted as a standard practice at Senate on December 9, 2016.

Dr Christy Bressette, the Vice-Provost and AVP (Indigenous Initiatives), has indicated that it is important to remind ourselves regularly of our commitment to reconciliation and decolonisation, and to ensure that these objectives remain central in our collegial decision-making.

In the spring of 2021, the recommendation to offer a land acknowledgement was extended to Senate's committees.

Members of OAC were broadly supportive of this practice, while also being mindful that land acknowledgments should be meaningful and dynamic, and not simply a rote exercise.

Some suggestions for practices that might be most meaningful and relevant to Senate and committee meetings are:

- a land acknowledgement
- a reminder of one or more of the TRC Calls to Action, particularly those relating to education
- a reminder of elements of Western's Indigenous Strategic Plan
- a reference to local Indigenous culture or narratives

ITEM 2.0 – Minutes of the Meeting of March 15, 2024

It was moved by B. Cheadle, seconded by C. Steeves,

That the minutes of the meeting of February 15, 2024, be approved as circulated.

CARRIED

BUSINESS ARISING FROM THE MINUTES

ITEM 2.1 – Business Arising: Revisions to the Policy on “Progression Requirements – Dentistry”

Senate initially considered this proposal at its meeting on January 19, 2024. The proposal was tabled due to concerns raised. The revised proposal of the policy on “Progression Requirements – Dentistry” was presented to Senate for approval.

It was moved by C. Steeves, seconded by D. Laird,

That on the recommendation of the Senate Committee on Academic Policy, Senate approve that effective September 1, 2024, the policy on “Progression Requirements – Dentistry” be revised as shown in Item 2.1.

CARRIED

REPORT OF THE PRESIDENT

A. Shepard, President and Vice-Chancellor, referred to the written report provided to Senate in advance of the meeting.

A. Shepard opened his remarks by encouraging Senators to honour colleagues with different awards nominations. He acknowledged the importance of recognizing achievements and successes, and highlighted Western’s commitment to promoting this culture.

A. Shepard continued his report by commenting on the reduction in the allocation of study permits to international students.

A. Shepard concluded his report by sharing information on several events that have taken place and are planned on campus, including the upcoming Spring Open House for prospective Western students.

In his final remarks, the President welcomed Emilie Kalaydjian who has been elected as

President of the University Students' Council (USC) as of May 1, 2024.

REPORT OF THE PROVOST

F. Strzelczyk, Provost & Vice-President (Academic), reported on the updates and initiatives under her portfolio and began her report by sharing information that the Faculty of Education at Western was ranked the 4th best faculty of education in Canada and 75th worldwide.

The Provost continued her report with an update on the United Way Campaign, noting that the fundraising goal was exceeded. She further reported on the progress of the budget planning process.

The Provost provided an overview of the ongoing searches for several senior leaders and expressed gratitude for E. Chamberlain's leadership, welcoming A. Botterell as Acting Dean of the Faculty of Law commencing July 1, 2024. Additionally, she advised Senators that Ileana Paul has agreed to serve as Acting Dean of the Faculty of Arts and Humanities for a two-year term beginning July 1, 2024.

In concluding her report F. Strzelczyk shared the percentage of job offers accepted by Brescia staff and faculty, along with outlining the efforts made to support Brescia students.

REPORT OF THE VICE-PRESIDENT (RESEARCH)

P. Pexman, Vice-President (Research), provided an update on Western's research activities and began her remarks by highlighting the importance of interdisciplinarity in research and collaboration. She commented on Western's ongoing efforts to advance interdisciplinarity, along with building research capacity to enhance individual and collective success.

In the second part of her report, P. Pexman provided information on the awards and distinctions, including the recent Annual Western Research Award celebration. She concluded the report with an announcement of the six new Canada Research Chairs named at Western and a brief update on research funding.

ITEM 6.1 – Faculty of Health Sciences: Amendments to the Faculty Council Constitution - Composition and Rules of Procedure

On behalf of the Operations/Agenda Committee, E. Chamberlain presented the Amendments to the Faculty Council Constitution - Composition and Rules of Procedure for approval.

It was moved by E. Chamberlain,

Conditional on Senate and Board approval of the creation of the Brescia School of Food and Nutritional Sciences in the Faculty of Health Sciences, and on the closing of the Brescia-Western integration, that on the recommendation of the Operations/Agenda Committee, Senate approve that effective May 1, 2024, the Faculty of Health Sciences' *Faculty Council Constitution - Composition and Rules of Procedure* be revised as shown in item 6.1.

CARRIED

ITEM 6.2 – Amendments to the Senate By-Laws

The revisions to the Senate By-Law were presented for information, given the 14-day notice requirement for changes to the By-Laws and will be brought to Senate for approval at the April meeting.

REPORT OF THE SENATE NOMINATING COMMITTEE

ITEM 7.1 – Membership – Selection/Review Committee for the Dean of Schulich School of Medicine & Dentistry

Lisa Henderson, Lisa Cechetto and Denis Maxwell were acclaimed to the Selection/Review Committee for the Dean of Schulich School of Medicine & Dentistry.

ITEM 7.2 – Membership – Selection Committee for an Associate Vice-President, Research (Health)

Miriam Capretz, Isaac Luginaah, Angela Roberts and Kevin Moore were acclaimed to the Selection Committee for an Associate Vice-President, Research (Health).

REPORT OF THE SENATE COMMITTEE ON ACADEMIC POLICY

ITEM 8.1 – Revisions to the Policy on “Admissions”, School of Graduate and Postdoctoral Studies

On behalf of the Senate Committee on Academic Policy, M. Adler presented the revisions to the Policy on “Admissions”, School of Graduate and Postdoctoral Studies for approval.

It was moved by M. Adler,

That on the recommendation of the Senate Committee on Academic Policy, Senate approve that effective March 15, 2024, the Graduate and Postdoctoral Studies policy on “Admissions” be revised as shown in Item 8.1.

CARRIED

ITEM 8.2 – Revisions to the Policy on “Admission – MD Program”

On behalf of the Senate Committee on Academic Policy, M. Adler presented the revisions to the Policy on “Admission – MD Program”.

It was moved by M. Adler,

That on the recommendation of the Senate Committee on Academic Policy, Senate approve that effective September 1, 2024, the policy on “Admission – MD Program” be revised as shown in Item 8.2.

CARRIED

ITEM 8.3 – Revisions to the Policy on “Course Outlines”

On behalf of the Senate Committee on Academic Policy, M. Adler presented the revisions to the Policy on “Course Outlines” for approval.

A Senator raised concerns referring to the earlier discussion at Senate with respect to the requirement for a mandatory statement on Gender-Based and Sexual Violence to be included as part of all course outlines. They suggested an alternative solution to keep the additional statements as a resource in a prominent location. In response to the concerns, S. Lewis, Vice-Provost (Academic Programs), provided rationale for adding a statement on Gender-Based and Sexual Violence to the course outline and advised that the inclusion of a required statement on course outlines was a recommendation included in the final report of the Action Committee on Gender-Based and Sexual Violence. Additionally, she commented on various options for the placement of important information and considerations within this process.

A Student Senator expressed support for the inclusion of the statement on Gender-Based and Sexual Violence to ensure easy access to information for students.

It was moved by M. Adler,

That on the recommendation of the Senate Committee on Academic Policy, Senate approve that effective September 1, 2024, the policy on “Course Outlines” be revised as shown in Item 8.3.

CARRIED

ITEM 8.4 – Academic Policy Working Group Update: Academic Consideration Policy – Report on Consultations

S. Lewis, Vice-Provost (Academic Programs), and M. Modeski, University Registrar, presented an update from the Academic Policy Working Group on the Academic Consideration Policy (Appendix A).

M. Modeski provided a high-level summary of the results from consultations that occurred across campus with respect to the academic consideration policy.

S. Lewis commented on medical documentation associated with academic considerations and advised on resolving the issue of students' access to medical notes under the undergraduate health plan. Additionally, S. Lewis provided the key issues identified from the consultations that need to be addressed.

In response to a question from a Senator, S. Lewis clarified that this policy specifically pertains to undergraduate students.

M. Modeski addressed a question of clarification regarding online opportunities for completing

makeup exams.

A Senator made an observation regarding the need to outline specific procedures for group projects. M. Modeski noted that this point will be discussed by the working group. S. Lewis recommended considering different levels of consideration, including both central policy and specific regulations by the Faculties.

Senators were invited to provide their questions and concerns to the working group through email.

REPORT OF THE SENATE COMMITTEE ON UNIVERSITY PLANNING (SCUP)

ITEM 10.1– Faculty of Health Sciences: Approval for the Creation of a New School Named the Brescia School of Food and Nutritional Sciences

On behalf of the Senate Committee on University Planning, D. Laird presented for approval the Creation of a new school named the Brescia School of Food and Nutritional Sciences.

It was moved by D. Laird,

That on the recommendation of the Senate Committee on University Planning, Senate approve and recommend to the Board of Governors the creation of a new School in the Faculty of Health Sciences, named the Brescia School of Food and Nutritional Sciences, effective May 1, 2024, conditional on approval by the Board of Governors and the closing of the merger as contemplated in the MOA between Western University and Brescia University College approved January 10, 2024.

CARRIED

REPORT OF THE UNIVERSITY RESEARCH BOARD (URB)

ITEM 11.1 – Western Postdoctoral Status Report

K. Siddiqui, Vice-Provost (Graduate and Postdoctoral Studies) provided a presentation on the data generated by the School of Graduate and Postdoctoral Studies on the postdoctoral scholars at Western, including but not limited to, various metrics broken down by the faculty, residency, and countries of origin (Appendix B). Additionally, he provided data on the average gross salary range across Canada and in comparison with Western's figures.

K. Siddiqui responded to questions of clarification regarding the data presented and advised that about 70% of postdoctoral scholars are funded through research grants.

A Senator made an observation emphasizing the importance of postdoctoral funding.

K. Siddiqui addressed a question regarding Western's position in comparison to other institutions within the U-15 group.

ITEMS REMOVED FROM THE CONSENT AGENDA

ITEM 13.5(a) – Vice-Provost’s Annual Report on Faculty Recruitment and Retention

A Senator requested this item be removed from the Consent Agenda as they wanted to have more information regarding the recruitment and retention data.

M. McGlynn, Vice-Provost (Academic Planning, Policy & Faculty), commented on the metrics presented on faculty recruitment and retention, broken down by gender balance, total resignations, and degree credit courses taught by part-time faculty across different faculty.

M. McGlynn responded to questions of clarification regarding probationary and tenured faculty data and mentioned that the category of probationary teaching scholars was presented separately four years ago and this category should be counted in overall numbers. She noted that the increase in the limited-term appointments is driven by Faculty needs.

M. McGlynn emphasized that all the categories presented in the report are identified by the collective agreement.

DISCUSSION AND QUESTION PERIOD

The full text of the questions submitted in advance of the meeting was posted in the Agenda at Item 14.0 prior to the meeting. The questions and responses are summarized below:

1. A Senator raised a question of clarification concerning the two significant changes to Western’s education program, shortening the degree duration, and upgrading the B.Ed. to a Master of Teaching and Learning and with respect to potential implications of these changes.

D. Kotsopoulos, Dean of the Faculty of Education, provided clarification on matters related to the rationale for the changes in the teacher education program. These matters include the transformation of the program over the years, which initially was presented at the Master’s level and subsequently changed to a Bachelor of Education, as well as the potential benefits for students.

2. A Student Senator raised a question with respect to Ramadan and accommodation for religious holidays, specifically concerning the problems that students encounter.

In response to this question S. Lewis provided a presentation (Appendix C) that included information on several reviews of the policy on accommodation for religious holidays, feedback from Senate, U15 policy approaches, along with the next planned steps for updates to the policy.

A Student Senator made an observation that implementing a central policy would be more appropriate, rather than addressing issues at the instructor level.

3. A Senator raised a question regarding the future of the Senate seats designated to Brescia University College after May 1, 2024.

C. Whippey, Associate University Secretary, stated that the Senate membership is governed by the UWO Act and once the integration is completed the Senate membership will be revised to align with the Act.

In response to a question from a Senator regarding the funding perspective for graduate students, K. Siddiqui, Vice-Provost (Graduate and Postdoctoral Studies) stated that the minimum funding for graduate students at Western was increased in 2023 and monitoring is still ongoing.

K. Siddiqui addressed questions of clarification on the approach to increasing graduate funding.

Consultations across campus

Consultation Groups

- Health Sciences
- Music
- Arts & Humanities
- Science
- Academic Advising Managers
- Engineering
- Social Science
- Information & Media Studies
- Basic Medical Sciences Undergraduate Education
- Huron
- King's
- University Student's Council
- UWOFA

Consultations across campus

Additional Notes

- Susan and/or Marisa attended every policy consultation meeting
- Roughly 60 faculty members and 20 students were present – mix of Faculty EPC meetings, and meetings set up with the sole purpose of discussing this policy
- Notes were taken at each meeting (without attribution)
- Summary themes provided to Working Group and Senate
- Consultations took place January – March
- Dr. James Stewart (Physician Team Lead, Health and Wellness) and legal counsel also consulted

Exams and Midterm Tests

- Desire for hard stop for make-up exams. Students should be made aware of the consequences of missing an exam
 - For example... Final → make-up exam → next offering of the course → WD
- Desire for central support to organize and proctor make-up midterms and final exams, especially for limited-duty instructors
- Difficult to reach consensus over maximum re-weighting of final exams in campus-wide policy

Flexibility

- Several faculty members are incorporating flexibility in their courses, many very effective in reducing the need for consideration
- The policy should not include direct examples of flexibility – those will be part of a separate resource
- Desire for a barrier for considerations when flexibility is clearly stated within the course outline. Instructors may desire the ability to “reject due to built-in consideration”

Medical Documentation

- Over 70% of academic consideration requests include medical documentation
- With the exception of a fraudulent note, the documentation is accepted
- With the emergence of Telehealth and medical notes being included in the Student Healthcare Plan, there is no barrier to receiving a medical note

Procedure

- Central portal for intake of consideration requests will allow for more detailed tracking, central support for triaging and processing requests
- Students, advisors, and instructors need detailed documentation on how any new processes work
- More impetus on student to provide information for each request (ex. course and component missed) and attestation of information before submission

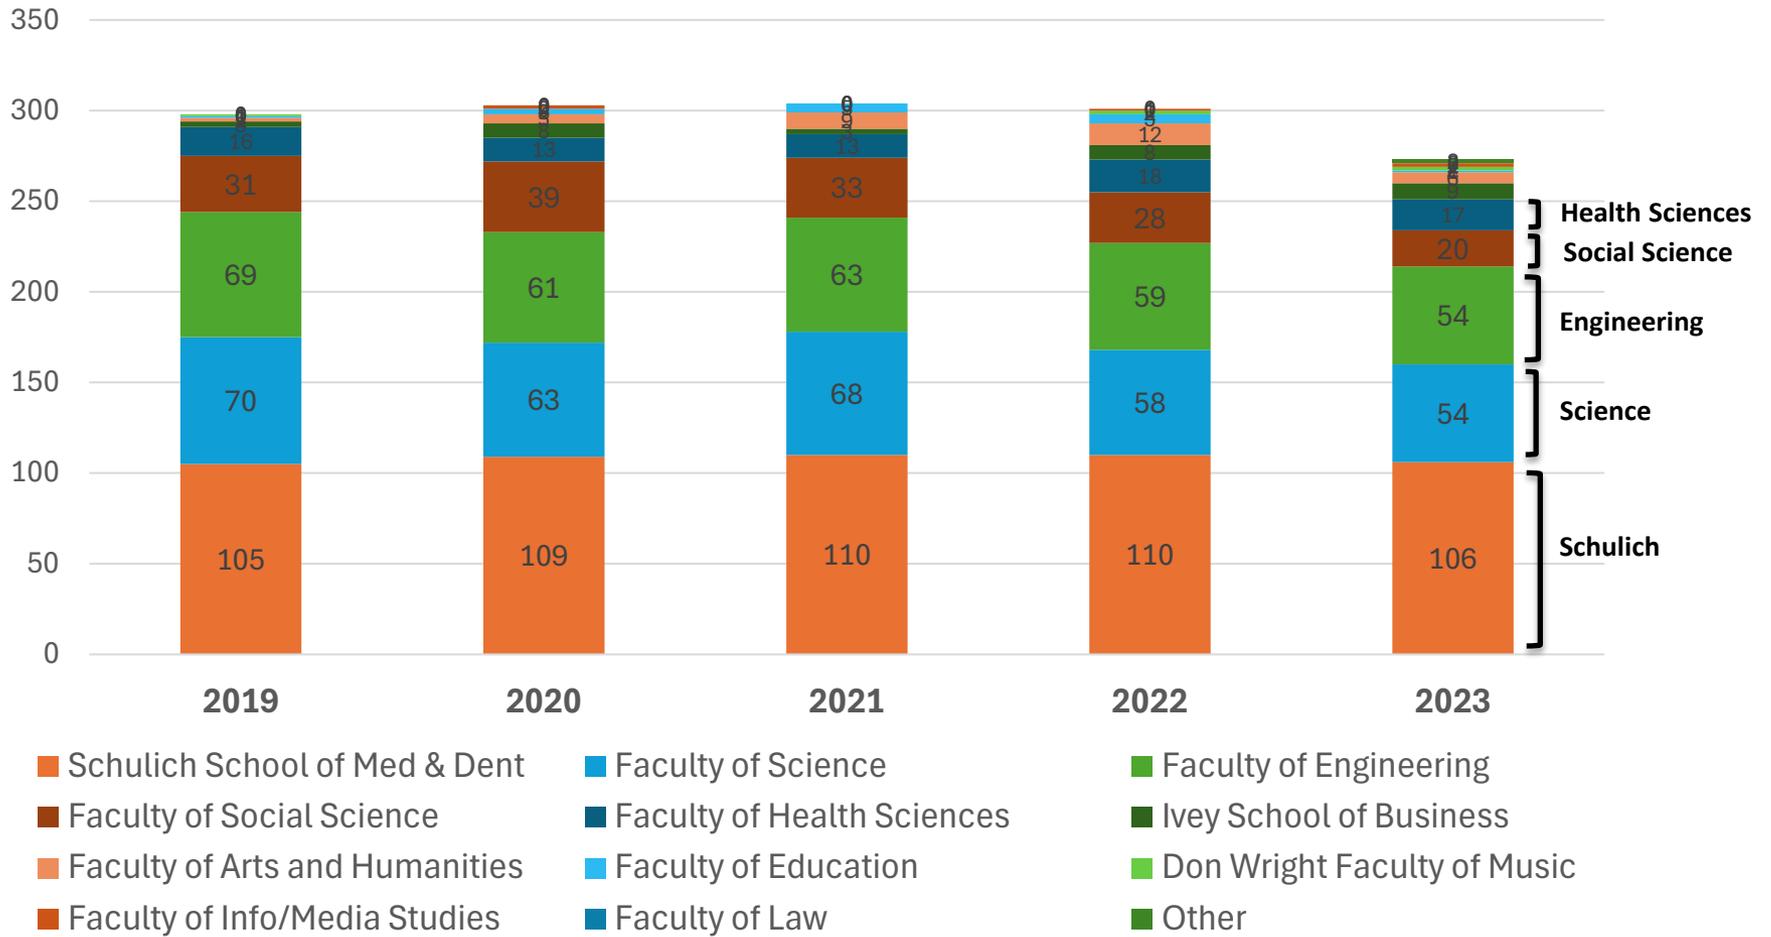

Key Questions Moving Forward

- What role should medical documentation play?
- At what point have the essential course components not been completed? How much missed work is too much? How many special exams is too many?
- What supports would be needed for implementation?
- Would considerations be submitted by course, or by length of absence (cover all courses in that time frame)?
- Currently, requests for consideration for missed work less than 10% are handled directly with the instructor (without documentation). Is this something we want to maintain?

Accommodation for Religious Holidays

- “no student penalized for absence because of religious reasons”
- Instructor level – consult Department Chair and Dean, if necessary
- Student to inform instructor as soon as possible
- Resources: list of dates, Office of Equity, Diversity and Inclusion, Canadian Centre for Diversity and Inclusion (CCDI) Diversity Calendar
- Desire for policy renewal: spiritual observances, notification route, student-facing guidance

It was moved by M. Milde, seconded by K. Pollock,

That on the recommendation of the Senate Committee on Academic Policy, Senate approve that effective July 1, 2023, an "Interdisciplinary Combined PhD Option" policy be introduced as shown in Item 7.1 as amended.

CARRIED

S.23-136 **ITEM 7.2 – Revisions to the “Accommodation for Religious Holidays” Policy**

M. Milde provided an overview of the proposed changes to the “Accommodation for Religious Holidays” policy.

A Senator raised concerns with respect to the appeal process described in the policy. M. Milde provided an explanation regarding the current appeals process.

In response to a concern regarding the notification process M. Milde stated that with respect to human rights, accommodation for religious holidays should be considered as a notification rather than a request.

A lengthy discussion ensued regarding the proposed changes to the “Accommodation for Religious Holidays” policy. During the debate on the motion the following points were raised:

Senate Minutes
June 9, 2023

Page 4

- Concerns with respect to multi-day accommodation, especially for short-term courses.
- A suggestion to not specify major religious holidays in a list. When a policy identifies certain religions while excluding others, it leads to discrimination and does not reflect human rights principles.
- A concern regarding the requirement to not schedule the final exams during religious holidays, as being too broad.
- A suggestion to use the term "accommodation" which refers to a legal obligation rather than "academic consideration" and to reflect that in the policy.
- An observation that it is important to take into consideration the observation of multiple religions.

It was moved by M. Milde, seconded by K. Pollock,

REPORT OF THE PRESIDENT

To: Senators
From: Alan Shepard
Date: April 12, 2024
Re: Monthly report for April 2024

Dear Senators,

Following are some noteworthy developments since my last report for the Senate meeting of March 15, 2024.

Western strengthens collaborations in Uganda: Western signed a memorandum of understanding on March 21, 2024, with Makerere University, Uganda's largest and oldest institution of higher learning. The MOU broadens Western's existing partnership with Makerere including Schulich Medicine & Dentistry's formal agreement signed in 2006.

Canada Research Chairs named, renewed: **adam bell** (Music), **Katarina Grolinger** (Engineering), **Yanping Li** (Science), **Lindsay Nagamatsu** (Health Sciences), **Angela Roberts** (Science, Health Sciences), and **Ayan Sadhu** (Engineering) were named to new Canada Research Chairs. **Katsu Goda** (Science) and **Haojie Mao** (Engineering) were renewed.

Canada Foundation for Innovation Funding: a new investment of **\$14.7 million** will support five Western projects including tracking wildlife, biotherapeutics, state-of-the-art neuroimaging tools, mouse translational research models, and a research institute with children (King's).

Western draws top number of Early Researcher Awards: Western was one of two Ontario universities to attract the highest number of Early Researcher Awards, with 10 faculty receiving up to \$100,000, matched by an additional \$50,000 from Western. Congratulations to **Lindsay Bodell, Emma Duerden, Marcus Drover, Yolanda Hedberg, Jibran Khokhar, Daniel Langhor, Carrie Anne Marshall, Mohammad Reza Najafi, Eva Pila, and Taylor Schmitz.**

Accolades: Congratulations to the following Western community members who, among others, have received special honours and awards in recent weeks:

- **Carolyn McLeod** (Arts & Humanities), **Frank Beier** (Schulich), **Michelle Mottola** (Health Sciences, Schulich) named Distinguished University Professors in recognition of their leadership, research excellence, and community service.
- **Vladimir Hachinski** (Schulich) received the 2024 Ryman Prize, an international award from the Ryman Foundation in New Zealand, in recognition of his contributions to advancing brain health and healthy aging.
- **Maxwell Smith** (Health Sciences) appointed CIHR Chair in Applied Public Health.
- **Tom Appleton** (Schulich) awarded the Canadian Rheumatology Association's Emerging Investigator Award.
- Students **Riddhi Gadre**, **Glen Dsouza**, **Jaimy Hannah**, and **Maxine Montpetit** won Western's inaugural President's Challenge with a pitch for mobile diagnostic imaging.
- Students **Kierra Holowachuk** (Engineering, Ivey) and **Allison Pert** (Science), along with **Julie Strychowsky** (Schulich) received Western's 2024 Green Awards.
- Student **Alexandra Elmslie** (Social Science) awarded the 2021/22 Ontario Medal for Young Volunteers, in recognition of her leadership and volunteerism to support children with neurological disabilities.
- Western's Student Emergency Response Team (SERT), founded by alumnus **Robert Garland**, celebrated its 35th anniversary.
- Western student **Aisha Imana** (Social Science) and alumna, **Ziyana Kotadia**, selected by Young Democrats of Canada to attend the UN Commission on the Status of Women in New York City March 11 to 22.
- Seven students and recent alumni from the Don Wright Faculty of Music selected to play with the National Youth Orchestra of Canada: **Chia-Hsuan Chen**, **Ivan Li**, **Miriam Elsawi**, **Rachel Miner**, **Tasman Tantasawat**, **Luke Roussy**, and **Andrew Busch**.
- Western alumni **Lori Bieda**, **Tara Deakin**, **David Simmonds**, **Mahima Poddar**, and **Mark Miller** named among recipients of the 2024 Best Executive Awards by

the *Globe and Mail Report on Business* magazine.

- Alumna and former Chancellor, **Linda Hasenfratz**, appointed Chair of the Canadian Advisory Board of Catalyst Canada.
- **Tassneem Hamed** (BSc'22) named Zenith Fellowship mentee from the Zenith Canada Pathways Foundation, a not-for-profit organization dedicated to promoting equity, diversity, and inclusion in Canada's space sector.
- **Derrick Emsley** (HBA'12), co-founder of Tentree, awarded inaugural Ivey Worldchangers Award.
- Alumna **Diane Silva** appointed President and CEO of London Community Foundation.
- **Gillian Riley** (BA'89) named a recipient of the Corporate Leadership Award as part of the Women of Distinction Awards, YMCA Toronto.

Leadership updates:

Erika Chamberlain, Dean of Law, announced plans to step down as of June 30, 2024.

Andrew Botterell has accepted an invitation from Provost & Vice-President (Academic) Florentine Strzelczyk to serve as Acting Dean for a one-year term, effective July 1, 2024.

Jayne Garland, Dean of Health Sciences, also announced plans to step down effective March 31, 2025. A selection committee will be formed to begin the recruitment process for the next Dean.

Thank you to both Erika and Jayne for their continuing dedication and service to the University.

Alex Irving has been named Western's new Executive Director of Government Relations and will begin his role April 22, 2024.

Geoffrey Little has been named Vice-Provost (Libraries) and Chief Librarian. His five-year term begins July 22, 2024.

Karen Bertrand has been appointed Vice-President (University Advancement), effective August 1, 2024.

SENATE BY-LAWS

N.B.: For continuity of ease and reference, certain specific provisions within The University of Western Ontario Act (1988) are cited at the beginning of the particular Articles of these By-Laws to which they are relevant.

I. OFFICERS

Note: The UWO Act (1988), Section 24(3) provides that:

"The Vice-Chancellor shall be the Chair of the Senate, and a vice-chair shall be elected from among its members in such a manner as the Senate may establish."

1. The duties of the Chair shall be to preside at meetings and carry out such other duties as the Senate may from time to time prescribe.
2.
 - a) The Vice-Chair of Senate shall be elected annually at the first regular meeting of Senate held after the first day of April.
 - b) In the absence of or at the request of the Chair, the Vice-Chair shall preside at meetings or fulfill any other duties of the Chair.
 - c) The Vice-Chair shall be a member of the Operations/Agenda Committee, ex officio.
3. In the case of the absence of the Chair and the Vice-Chair the Senate may appoint one of its members to act as Chair for the time being and the member so appointed shall act and have all the powers of the Chair.
4.
 - a) The Secretary of the Senate, as the executive officer of Senate, shall be responsible for ensuring that the day-to-day business affairs of the Senate are conducted in an orderly and efficient manner, for the recording and dissemination of the work of the Senate and its Committees, for the provision of advice on the proper interpretation and application of the By-Laws, Rules, Policies, Procedures and Academic Regulations of the Senate, and such other duties as the Senate may from time to time prescribe. (See also By-Law X.)
 - b) The Secretary shall maintain a Minute Book, a copy of the Senate By-Laws and Rules of Order, and any other public documents of the Senate, which shall be open for the inspection of any person at reasonable times.
5. In the absence of the Secretary of the Senate, the Associate Secretary of Senate shall fulfil the duties of the Secretary.

II. MEMBERS: RIGHTS AND RESPONSIBILITIES

1. Unless otherwise provided in the University Act, Senate By-Laws, Rules, or Policies, all members of Senate are entitled to participate fully in meetings of the Senate, speak, propose motions, vote on all questions, and sit on committees of Senate.
2. Pursuant to subsection 1, those ex officio members of Senate designated in the Act as non-voting shall enjoy all other privileges of Senate membership.

3. (a) No member of Senate may appoint or send a designate or proxy to act or vote on his/her behalf in the Senate.
- (b) Notwithstanding the provisions of 3(a), for the May and June meetings of Senate, if a student Senator is unable to attend, a Senator-elect in the same constituency will be invited by the Secretary of Senate to assume the vacant seat. In the case of undergraduate constituencies wherein there is more than one Senator-elect, the invitations will be extended to candidates in an order determined by their plurality in that election.

4. Pursuant to section 26.(3) of the UWO Act (1982), where within any membership year (July 1 – June 30) a member of Senate, other than an ex officio member, who has not been granted leave of absence attends less than 50 per cent of the regular meetings of the Senate, the Senate may by resolution declare such membership vacant.

[Note: Senators who find they have a schedule conflict with Senate meetings may apply for a Leave of Absence from Senate for the period of the conflict, in which case an Alternate will be appointed in accordance with the Senate policy for filling vacancies [see Senate Election Procedures for "Appointment of Alternates" and "Filling of Vacancies"].

- a) The Secretary of Senate shall remind a member of the attendance requirement after the member has failed to attend three regular meetings.
 - b) Once a member has failed to attend 50% of the regular meetings, the Operations/Agenda Committee will recommend to Senate that the member's seat be declared vacant, provided that the member shall first be given the opportunity to resign or to request leniency for reasons detailed in writing to the Operations/Agenda Committee.
 - c) Subject to b), the Operations/Agenda Committee will determine whether to recommend to Senate that the member's seat be declared vacant.
 - d) Notwithstanding b) and c), the Operations/Agenda Committee will advise Senate that a member's seat is to be declared vacant once the member has failed to attend 75% of the regular meetings in a membership year except that the member will be given the opportunity to resign.
5. a) Senate may establish Observerships, as deemed necessary, to provide for communication of Senate business to and from pertinent areas.
 - b) Observers so appointed may participate in discussion but shall neither move/second motions nor vote.

III. ELECTION PROCEDURES [See also, UWO Act (1988), Sections 24(4), 25, 26, 27]

Pursuant to The University of Western Ontario Act, procedures for the election of Senate members, appointment of Alternates, and filling of Vacancies, shall be as established by Senate from time to time and as set forth in Senate Election Procedures.

IV. MEETINGS

Note: The UWO Act (1988), Section 28, provides that:

- (1) The Senate shall meet at least four times in each academic year and at such other times as the Senate from time to time may prescribe.
- (2) A special meeting of the Senate shall be called on the written notice of any seven members thereof and shall be convened within 15 days thereafter, to consider the matter or matters set out in the notice.

and Section 31 provides that:

- (1) Subject to subsection (2), the meetings of the Board and of the Senate shall be open to the public and prior notice of such meetings shall be given to the members and to the public in such manner as the Board and the Senate by By-Law shall respectfully determine, and no person shall be excluded therefrom except for improper conduct but, where confidential matters of the University are being considered, that part of the meeting may be held in camera.
 - (2) Where matters of a personal nature concerning an individual may be disclosed at a meeting, the part of the meeting concerning such individual shall be held in camera unless such individual requests that such part of the meeting be open to the public.
1. A Notice of Meeting, accompanied by the Agenda, shall be mailed to each member of Senate, and upon request, to members of the news media, at least seventy-two hours prior to the time fixed for the meeting A Notice of Meeting shall be published in Western News in the edition preceding each scheduled meeting of Senate.
 2. The Agenda shall be prepared by the Operations/Agenda Committee. The business of the Meeting shall be confined to the Agenda unless the Senate otherwise decides.
 3. A quorum shall be one-half the voting members of Senate except in the months of June, July and August when a quorum shall be twenty-five voting members of Senate.
 4. Each voting member of the Senate, including the Chair, shall have one vote.
 5. Procedure at Senate Meetings shall follow the rules as determined by Senate from time to time and set forth in the [Rules of Order](#).
 6. Normally, only Senators or official Senate Observers may speak at Senate. However, the Operations/Agenda Committee may invite to Senate meetings special guests, or other persons to serve as a resource or to provide information on any Senate matter. In exceptional circumstances, Senate may also, by a two-thirds majority vote, elect to permit a guest to be heard at Senate.

V. MINUTES

The Minutes of Senate shall contain a record of the resolutions dealt with by Senate and such other matters as the Senate from time to time may decide.

VI. COMMITTEES, COUNCILS, BOARDS [See also, UWO Act Section 29(a)]

Note: In these By-Laws, Committees, Councils, Boards shall be deemed to refer only to those bodies subject to the sole authority of Senate and, for the purpose of these By-Laws, are not inclusive of the Councils of the various Faculties and Schools.

1. The Senate shall establish a Nominating Committee, an Operations/Agenda Committee, and such other Committees, Councils or Boards, either standing or ad hoc, as from time to time it may deem advisable.
2. Unless otherwise provided by Senate, all Committees, Councils and Boards shall report only to Senate.
3. Unless otherwise provided by Senate, all Senate Committees, Councils and Boards may establish subcommittees, either standing or *ad hoc*.

The Terms of Reference of any subcommittee so established shall not be inconsistent with those of the parent Committee, Council or Board.

4.
 - a) The Chair of Senate shall be a member, ex officio, of Senate Committees and Councils.
 - b) The Provost and other Vice-Presidents shall be members, ex officio, of Senate Committees and Councils as shall be determined by Senate.
 - c) The Secretary of Senate shall be a member, ex officio, of Senate Committees, Councils and Boards, but shall be non-voting unless otherwise specified by Senate in the Composition of a particular Committee, Council or Board.
5. Either the Chair or the Vice-Chair of all Standing Committees, except the Senate Review Board Academic, shall be selected from those members of the Committee who are members of Senate.
6. The Chair of a Senate Committee, Council or Board shall be an ex officio member of its subcommittees.
7. Unless otherwise specified, all ex officio members of Senate Committees, Subcommittees, Councils and Boards shall be voting members.
8.
 - a) An ex officio member of a Senate Committee, Subcommittee, Council or Board may designate two persons to act on his/her behalf. The designates shall occupy official positions in the same unit and be able to fully represent the *ex officio* member at the meeting. The Secretariat's Office must be notified about the names of the designates by September 1 each year.
 - b) An appointed or elected member of a Senate Committee, Subcommittee, Council or Board may not designate a person to act on his/her behalf unless previously determined by the respective Committee, Subcommittee, Council or Board.
 - c) Notwithstanding the provisions of 8(b), for the May and June meetings of a Senate Committee, Subcommittee, Council or Board, if a student Senator is unable to attend, the member-elect will be invited by the Secretary of Senate to assume the vacant seat.

9. An Observer member of a Senate Committee, Subcommittee, Council or Board may participate in the discussion but shall neither move/second motions nor vote.

An Observer may designate a person to act on his/her behalf.

10. a) The terms of office for elected members of Senate Committees, Subcommittees, Councils and Boards, unless otherwise specified, shall be: students - one year, renewable; faculty/others - two years, renewable.

The membership terms shall be so staggered that approximately even proportions of the faculty/others members retire each year.

- b) The terms of office for members appointed by one committee to another, for the purpose of reporting back to the appointing committee, shall be one year, renewable.

11. a) Unless otherwise specified, the quorum for Standing Committees of Senate shall be one-half of the voting members, including at least one-half of the elected or appointed members, during September to May, and one-third of the voting members, including one-third of the elected or appointed members, during June, July and August.

- b) Unless otherwise specified, the quorum for all other Senate Committees, Subcommittees, Councils and Boards shall be one-half of all voting members during September to May, and one-third of all voting members during June, July and August.

12. Unless otherwise specified, where membership on Senate is an eligibility requirement for certain of the members of a Senate Committee or Subcommittee, the term of office and classification of any such member shall not be affected should the membership term on Senate expire before that on the Committee or Subcommittee.

If a member of a Committee or Subcommittee is not a member of Senate at the time of election or appointment but should become a member of Senate subsequently, his/her classification will then become that of a member of Senate.

13. a) A member elected by the Senate to a Senate Committee, Subcommittee, Council or Board may apply ~~to the Operations/Agenda Committee~~ for a Leave of Absence from two or more consecutive regular meetings of the body to which ~~he/she was they~~ **were** elected, as follows: ~~Upon the granting of the Leave of Absence, the Nominating Committee shall appoint a temporary replacement and report its actions to the Senate, except that in the case of the Nominating Committee, the Operations/Agenda Committee shall appoint the temporary replacement and report its action to Senate.~~

(i) for a Leave of Absence of six months or more, to the Operations/Agenda Committee, and on the granting of the Leave of Absence, the Nominating Committee shall appoint a temporary replacement and so report to the Senate;

(ii) for a Leave of Absence of less than six months, to the body to which they were elected, and on the granting of the Leave of Absence, that body may request that the Nominating Committee appoint a temporary replacement and so report to the Senate;

(ii) if pursuant to (i) or (ii) a member of the Nominating Committee is to be replaced, the Operations/Agenda Committee shall appoint the temporary replacement and so report to the Senate.

b) A member appointed or elected by a body other than the Senate to a Senate Committee, Subcommittee, Council or Board may apply for Leave of Absence to the appointing body. The appointing body shall appoint a temporary replacement, the action to be reported to the Secretary of Senate for report to Senate.

14. The seat of an appointed or elected member of a Senate Committee, Subcommittee, Council or Board may be declared vacant if the member during a membership year is absent from three regular meetings of that Committee, Subcommittee, Council or Board, without having been granted Leave of Absence.

15. The [Rules of Order](#) shall apply *mutatis mutandis* to all Senate Committees, Subcommittees, Councils, and Boards.

VII. PUBLIC DOCUMENTS [See also UWO Act (1988), Section 31, Subsections (3) and (4)]

The following shall be regarded as public documents:

- a) approved Minutes of Senate meetings
- b) By-Laws of Senate
- c) reports to Senate received at open meetings of Senate
- d) any other matter declared to be public by a motion passed by Senate

VIII. CONFIDENTIALITY

Note: The word "Committee" used hereafter includes Committees, Subcommittees, Councils and Boards of Senate.

- 1. The question of confidentiality, in the first instance, is a matter of the common sense, discretion and good judgment of the individual concerned. If there is any doubt as to the confidential nature of the information in question, it is the responsibility of the individual to seek a ruling from the Chair of the Committee.
- 2. Unless otherwise provided by Senate, meetings of Senate Committees are open only to members, designated Observers and Resource personnel, and others upon explicit invitation by the Chair of the Committee.
- 3. Unless otherwise provided by Senate, both oral and written reports of Senate Committees shall be confidential and shall not be made available to the University or general community until such time as they are:
 - a) distributed to Senators,
 - b) received by the Secretary of Senate where it is not the intent for the report to go further, or
 - c) received by a Committee of Senate where it is not the intent for the report to go further
- 4. Breaches of confidentiality, with respect to Committee reports, minutes, or discussions, or the unauthorized release of Senate information, may result in the suspension or dismissal of the member from the Committee upon the recommendation of the Committee to Senate.

IX. PARLIAMENTARY AUTHORITY

The Standard Code of Parliamentary Procedure by Alice Sturgis (Current Edition) shall govern the Senate in all parliamentary situations not provided for in the UWO Act, Senate By-Laws, or Senate [Rules of Order](#).

X. INTERPRETATION OF BY-LAWS, RULES, POLICIES, PROCEDURES

In any instance where a substantive question arises concerning the meaning or intent of a Senate By-law, Rule, Policy or Procedure, the Secretary of Senate shall render an interpretation which shall be reported to Senate for information through the Operations/Agenda Committee.

In reaching a decision, the Secretary may first seek the advice of the Operations/Agenda Committee or other appropriate body or person.

XI. AMENDMENTS TO BY-LAWS

1. Any proposed amendment to these By-laws shall first be submitted in writing to the Operations/Agenda Committee for review.
2. Notice of the proposed amendment, together with any recommendation of the Operations/Agenda Committee related thereto, shall be given at a meeting of the Senate at least 14 days prior to the meeting at which approval will be sought.
3. Approval of the amendment shall require a majority of those voting on the resolution in a regularly-constituted meeting of the Senate following the required Notice.

ITEM 9.1 – Huron University College: Introduction of a Subject Area in “Animal Ethics and Sustainability Leadership”

ACTION: APPROVAL INFORMATION DISCUSSION

Recommended: That on the recommendation of ACA, Senate approve that effective September 1, 2024, a subject area in “Animal Ethics and Sustainability Leadership” be introduced by Huron University College and included in Category A for Breadth Requirements for Graduation, as shown in Item 9.1.

EXECUTIVE SUMMARY:

Senate recently approved the introduction of a Major and Minor in Animal Ethics and Sustainability Leadership at Huron University College. This proposal is to create the complementary subject area.

“AESL” will be used in the Academic Calendar listing of modules/requisites instead of the full subject area name of “Animal Ethics and Sustainability Leadership”.

Following approval of the subject area, Huron University College will submit proposals to the Subcommittee on Undergraduate Academic Courses (SOC) to introduce AESL courses that will be cross-listed with the following required courses for the Major and Minor in Animal Ethics and Sustainability Leadership:

Management and Organizational Studies 2185A/B: *Animal Welfare and Sustainability Leadership*
Global Great Books 3001F/G: *Nature and Technology*
Governance, Leadership and Ethics 3011F/G: *Animals in Law and Policy*
Philosophy 3725F/G: *Animal Ethics*

ITEM 9.2 – Huron University College and King’s University College: Introduction of a Subject Area in “Islamic Studies”

ACTION: APPROVAL INFORMATION DISCUSSION

Recommended: That on the recommendation of ACA, Senate approve that effective September 1, 2024, a subject area in “Islamic Studies” be introduced by Huron University College and King’s University College and included in Category B for Breadth Requirements for Graduation, as shown in Item 9.2.

EXECUTIVE SUMMARY:

Huron University College and King’s University College propose the introduction of a subject area in “Islamic Studies” to improve the visibility of courses currently being offered in this field under the subject area of “Religious Studies”. The intention, following approval of the new subject area, is to introduce Islamic Studies cross-listings of current Religious Studies courses in the area (through the Subcommittee on Undergraduate Academic Courses (SOC)).

Both the Department of Religious Studies at King’s University College and the Faculty of Theology at Huron University College have offered courses on Islam and Islamic Studies for many years. Huron University College also offers courses in the proposed teaching area at the 5000-level, in the Master of Divinity and the Master of Theological Studies, with the latter degree program offering two concentrations in Islamic Studies. The two schools are also in discussions about the possibility of adding Huron University College as a campus to offer the Minor in Islamic Studies currently being offered at King’s University College. The addition of Islamic Studies as a subject area will also provide clear pathways for students in the module to complete its requirements.

ITEM 9.3 – King’s University College: Introduction of a Certificate in Ecological Justice and Climate Ethics

ACTION: APPROVAL INFORMATION DISCUSSION

Recommended: That on the recommendation of ACA, Senate approve that effective September 1, 2024, a Certificate in Ecological Justice and Climate Ethics be introduced by King’s University College as shown in Item 9.3.

EXECUTIVE SUMMARY:

The Certificate in Ecological Justice and Climate Ethics is designed to provide students with greater depth and awareness of the social, existential, and ethical dynamics of climate change so that they can contribute to ethical and proactive adaptation and response. It draws on a range of disciplines in King’s unique constellation of humanities departments to offer students grounding in critical diagnosis, creative action, and transformative thinking.

The Certificate is distinguished by its inclusion of a strong core of experiential learning. Students who complete this Certificate will participate in a year-long placement in a local organization whose mission is ecologically focused or complete 1.0 courses with an experiential land-based pedagogical component.

Module/Program Information

To qualify for the Certificate in Ecological Justice and Climate Ethics, students must: (i) complete 4.0 courses and (ii) satisfy the experiential learning requirement.

1.0 course from: Philosophy 2242F/G, Philosophy 3244F/G, Social Justice and Peace Studies 1025F/G.

2.0 courses from at least two disciplines from:

English: English 2262F/G.

Philosophy: Philosophy 2203, Philosophy 2208E, Philosophy 2227F/G, Philosophy 2246F/G, Philosophy 3244F/G, Special Topics courses (see Department for approved list).

Politics and International Relations: Political Science 3400F/G, Special Topics courses (see Department for approved list).

Religious Studies: Religious Studies 2230F/G.

Social Justice and Peace Studies: Social Justice and Peace Studies 1026F/G, Social Justice and Peace Studies 2290A/B, Social Justice and Peace Studies 2304F/G, Social Justice and Peace Studies 3362F/G, Social Justice and Peace Studies 3383F/G

Sociology: Sociology 2220A/B, ~~Sociology 3390F/G, Sociology 3391F/G~~, Sociology 3318F/G.

Thanatology: Thanatology 3331F/G.

1.0 course: Social Justice and Peace Studies 3500E (with placement in a local environmental organization) or 1.0 course with approved experiential learning components.

A list of approved Special Topics courses will be maintained and updated each year by the departments of Social Justice and Peace Studies and Philosophy.

All Certificate courses may be credited toward other undergraduate programs.

Certificate in Ecological Justice and Climate Ethics***

Description and Rationale

This Certificate is designed to provide students with greater depth and awareness of the social, existential, and ethical dynamics of climate change so that they can contribute to ethical and proactive adaptation and response. Such response requires skills that cut across traditional disciplinary divides and deeper understanding of social, existential, philosophical, and political causes of the crisis beyond its geophysical and earth science dynamics. It also requires the ability to creatively dialogue, engage, and work with a variety of skill sets and perspectives. In recognition of this multi-modal complexity, this proposed Certificate draws on a range of disciplines in King's unique constellation of humanities departments to offer students grounding in critical diagnosis, creative action, and transformative thinking.

The Certificate is distinguished by its inclusion of a strong core of experiential learning. Students who complete this Certificate will participate in a year-long placement in a local organization whose mission is ecologically focused or complete 1.0 courses with an experiential land-based pedagogical component. This opportunity is built on a foundation of community-based learning developed within the Social Justice and Peace Studies program over the past two decades.

Work on this Certificate began in response to a petition with nearly 100 signatures from students who wanted more course content engaging with the social, political, and existential dynamics of the climate crisis. In response to their requests, courses were added in Social Justice and Peace Studies and Philosophy that address theories of ecological justice, philosophy of nature and the Earth, integral ecology, environmental racism, gender and climate change, and Indigenous epistemology and metaphysics. The Certificate also reflects new faculty specialty in the Department of Philosophy. Finally, in keeping with King's University College's mission as a Catholic university, this Certificate responds to Pope Francis' direction in *Laudato Si* and *Laudate Deum* centring the climate crisis at the intersection of social, psycho-spiritual, and material harms and injustices.

Statistics from the Environmental Labour Market Demand Report show positive forecasts for environmental employment demand with job openings anticipated to approach a quarter-million by 2029.

In emphasizing existential and psycho-spiritual aspects of climate change, the Certificate also responds to the increasingly recognized prevalence of "eco-anxiety" amongst undergraduates. In addition to possible employment options, the Certificate thus gives students opportunities for sharing, discussing, and responding to this affective burden.

The Certificate also aligns with the City of London's Climate Emergency Action Plan, in particular its stated goals of "Advancing Knowledge, Research, and Innovation" and "Engaging, Inspiring, and Learning from People".

The last decade has seen substantial growth of green jobs in Canada. The Environmental Labour Market Demand Report accordingly forecasts sizeable hiring demand across the environmental sector due to a combination of job creation and high levels of retirement, opening up opportunities at all career levels. The report highlights that the environmental sector is expected to grow 8% by 2029 and the combination of new jobs and replacement demand may contribute as many as 233,500 net openings by this time. The demand for environmental workers will impact every region and nearly every occupation.

The Certificate is also relevant to undergraduates seeking to pursue further degree programs in Environmental Studies and Sustainability, including Western's own Master of Environment and Sustainability.

The Certificate organizes and sequences already existing courses to help students make connections across disciplines and to provide them with a path for developing greater awareness and expertise in climate change issues and responses.

This Certificate's design and content should supplement the recently introduced Major in Climate and Society at Western University while centring King's unique strengths and particular mission. There is no other certificate program offered by Western or one of the Affiliates that combines theoretical study of social, political, existential and psycho-spiritual dimensions of climate change with options for experiential learning and applied knowledge. Given its design, the Certificate is compatible with existing modules and programs at King's and should be an attractive credential for new undergraduates as a supplement to several different majors (including Philosophy, Social Justice and Peace Studies, and Religious Studies).

This Certificate is designed as an interdisciplinary constellation focused on ethical and social justice issues inherent in the climate crisis. The goal is to provide undergraduates with a deeper and broader sense of the causes of climate change beyond its geophysical dynamics, as well as greater knowledge of different methodologies and discourses in how climate change is framed and approached. Through its emphasis on experiential learning, the Certificate aims to provide students with opportunities to apply this knowledge and improve communication skills in manners that supplement the traditional classroom.

The Certificate's objectives align with Western's stated mission to be "a powerful agent of change in the lives of individual scholars and, through them, in society generally" as well as aligning with Western's strategic priority of creating a culture of sustainability. The Certificate also aligns with King's University College's mission as a Catholic University committed to the dialogue of faith and reason and the discovery of knowledge for the common good. Because students learn both about systemic social forces and patterns as well as personal and existential issues, the Certificate combines two key features of King's mission: community engagement towards social justice and formation of empowered and active citizen-scholars dedicated to the common good. In both cases, the Certificate resonates with the needs for creative action in meeting one of the most pressing challenges of the twenty-first century.

Learning Outcomes

Students who complete this certificate will:

1. Understand intersections and relationships between social and historical patterns of injustice and the contemporary crisis of climate change.
2. Describe how present social and economic patterns contribute to climate injustice and be more intentional in their choices for changing these patterns.
3. Develop interdisciplinary research questions and projects in relation to climate change and ecological justice.
4. Create collegial and inclusive environments of collective discussion, community learning and problem-solving while engaging different perspectives and traditions.
5. Apply theoretical paradigms to active projects of community and personal development in response to climate change.

Admission and Progression Requirements

To be eligible for enrolling in the Certificate, students must complete their first academic year in good standing.

After enrolling, students: (i) complete 4.0 courses and (ii) satisfy a experiential learning requirement.

To satisfy the experiential learning component, students either: (i) complete Social Justice and Peace Studies 3500E with placement in a local environmental organization; or (ii) complete at least 1.0 course with approved experiential learning components.

Course work:

Students take **1.0 courses** from:

Philosophy 2242F/G: *Philosophy of the Earth*
Philosophy 3244F/G: *Planetary Ethics and Social Transformation*
Social Justice and Peace Studies 1025F/G: *Introduction to Social Justice and Peace Studies*

Students take an additional **2.0 courses** from at least two disciplines from:

English:

English 2262F/G: *Water and Our World: Literature, Ecology, Activism and Animals*

Philosophy:

Philosophy 2203: *History of Scientific Thought*
Philosophy 2208E: *Introduction to Social and Political Thought*
Philosophy 2227F/G: *Introduction to Indigenous Philosophies*
Philosophy 2246F/G: *Philosophy of Encounter*
Philosophy 3244F/G: *Planetary Ethics and Social Transformations*
Additional Special Topics Courses by theme

Politics and International Relations:

Political Science 3400F/G: *Politics of the Arctic*
Additional Special Topics Courses by theme

Religious Studies:

Religious Studies 2230F/G: *Eco-Spirituality and Justice*

Social Justice and Peace Studies:

SJPS 1026F/G: *Approaches to Social Justice and Peace Studies*
SJPS 2290A/B: *Contemporary Indigenous Issues*
SJPS 2304F/G: *The Social Networks of Power and Privilege*
SJPS 3362F/G: *Ecofeminism and Justice*
SJPS 3383F/G: *Ecological Justice*

Sociology:

Sociology 2220A/B: *Sociology of the Environment*
Sociology 3318F/G: *Global Injustice, Borders*
~~Sociology 3390F/G: *Decolonization I*~~
~~Sociology 3391F/G: *Decolonization II*~~

Thanatology:

Thanatology 3331F/G: *Climate Change and Grief*

Students complete an experiential learning requirement:

1.0 course: Social Justice and Peace Studies 3500E: *Community Based Learning* (with placement in a local environmental organization) or 1.0 course with approved experiential learning components.

Oversight and approval for permissions of Special Topics courses, as well as course list updating, will be shared between the departments of Social Justice and Peace Studies and Philosophy and their respective Academic Program Advisors.

In the third year, the coordinator for community-based learning will work with students enrolled in the Certificate to place them in an appropriate ecological/climate-oriented, local organization.

ITEM 10.1(a) – 2024-2025 University Operating and Capital Budgets

ACTION: APPROVAL INFORMATION DISCUSSION

RECOMMENDED: That Senate provide advice to the Board of Governors, through the President and Vice-Chancellor, recommending the approval of the 2024-25 University Operating and Capital Budgets as shown in Item 10.1(a).

EXECUTIVE SUMMARY:

The Operating and Capital Budgets and setting of tuition fees are in the purview of the Board of Governors. The Senate may provide advice to the Board under the authority of Section 30(f) of the *UWO Act*:

The Senate may ... pass resolutions and make recommendations to the Board with respect to any matter connected with the administration of the University and the promotion of its affairs but this clause shall not be construed to subtract from the powers and duties conferred on the Board elsewhere in [the] Act.

2024-25 Operating Budget

Western continues to be guided by the priorities outlined in our **Strategic Plan – Towards Western at 150** – and is focused on its commitment to an outstanding student experience, scholarship, research, and creativity. The dedicated efforts made by all members of our university community have enabled the university to maintain those commitments as we look ahead to building a stronger university.

The last three university budgets started the process of investing in our strategic plan priorities and this budget builds on those investments.

The current budget makes additional significant investments in our strategic plan priorities including:

- Support for enrolment growth
- International student recruitment
- Scholarship/research/creativity
- Student financial support
- Educational partnerships with local organizations
- Infrastructure to accommodate growth

These investments are critical to Western's ongoing commitment to pursue the various components of our mission as a leading research university.

A. Planning and Budgetary Context

The recently completed planning process leads us forward to the second year of the 3-year budget/planning cycle – spanning the period 2023-24 through 2025-26. In the summer of 2022, our Faculties and Support Units submitted Academic and Operational Plans in alignment with our strategic plan – and the priorities in those plans have formed the basis for the 3-year university plan.

At this point in time, as we reach the end of the current fiscal year, our financial situation remains strong. The Operating Reserve at the end of the current year (2023-24) is projected to be \$51.4 million – which is \$9.8 million higher than the budgeted figure of \$40.6 million. The higher level is primarily due to a year-end one-time \$9.9 million grant from the Provincial Government to recognize unfunded students in STEM programs. Excluding this one-time grant – which was announced on February 26, 2024 as part of a PSE stabilization funding program – the in-year position is projected to be a balanced budget.

Looking ahead to 2024-25, we have developed the University budget with the following general assumptions regarding revenues:

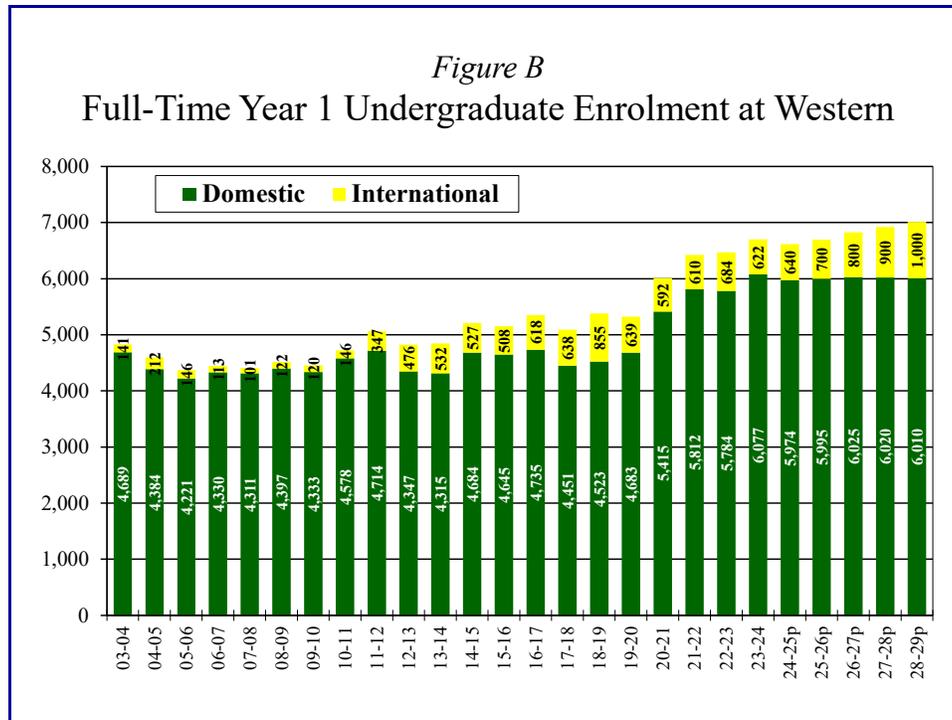

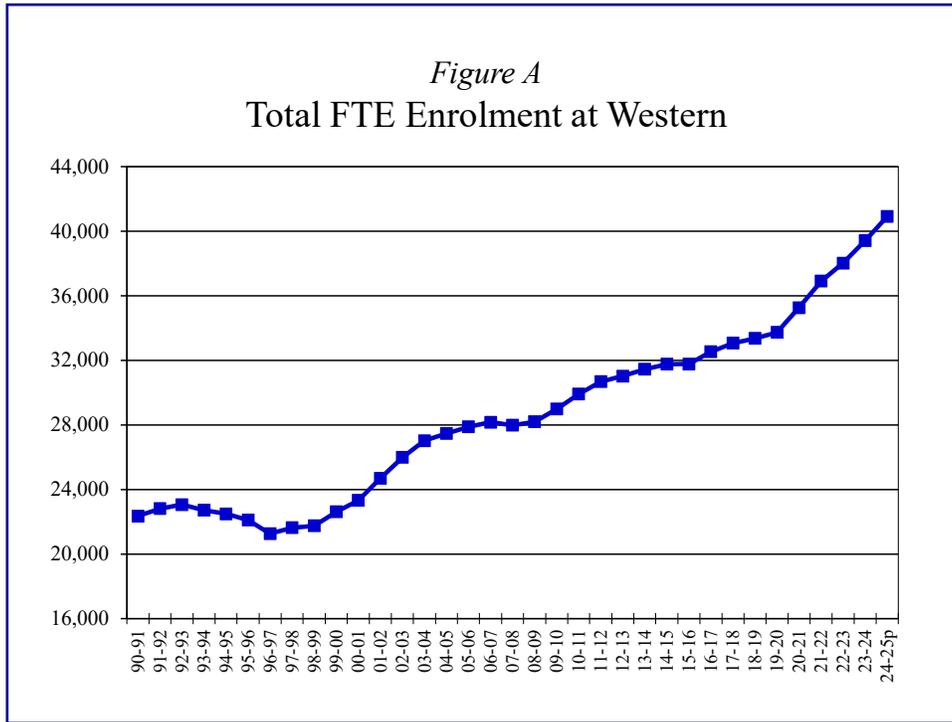

- Under the Provincial Government's corridor-based block-grant funding system, our overall core on-going provincial grants will remain frozen at the 2016-17 level.
- The Province's tuition framework rolled back domestic tuition rates by 10% in 2019-20 and the rates were kept constant (at the reduced levels) in 2020-21 through 2023-24. Government has confirmed that domestic tuition rates for Ontario students will remain frozen from 2024-25 through 2026-27 – making it a total of 8 years of no change to domestic tuition rates.

- Enrolments are the primary driver of operating revenues. For budgetary purposes, our first-year class for 2024-25 is expected to be about 6,600 students (which includes about 640 international students) and the graduate enrolment plan is the aggregate of the plans developed by the Faculties – which is a growth of over 230 students and supports our research aspirations. Total full-time enrolment (undergraduate and graduate) is projected to increase by just over 1,400 in 2024-25. This figure includes about 700 students expected to join Western – from Brescia University College – as part of the integration of Brescia into Western, effective May 1, 2024.
- The Brescia-Western Integration is projected to have the following impacts on our revenue in 2024-25: Government Operating Grants – addition of \$8.8 million; Affiliation Fee Transfer to Western – loss of \$2.6 million; estimated tuition from Brescia students continuing at Western – addition of \$4.2 million; estimated tuition from incremental year 1 students to replace the year 1 class at Brescia – addition of \$1.4 million; and all other revenues – addition of \$0.4 million. The net impact is the addition of about \$12.2 million to our operating revenues.
- As noted earlier, in late February, the Provincial Government announced one-time funding investment in Ontario’s Universities. Western’s estimated allocations are: \$9.9 million for unfunded STEM students in 2023-24 and allocations from a PSE Sustainability Fund over the next three years – \$8.4 million in 2024-25, \$14.2 million in 2025-26, and \$20.0 million in 2026-27.
- In late-January, the Federal Government announced its intention to limit international student permits – which would apply only to undergraduate students seeking new study permits to come to Canada. Ontario, which had the largest impact, recently allocated set numbers of Provincial Attestation Letters (PALs) to its universities – which will allow off-shore international students to apply for study permits and then (if successful) be able to enrol in Ontario’s universities. Western’s PAL allocation is 848 – and an additional 210 PALs were allocated (in total) to Huron and King’s University Colleges. Our analysis indicates that, with this allocation, we should be able to achieve the 640 first-year international target noted above.

At Western, our integrated approach to planning serves us well. We continue to focus our budget planning on our strategic priorities. Our approach to enrolment planning allows us to make significant enhancements to the quality of education and the educational experience we offer our students:

- Recruitment of outstanding undergraduate students is a high priority. The average entering grade of our incoming class in the fall of 2022 was 91.7%, well above the Ontario average.
- Over 92% of our first-year students continue into their second year. Our retention rates are amongst the highest in Canada and much higher than at our peer institutions in the United States.
- Graduation rates of our undergraduate students have been steadily increasing and they are currently much higher than the average of peer universities in Canada and the United States. About 84% of Western’s 2016-17 entering cohort graduated within 6 years.
- We are continuing to invest in international undergraduate recruitment to grow international enrolments while also diversifying geographical source and program destination. At present, about 9% of our undergraduate enrolment is international. Our Strategic Plan aspires to reaching 20% international undergraduate students.
- Expansion of graduate enrolments in areas of demand and capacity continues to be a strategic priority at Western. The current plans from the Faculties show significant growth aspirations. In the current year, full-time graduate students comprise about 19% of total full-time enrolment.

We remain committed to building on the substantive gains we have made in the areas of student quality, educational quality, and student experience. Going forward, we will continue to manage our resources and target them towards the priorities identified in our new Strategic Plan.

B. Updates on Priorities and Initiatives from Last Year's Budget

The following initiatives were included in the 2023-24 Budget and involved substantial investments in alignment with the themes in our Strategic Plan.

Theme 1: Greater Impact

Growth: Enrolments

- The multi-year Engineering expansion involving a new 5-year undergraduate program that combines the core elements of Artificial Intelligence (AI) and Information & Communications Technology with any of the core disciplines in Engineering continued in 2023-24 – and included expansion of enrolments, faculty and staff complements, planning for space/facilities, and allocations to the Faculty of Science which contributes in a significant manner to the teaching of Engineering students.

Engineering: \$771,000 base funding to support faculty and staff positions, \$900,000 one-time for faculty start-up funding, and \$5.66 million to support the construction of a new building.

Science: \$100,000 base funding and \$150,000 one-time for faculty start-up funding.

- Expansion in undergraduate Nursing and other programs in the Faculty of Health Sciences was supported through the allocation of \$2.3 million in one-time funding, primarily for the creation of incremental teaching/clinic spaces and equipment renewal.

Growth: Faculty and Staff Renewal/Expansion

- Last year's budget included a number of initiatives aimed at faculty and staff renewal and expansion:
 - The allocation of \$15 million one-time to the Endowed Chairs Matching Program.
 - Various central base allocations – including the Academic Priorities Fund (APF) and Support Units Priorities Fund (SUPF) – to support faculty and staff positions.

The combined impact of the above allocations/initiatives is that full-time faculty complement increased by 10 and full-time staff complement increased by 35 in 2023-24 (as of January 31, 2024) over 2022-23. A year ago, the Faculty plans collectively called for a growth of over 50 faculty positions – and therefore, recruitment for many approved positions is on-going.

Space, Facilities, and Infrastructure to Support Growth

In order to ensure that we offer the best educational environment for our students and to support our faculty and staff with adequate state-of-the-art facilities, the 2023-24 Budget included the following one-time allocations:

- \$40 million to support our Long-Range Space Plan: \$4.5 million for a facility to consolidate the Child and Youth Development Clinics in the Faculty of Education; \$20 million to support a new building to provide enrolment expansion in the Faculty of Health Sciences; and \$15.5 million for the Bio-convergence Centre – an interdisciplinary research and experiential learning facility;

- \$5.66 million (noted above) for the new Engineering Building; and
- \$1.6 million for technology-related modernization of general university instructional spaces.

Activities ranging from space planning, site assessment, design, and early construction are underway for all of the above projects.

Enhancing our Research Profile and Impact

Last year's budget recommended various scholarship/research related initiatives, including:

- \$11 million one-time to provide matching funds for external grants for major research initiatives including a pathogen and vaccine development research facility. Planning for this facility is well underway and construction is expected to start later this year.
- \$2.65 million one-time to the Vice-President (Research) to support university-wide research initiatives.

Enhancing the Learning Experience

The 2023-24 budget allocated a sum of \$2 million one-time to support the continuation of the Undergraduate Summer Research Internship Program (USRI). The program has supported over 290 student internships working under the supervision of 280 faculty members across campus – and included an education and training component as part of the overall experiential research opportunity for our students.

State-of-the Art Information Technology Infrastructure

A sum of \$5 million one-time was provided in 2023-24 to support the renewal and expansion of I.T. infrastructure across campus. The funds are being used to modernize core network infrastructure and wireless technologies across campus.

Implementation of a new Learning Management System (LMS) is well underway – and was supported in the 2023-24 Budget with a base allocation of \$1 million (for annual licensing costs) and \$500,000 one-time to support implementation costs.

Theme 2: People, Community, and Culture

Last year's budget included a number of budget allocations in direct support of our goals in the areas of Equity, Diversity, & Inclusion (EDI) and Indigenization.

- Many allocations to our Faculties and Support Units to support additional faculty and staff positions and programming initiatives in the areas of EDI and Indigenization were part of the 2023-24 budget. All the allocations have been made and the positions have either been filled or the searches are nearing completion. The initiatives included programming in the Wampum Lodge, hosting of the annual Building Reconciliations Conference, the Black Student Leadership University Experience Initiative (B.L.U.E.), and expansion of scholarships aimed at recruiting Indigenous Students and Black Students.
- In recognition of the financial pressures faced by graduate students, the 2023-24 Budget included: (a) the establishment of a new \$500,000 Graduate Student Needs-based and Emergency Fund, (b) an increase to the minimum funding guarantee to funding-eligible Ph.D. students from tuition plus \$13,000 to tuition plus \$17,000 – an increase of \$4,000, and (c) a one-time transition grant/award

of \$1,000 to all new-to-Canada international graduate and undergraduate students. The new bursary fund and the new-to-Canada award are projected to exceed a total of \$1.2 million.

Theme 3: Western's Place in the World

The commitments under this theme were directly supported in the 2023-24 Budget through the following initiatives:

- Western's Long-Range Space Plan which included modernization of the Weldon Library, the Ronald D. Schmeichel Building for Entrepreneurship and Innovation, a new Engineering Building, the Bio-convergence Centre, a new facility to consolidate the Faculty of Education's Child and Youth Development Clinics, and new residences. All of these projects are in various stages of progress – ranging from initial space needs assessment (including costing), site planning, design, and actual construction.
- Various university-wide campus sustainability, energy conservation, and infrastructure projects (supported through an allocation of \$29.7 million) are continuing.
- Led by the Vice-President (Operations and Finance), Western is exploring options for additional physical presence in Toronto.

C. Priorities for the 2024-25 Budget and New Initiatives

The recently completed planning process identified the following high priority initiatives that are directly aligned with the three themes in our new Strategic Plan.

Theme 1: Greater Impact

Growth: Enrolments

1. A central element of “Greater Impact” is to grow strategically in areas of demand and societal need. In support of this imperative, the following initiatives are recommended in the 2024-25 Budget.
 - As indicated in section B, a strategic Engineering expansion is underway with a fully developed multi-year plan involving expansion of enrolments, faculty/staff complements, space/facilities, and investments in other Faculties that contribute in a significant manner to the teaching of Engineering students. The investments include: Engineering – \$1.2 million in base funding (Table 4, line 4, column d), \$725,000 in one-time funding (Table 8, line 19), and \$5.8 million one-time for a new building (Table 8, line 7); and Science – \$246,000 in base funding (included in Table 4. Line 10, column d) and \$100,000 in one-time funding (Table 8, line 25).
 - The Faculty of Social Science has seen substantial growth in enrolments teaching in recent years. At the same time, the international component of the enrolments has declined since 2019-20 – which in turn has created significant budget pressures for the Faculty. In recognition of this a sum of \$2.5 million in base funding is recommended in this budget (included in Table 4, line 11, column d).
2. The Brescia-Western Integration will contribute to enrolment growth at Western – starting with the transition of current Brescia students to Western in 2024-25 (until they graduate) followed by our plans to build on Brescia’s unique programs and replace the Brescia enrolments in other programs across campus. In total, we expect an increase of about 1,000 students (at the main campus, in steady-state) due to the Brescia-Western Integration. Funding to support this integration is included in the budget – through base and one-time allocations to the Faculties and Support Units as well as funding to support various transition costs (\$7.15 million show in Table 8, line 5) which includes employee voluntary separation pay and scholarship previously-committed to current Brescia students who will continue at Western.
3. Recruitment of undergraduate international students is a high priority for the University. In support of this – and in the context of the current external environment, which includes global competition for these students and the Federal Government’s limits on study permits – we are recommending \$6 million in one-time funding for international student recruitment awards.

Growth: Faculty and Staff Renewal/Expansion

Faculty and staff renewal and expansion, commensurate with enrolment growth, is a key priority in our Strategic Plan. In support of this, the following budget allocations are recommended:

4. The base budget recommendations to the Faculties and Support Units (Tables 4 and 6) include substantial allocations through the Academic Priorities Fund (APF), the Support Unit Priorities Fund (SUPF), funds associated with Brescia-Western Integration, and other targeted strategic base

allocations. A total of 35 full-time Brescia faculty and 80 Brescia staff have committed to joining Western. In addition to these Brescia faculty and staff joining Western, the Faculties' preliminary final plans show an incremental growth of about 40 faculty positions and 60 staff positions in 2024-25 over the current year (as of January 31, 2024).

Space, Facilities, and Infrastructure to Support Growth

5. In order to ensure that we offer the best educational environment for our students and to support our faculty and staff with adequate state-of-the-art facilities, the Strategic Plan calls for investment in facilities and infrastructure. In support of this priority, the following one-time allocations are recommended in this budget:
 - \$9 million (Table 8, line 4) to support the new building to provide incremental space for enrolment expansion in the Faculty of Health Sciences;
 - \$5.8 million from the multi-year Engineering enrolment expansion revenues to support the new Engineering Building (Table 8, line 7); and
 - \$2.1 million to support technology-related modernization of general university instructional spaces (Table 8, line 9).

Enhancing our Research Profile and Impact

6. In support of the research aspirations in our Strategic Plan, under the Greater Impact Theme, the following budget allocations are recommended in this budget:
 - \$13.5 million one-time to support our Interdisciplinary Research Institutes (Table 8, line 1): \$12.5 million to create an endowment that would provide an annual amount of \$500,000 starting in 2025-26 and \$1 million as transitional funding in 2024-25;
 - \$10 million one-time as CFI Matching Funds – to enable Western's researchers to compete effectively in future CFI competitions (Table 8, line 2);
 - \$1 million one-time to establish and effectively support Core Research Facilities that enables us to provide infrastructure and services that are generally too expensive, complex, or specialized for individual researchers to provide (Table 8, line 12);
 - \$1.6 million one-time to support the continuation of the Post-Doctoral Fellowship Program (Table 8, line 11);
 - \$500,000 one-time for the Western Academy for Advanced Research (WAFAR) to continue its themes-based approach to seeking solutions to major issues facing Canada and the world. (Table 8, line 15); and
 - \$3.4 million one-time support for a number of university-wide research initiatives – under the direction of the Vice-President Research (Table 8, line 41).

Enhancing the Learning Experience

7. A sum of \$2 million one-time is recommended to support the continuation of the Undergraduate Summer Research Internship Program (USRI) (Table 8, line 10). In 2024-25, the program is expected to support 300 student internships – and will include an education and training component as part of the overall experiential research opportunity for our students.

State-of-the-Art Information Technology Infrastructure

8. The commitment in the Strategic Plan to invest in state-of-the-art I.T. infrastructure is being supported through the recommendation of \$10 million in one-time funding to support renewal of I.T equipment across campus (Table 8, line 3). This allocation augments the on-going base budget (\$8.3 million) line for I.T. Infrastructure shown in Table 7, line 7.

Theme 2: People, Community, and Culture

9. In support of the priorities under this theme, and in direct support of our goals in the areas of Equity, Diversity, & Inclusion (EDI) and Indigenization, the following budget allocations are recommended for 2024-25:
 - \$124,000 in base funding and \$100,000 in one-time funding to the Office of Indigenous Initiatives to support additional staffing and programming initiatives (Table 6, line 7 and Table 8, line 32);
 - A sum of \$115,000 one-time to the Office of Equity, Diversity, & Inclusion to support the Black Student Leadership University Experience Initiative (B.L.U.E.) and programming initiatives (Table 8, line 38); and
 - A sum of \$455,000 in base funding to continue the expansion of scholarships aimed at recruiting Black Students and Indigenous Students (Table 5, line 1). At the end of the 3-year planning cycle, the total annual funding is expected to reach \$1.9 million.
10. As committed last year, in recognition of the financial pressures facing our graduate students, the Graduate Student Needs-based and Emergency Fund will continue in 2024-25 – and a one-time allocation of \$500,000 is recommended (Table 8, line 14). This fund augments the general bursary funds already available to graduate students and undergraduate students (Table 5, line 4).

Theme 3: Western's Place in the World

11. The priorities under this theme are directly supported in this budget through the following commitments:
 - Enhancing Western's campus is a central priority in our Long-Range Space Plan (Table 13), and includes the following projects that are underway or in planning stages: Weldon Library Modernization, the Ronald D. Schmeichel Building for Entrepreneurship and Innovation, a new Engineering Building, the Bio-convergence Centre, the new facility to consolidate the Faculty of Education's Child and Youth Development Clinics, new residences, and the Pathogen Research Centre Facility;
 - The on-going range of university-wide Campus Sustainability, Energy Conservation, and Infrastructure Projects support our aspiration to reduce carbon emissions for campus operations, and we are projecting expenditures of \$29.5 million in 2024-25 (Table 14, line 3);
 - Western – in partnership with the Greater London International Airport Authority (GLIAA) and Fanshawe College – is in the early stages of an initiative aimed at capitalizing on the unique opportunities existing in London and the growing labour market demands around the aviation and aerospace industry. The plans will be anchored to the Commercial Aviation Management Stream of the DAN Management & Organizational Program and be supported by other Faculties and programs at Western. The initiative will promote industry partnerships, support regional economic development, and respond to industry needs and

labour shortages reinforcing Canada's competitiveness. This budget recommends \$2 million one-time to support this initiative's needs in the areas of staffing, equipment, and facilities.

D. Three-Year Operating Budget Forecast

We seek approval of the 2024-25 Budget as outlined in this document. The recommendations in this document have been guided by projections of operating revenues and expenditures for the remaining two years of the 3-year planning period.

Table 1 summarizes our current forecast for the remaining two years of the 3-year planning period, and the major underlying assumptions are as follows:

Revenues

- Provincial government on-going grant funding remains constant during remaining two years of the 3-year planning period, consistent with the current corridor funding system and the planned move to performance-based funding. However, as noted earlier, due to the Brescia-Western Integration, on-going operating grants (about \$8.5 million) which previously transferred to Brescia will now flow to Western. This is reflected in lines 3 and 4 of Table 1.
- As noted earlier, the Province recently announced a one-time Sustainability Grant which will flow \$8.4 million in 2024-25 and \$14.2 million 2025-26 to Western – and these are included in line 5 of Table 1.
- The federal government’s Research Support Fund, which is in recognition of the indirect costs of granting-council-supported research covered by the University’s operating budget, is expected to be stable.
- As required by the Province, domestic tuition rates were rolled back 10% in 2019-20 and were held constant in 2020-21 through 2023-24. The Province recently confirmed that domestic tuition for Ontario students will remain frozen from 2024-25 through 2026-27.

Starting in 2022-23, the Province allowed for a 5% increase in tuition rates for domestic students from other provinces. For 2024-25, the Province has allowed for a further 5% in domestic out-of-province undergraduate tuition rates – and this budget recommends the implementation of this 5%.

International tuition rates are de-regulated and we propose increases in the range of 4% to 6% for incoming undergraduate students – and the commitment of no more than a 4% increase in upper years of study in direct-entry programs. For international graduate students, the increases range from 2% to 6%.

Our proposed rates for 2024-25 are shown in Tables 10, 10a, and 11.

- The Senate-approved enrolment projections and plans, which drive our tuition revenue projections, are shown in Table 12. As indicated earlier, our first-year class (for budgetary purposes) is assumed to be an intake of 6,600 students – including 640 international students.

Expenditures

- Faculty and Support Unit base budgets have been adjusted to reflect the 3% Inflationary Budget Adjustment (IBA) and augmented by allocations from the Academic Priorities Fund (APF), the Support Units Priorities Fund (SUPF), enrolment expansion funding, and Canada Research Chairs (CRCs). *Note that, for this 3-year planning period (as a pilot), the IBA calculation has been modified. The IBA is now applied only to the full-time employee compensation component of Faculty and Support Unit budgets – compared to the previous approach of applying it to the full base budget. Under this approach, at the end of the 3-year planning period, the total dollar value of the IBA is lower by \$8 million for the Faculties and \$1.2 million for the Support Units. The revised approach has been well-received by the units.*
- Enrolment-related revenue sharing with the Faculties, which transfers nearly 50% of incremental enrolment-related revenue to the Faculty budgets, continues in 2024-25.
- Non-salary costs associated with major University-wide budget items (e.g. utilities, insurance, and I.T. infrastructure) are based on the current estimates from the units that manage these expenditures.
- Central funding to cover the costs of negotiated employee compensation increases have been set aside and these funds will be transferred to Faculty and Support Unit budgets throughout the year, as the various compensation provisions are implemented.

Net Position and the Operating Reserve

- As can be seen in line 32 of Table 1, the Operating Reserve is projected to be at \$51.4 million at the end of the current year (i.e. 2023-24). The reserve is projected to be 44.5 million at the end of the 3-year planning period (2025-26) – above the Board-mandated minimum level of \$10 million.

The second year of the 3-year plan – which has been updated in the context of the external environment, internal priorities, and societal need – moves us forward with the following objectives:

1. A responsible plan that ensures fiscal health and financial stability;
2. Aligns with Western's Strategic Plan priorities and the ambitions of our Faculties and Support Units; and
3. Supports our students, faculty, and staff.

E. Summary of the 2024-25 Operating Budget

Table 2 summarizes the 2024-25 Operating Budget, including total revenues, expenditures by area, net position for the year, and the projected operating reserve.

Line 5: Total operating revenue is projected to be \$930.4 million in 2024-25. Details of the operating revenues are shown in Table 3.

Line 13: Total expenditures are projected to be \$930.2 million in 2024-25. Details of the expenditures (by area) are shown in Tables 4 through 8.

Line 14: The in-year net position is projected to be a surplus of \$9.8 million in 2023-24 and a balanced budget in 2024-25.

Line 17: The Operating Reserve is forecast to be \$51.4 million at the end of 2023-24 and \$51.6 million at the end of 2024-25 – above the Board-mandated minimum level of \$10 million.

F. Details of the 2024-25 Operating Revenue Forecasts (Table 3)

Government Grants

In 2017-18, the Provincial Government introduced an enrolment corridor-based funding system whereby the major portion of on-going provincial grants would flow as a block grant, provided the institution maintains an overall level of domestic enrolments. In 2019-20, the Province had signaled the move to a performance-based funding system whereby, gradually, over the next 5 years (starting in 2020-21), the major portion of grant funding would be tied to ten performance/outcomes metrics. In response to the global pandemic and its impact on university operations, the Province has delayed the actual metrics-based implementation until the end of 2022-23. Starting with 2023-24, the Government has notionally presented the grants transitioning to the performance-based system, but with no change in the overall grant funding level (i.e. the sum of lines 2 and 3 in Table 3 remain unchanged).

Tuition Fees

The recommended tuition fee rates for 2024-25 are summarized in Tables 10, 10a, and 11. Tuition revenue projections are a function of tuition rates and the enrolment forecasts shown in Table 12.

Domestic Students from Ontario

As noted earlier (in section A), tuition rates for domestic students from Ontario remain unchanged.

Domestic Students from Other Provinces

As described earlier, tuition rates for undergraduate domestic students from other provinces are recommended to increase by 5% in 2024-25.

International Students

Recent University budgets highlighted the fact that Western's international undergraduate student tuition rates were below the average of our peer research-intensive institutions in Ontario and it was noted that, looking forward, our recommendations for these tuition fees will seek to move Western's tuition rates to the level of our peers. The recommendations for international undergraduate tuition fees continue on the path to narrowing the gap with our peer institutions.

Starting in the fall term of 2018, tuition rates for international Ph.D. students have been set at the same rate as domestic students.

All Other Revenues

A number of other sources contribute to the University's Operating Budget. Major items to note are the Canada Research Chairs (CRCs), the Fee-for-Services Transfer from the Affiliated University Colleges, Fundraising associated with Student Financial Aid, Royalties and Licenses, and the Fee-for-Services Transfer from Ancillaries and Other Self-funded Operations.

-
- Table 9 summarizes the distribution of currently-occupied CRCs at Western. Our current allocation is a total of 78 CRCs. The occupancy of the Chairs turns over dynamically as terms end and begin. There are 61 occupied Chairs in the current year and we are projecting 58 occupied chairs in 2024-25, with \$8.2 million in associated revenue. An additional 20 CRCs are currently allocated and are in the selection and recruitment phase. These positions should be finalized in 2024-25.
 - The Fee-for Services Transfer from the Affiliated University Colleges represents payments for services and teaching provided to their students. The transfer rate is 12% of the Colleges' grant and tuition revenue. The projected \$10.9 million for 2024-25 is a \$2.4 million reduction, which is primarily due the Brescia-Western Integration described earlier.
 - Fundraising for needs-based Student Awards continues to be of high priority for the University. In 2024-25, we project a sum of nearly \$11 million from this source.
 - The revenue from Royalties and Licenses includes patents/licenses associated with the Robarts Research Institute which flows to the Schulich School. We are projecting an increase of \$1.4 million in 2024-25.
 - Western's self-funded operations and ancillary units transfer substantial funds to the University Operating Budget by way of payments associated with facilities/land costs and services provided by the University. This category also includes the payment from the Ivey Business School to the University for services provided by the University at-large to Ivey, a component within the funding model for the Ivey School that was introduced in 2004-05.

G. Details of the 2024-25 Expenditure Recommendations

1. Faculty Budget Recommendations

Table 4 shows the 2024-25 **base budget recommendations** for Western's Faculties. Final 2024-25 base budgets are the net result of the following:

- Starting base budgets;
- The Inflationary Budget Adjustments (IBA);
- Academic Priorities Fund (APF) allocations;
- Program expansion funding and/or targeted government allocations;
- Funds associated with the addition of Brescia faculty and staff members – as part of the Brescia-Western Integration; and
- Funds associated with CRC positions (detailed in Table 9).

The **Inflationary Budget Adjustment (IBA)**, which reduces base budgets by 3%, is applied annually. This adjustment is required to help fund inflationary costs, which are primarily the annual employee salary increases as negotiated through collective bargaining agreements. As described in section D, the IBA mechanism has been modified – and the outcome is that the Faculty budgets (in total) benefit to an equivalent of \$8 million in base funding at the end of the 3-year planning period. *It should be noted that central funding to cover the costs of negotiated employee compensation increases will be incrementally added to Faculty base budgets (in year) as the information is available – i.e. the funds will be added to the figures shown in column <f> of Table 4.*

The **Academic Priorities Fund (APF)** shown in line 19 of Table 4 was established in 2011-12. The Provost's APF recommendations are in direct response to requests from the Faculties and are made in the context of the following considerations:

- The Faculty's overall resource situation relative to enrolments/teaching
- Plans for program expansion and/or development of new graduate and undergraduate programs
- Projected revenue sharing allocations
- Resources relative to similar programs/Faculties
- Cost structure variations among disciplines/Faculties
- Relationship between resources, enrolments, and faculty/staff complements
- Scholarship/research activities and new initiatives, including interdisciplinary or cross-Faculty initiatives
- Investments made in recent years

The **Faculty-specific APF base recommendations** for 2024-25 (as shown in column <c> of Table 4) are:

- \$50,000 to the Faculty of Arts & Humanities in support of a Senior Development Officer staff position;
- \$85,000 to the Faculty of Engineering in support of a Lab Technician staff position;
- \$150,000 to the Faculty of Information & Media Studies for a tenure-track faculty appointment;
- \$418,000 to the Schulich School of Medicine & Dentistry for two staff positions and support for core research facilities;
- \$150,000 to the Faculty of Social Science for a tenure-track faculty appointment.

Note that all of these APF allocations were approved in the first year of the 3-year plan – i.e. a year ago.

The **Other Base Changes** for the Faculties (shown in column <d> of Table 4) consist of:

- \$1,185,000 to Engineering as a direct result of enrolment expansion – and this funding is expected to support additional faculty and staff positions;
- \$246,000 to Science in support of the incremental teaching associated with the Engineering expansion plan;
- \$2.5 million to Social Science in support of substantial increases in enrolments/teaching;
- About \$6.2 million associated with funding for the salaries and benefits of faculty and staff members joining our Faculties from Brescia.

The **funding model for the Ivey Business School**, introduced in 2004-05, flows all tuition fees and government grants deriving from enrolments directly to Ivey. Under this funding model, the Ivey School does not participate in the University's other funding programs such as the APF, the Research Infrastructure Support Fund (RISF), and other targeted special funding programs, and the Faculty is responsible for all its costs, including annual employee compensation increases. Ivey also transfers an annual amount to the central budget reflecting the cost of general services provided to the Faculty by the University.

Over and above the base budget allocations, the Faculties receive substantial additional on-going funds through the **enrolment-related revenue sharing mechanism** that was implemented in 2011-12. A proportion of tuition revenue deriving from incremental enrolments flows to the Faculties, as follows:

- 50% on direct-entry undergraduate enrolments/teaching – with 30% distributed based on program enrolments and 20% based on teaching levels (measured in course registrations)
- 50% on second-entry (or professional) undergraduate enrolments
- 50% on graduate enrolments

The Faculties are projected to receive \$2.4 million in 2024-25 through the overall enrolment-related revenue-sharing mechanism, as shown in Table 4, column f, line 15. This amount is in addition to the \$3.9 million that was rolled into Faculty base budgets in 2022-23.

The Faculties also receive additional budgetary support through:

- **One-time operating budget allocations** (totaling \$13.3 million) which are detailed in Table 8 (lines 16 to 26);
- The new **PhD enrolment growth funding support program**, estimated at \$1.1million (Table 4, line 16);
- **The Research Infrastructure Support Fund (RISF)** totaling \$750,000 (Table 4, line 17); and
- Support for **Faculty-specific capital projects** totaling \$1.3 million – through the University's Capital Budget.

A consolidated summary of the Provost's allocation recommendations for the Faculties (direct to the Faculties, from the various sources described above) is presented in Figure C. These recommendations are for the 2024-25 Budget.

11	Total	4,784,827	12,226,304	1,335,900	6,203,150	1,120,322

Note: These recommendations are for the 2024-25 budget -- and should be considered in the context of resource allocations made in previous recent planning cycles.

2. Scholarships and Bursaries

Base budget allocations for centrally-funded student support programs are shown in Table 5 – with a total of \$41.7 million estimated for 2024-25.

- Undergraduate scholarships are projected to increase by \$455,000 due to continued expansion of the scholarship program for Black and Indigenous students.
- Fundraising for undergraduate and graduate student needs-based awards continues to be a high priority for the University. In 2024-25, we project a sum of \$11 million from this source.
- Western’s bursary program supports undergraduate and graduate students – with an allocation of \$2.8 million in the coming year.
- As the footnote in Table 5 indicates, graduate student funding is addressed through the Faculty budgets, and the Faculty plans estimate a total of \$57.9 million in 2024-25 for this priority item. Graduate students also receive additional funding through faculty members’ research grants, external student award programs (e.g. tri-agencies), and other sources. In recent years, these sources have added about \$50 million annually to overall graduate student financial support.

In addition to the base budget allocations shown in Table 5, two special one-time student financial support funding allocations are also recommended in this budget:

- The commitment made last year to provide \$500,000 for a Graduate Student Needs-based and Emergency Fund is included in Table 8, line 14. This fund augments the regular annual general bursary funds available to all students (shown in Table 5, line 4).

- As described earlier, international undergraduate student recruitment is a high priority for the University – and is of even greater importance in the current environment which includes the Federal Government’s plan to limit the number of study permits for international students. In support of this, \$6 million in one-time funding for international undergraduate student recruitment awards (shown in Table 8, line 6).

3. Support Unit Budget Recommendations

Table 6 shows the 2024-25 base budget recommendations for Support Units. Final 2024-25 base budgets are the net result of the following:

- Starting base budgets;
- The Inflationary Budget Adjustments (IBA);
- Support Units Priorities Fund (SUPF) allocations;
- Funds associated with the addition of Brescia staff members – as part of the Brescia-Western Integration; and
- Other strategic and operational base allocations.

The **Support Unit Priorities Fund (SUPF)** was established in 2011-12, and the unit-specific base allocations for 2024-25 (shown in column <c> of Table 6) are:

- \$100,000 to the Vice-Provost (Academic Programs) Portfolio for an eLearning Specialist staff position;
- \$210,000 to Western Technology Services for an Identity Developer staff position and Infrastructure Security staff position;
- \$131,962 to Western Libraries to maintain staffing levels;
- \$96,000 to the Registrar’s Office for incremental undergraduate recruitment staffing;
- \$124,000 to the Office of Indigenous Initiatives for additional staffing and programming initiatives;
- \$100,000 to the Vice-Provost (Academic Planning, Policy, & Planning) Portfolio for Immigration Recruitment Consultant staff position;
- \$100,000 to the Office of Institutional Planning & Budgeting for a data analyst staff position;
- \$100,000 to Western International for an additional International Student Advisor staff position;
- \$320,000 to Financial Services to sustain operations and two additional staff positions;
- \$307,180 to Facilities Management for two staff positions and technology initiatives;
- \$190,038 to Campus Safety & Emergency Services for additional staffing and equipment renewal;
- \$14,000 to Internal Audit to sustain operations;
- \$200,000 to the Vice-President (Research) Portfolio for additional staffing;
- \$175,000 to the Vice-President (Advancement) Portfolio in support of our next fundraising campaign-related activities;
- \$205,000 to Human Resources to maintain service levels;
- \$100,000 to Western Communications maintain staffing levels;
- \$35,000 to the University Secretariat to sustain operations;
- \$30,000 to the Office of Equity, Diversity, & Inclusion to sustain operations.

Note that funding for all of these SUPF allocations were approved in the first year of the 3-year plan – i.e. a year ago.

The Provost and the Vice-President (Operations & Finance) are also carrying forward a portion of the SUPF resources associated with their units for allocation in the future. These are shown in lines 14 and 22 of Table 6.

The **Other Base Changes** – totaling \$2.7 million – for the Support Units (shown in column <d> of Table 6) consist of:

- A series of allocations to all Support units (equivalent to 1% of the IBA) to maintain service levels;
- \$250,000 to the Libraries to maintain staff capacity in order to ensure optimal library services to the University community;
- \$489,725 to Facilities Management to support the operating costs of incremental space/facilities;
- About \$690,000 in funding for the salaries and benefits of staff members joining our Support Units from Brescia.

Similar to the Faculties, the Support Units also receive additional budgetary support through:

- **One-time operating budget allocations** (\$5.8 million) which are detailed in Table 8 (lines 28 through 43); and
- Support for **Unit-specific capital projects** totaling \$500,000 – through the University’s Capital Budget.

4. University-wide Expenditures

Table 7 summarizes University-wide Expenditures. These are expenses that extend across all areas of the University.

- The increase in the University’s physical plant **Utilities** is the net result of projected utilities rate increases, utilization patterns, anticipated savings resulting from the implementation of energy efficiency initiatives, the opening of new buildings, and the integration of Brescia facilities into Western.
- The **Library Acquisitions Budget** continues to be a high priority and is being increased by \$75,000 in support of acquisitions related to the unique academic programs that will be integrated into Western as part of the Brescia-Western integration.
- A sum of \$500,000 is being added to the **Maintenance, Modernization, and Infrastructure (MMI)** transfer to the Capital Budget to reflect the MMI needs associated with the Brescia facilities which will become part of our space inventory.
- The **FRSF Transfer to Capital** continues at the \$3 million level and these funds are used to support projects in our Long-range Space Plan that involve research facilities.
- The **Information Technology Infrastructure Fund (ITIF)** supports rapidly-expanding University-wide central IT infrastructure including our networks, wireless technologies, internet bandwidth, IT security infrastructure, general university computer labs, instructional support and eLearning software applications, central university databases, the hardware necessary to run the applications and databases, and maintenance costs associated with all the hardware and software.
- **Contingency** is being set at approximately \$2.3 million or 0.25% of Operating Revenues, as in previous years.

5. One-Time Recommendations

As noted above, the Faculties and Support Units will receive substantial one-time funding in 2024-25. The specific one-time recommendations are summarized in Table 8 and include unit-specific items as well as allocations for University-wide initiatives.

As described earlier in Section C of this document, the following high priority university-wide initiatives are recommended for support in the 2024-25 budget – with one-time allocations totaling \$73.3 million:

- **Support for Research Institutes:** \$13.5 million
- **University Matching Contribution for future CFI Initiatives:** \$10 million
- **Renewal of Information Technology Core Infrastructure** across campus: \$10 million
- **Long-Range Space Plan:** \$9 million
- **Brescia Integration Transition Costs:** 7.2 million
- **International Undergraduate Recruitment Awards:** 6 million
- Multi-year plan to fund a **new Engineering Building** to accommodate the enrolment expansion: \$5.8 million
- Creation of an **Aviation and Aerospace Training Hub and Campus** at/near the London International Airport – in partnership with the Greater London International Airport Authority and Fanshawe College: \$2 million.
- **Modernization of General University Instructional Facilities:** \$2.1 million
- Continuation of the **Undergraduate Summer Research Internship Program:** \$2 million
- Continuation of the **Postdoctoral Fellowships Program:** \$1.6 million
- Infrastructure and Staffing Support for **University-wide Core Research Facilities:** \$1 million
- The **National Brand Campaign** – in support of our next fundraising campaign: \$640,000
- Incremental resources to support **Graduate Student Need-based Bursaries and Emergency Funding:** \$500,000
- Additional Research/Scholarship Themes at the **Western Academy for Advanced Research (WAFAR):** \$500,000

Graduate student funding is addressed through the Faculty budgets. In 2023-24, this funding is estimated to be \$58.7 million and the plan for 2024-25 is \$57.9 million.

Graduate students also receive additional funding through faculty members' research grants, external student award programs (e.g. tri-agencies), and other sources. In recent years, these sources have added about \$50 million annually to overall graduate student financial support.

2024-25 Capital Budget

A. The Nature of University Capital Expenditures

The Capital Budget for 2024-25 should be seen in the context of both recent trends in capital spending and the University’s proposed Long-Range Space Plan as outlined in Table 13 of the Operating Budget. Table 14 sets out expenditures in the Capital Budget from 2020-21 in nine categories.

Category 1 shows all new construction, while categories 2 to 7 show renovations to existing space. Category 1 expenditures are usually funded from general University funds, the major exceptions being projects funded all or in part from external research grants, private funds, government, student contributions, and Housing construction – the latter being funded from the Housing budget. Categories 2 to 5 are funded primarily from general University funds and government, while category 6 is funded from Housing operations, and category 7 is funded by the Ancillary Unit undertaking the work. Categories 8 and 9 involve carrying costs and loan repayments, other expenditures such as purchases of land and buildings, and transfers from the Capital Budget for other purposes. Planned capital expenditures for 2024-25 total \$259.3 million.

Categories 2 to 5 involve **Maintenance, Modernization, and Infrastructure (MMI)** and are eligible to receive funds from the annual MMI transfer from the Operating Budget to the Capital Budget, which is budgeted to increase to \$16.0 million in 2024-25 from \$15.5 million in 2023-24. These expenditures are directed at the modification of existing space and the renewal and expansion of the utilities and infrastructure of the University.

In planning future expenditures on MMI, it is useful to consider the Current Replacement Value (CRV) of our capital assets on campus, which have risen over the last few years with the escalating cost of construction. As shown in Figure D, our buildings and infrastructure have a CRV of approximately \$4,475 million (as at February 27, 2024). Brescia University College, which will integrate with Western on May 1, 2024, has been included separately in the table for information purposes only.

Figure D

1	Major Non-Residential Buildings	2,794	567,040	74
2	Utilities and Infrastructure	229		
3	Subtotal, Eligible for MMI	3,024	567,040	74
4	Housing	1,102	266,299	14
5	Other Ancillary Buildings	350	71,983	11
6	Total	4,475	905,332	99

	Brescia University College	CRV (\$M)	Square Metres	Major Buildings
7	Major Non-Residential Buildings	100	17,852	5
8	Utilities and Infrastructure	18		
9	Subtotal, Eligible for MMI	118	17,852	5
10	Housing	61	12,223	1
11	Total	179	30,075	6

As at February 27, 2024, the University had approximately 567,000 gross square metres spread amongst 74 major non-residential buildings. The non-residential buildings, including utilities and infrastructure, are the physical assets generally eligible for MMI expenditures. The University also has 266,000 square metres of Housing space in eleven major undergraduate residences, three major apartment buildings, and numerous smaller buildings for graduate students in Platt's Lane Estates. Other than Housing, there are many buildings which are operated largely or entirely as ancillaries: Western Student Recreation Centre, Thompson Recreation and Athletic Centre, TD Stadium, Boundary Layer Wind Tunnel, Western Day Care, the Ivey Spencer Leadership Centre, and facilities at the Research Parks.

The 2024-25 capital budget expenditures for categories 1 to 9 include Western's existing buildings and infrastructure planning. Once Brescia's capital is integrated with Western, the capital budget will incorporate those capital expenditures after appropriate planning processes have occurred. Outside of regular maintenance and commitments made in the Memorandum of Agreement (section 6.2) between Brescia and Western, there is no new construction or major building renovations anticipated for Brescia's campus in 2024-25. In Table 14, the 2024-25 budgeted replacement values (line E), number of major buildings (line L) and total gross square meters (line M) are inclusive of Brescia's information from Figure D noted above.

With this background in mind, we briefly set out the nine categories of University capital expenditures.

1. **New Construction.** This category includes projects which create new buildings, including housing, additions to existing buildings, and other new facilities such as parking structures or lots, power plants and athletic fields. It does not include projects which improve the space within existing buildings or projects which upgrade other existing facilities.
2. **Major Building Renovations.** This category involves major maintenance and renovation expenditures on non-residential building projects, with projects generally spanning more than one year. Given that 57% of the 567,000 square metres in major buildings were built before 1980, renovations to major buildings will continue to be a part of our capital planning.
3. **Utilities and Infrastructure Projects.** This category involves projects with values greater than \$10,000 directed at the upgrading and new installation of utilities and other infrastructure, including boilers and chillers, electrical, water, and sewer distribution systems, and sustainability and energy conservation initiatives such as deep energy retrofits. Construction of a new Chiller Plant or major Power Plant expansion would be included in category 1.

4. **Modernization of Instructional and Research Facilities.** This category includes the renewal and modernization of classrooms, laboratories, libraries, and other space used for instruction and research, as well as upgrades to information technology. These expenditures are critical to maintaining Western's reputation as a leader in the quality of teaching and research. These projects are sometimes funded by the units themselves with operating or research funds.
5. **General Maintenance and Modernization Projects.** This category consists of a wide variety of maintenance and modernization projects which are not included in categories 2 to 4. Most of the projects are under \$100,000, involving such work as roof replacement, interior and exterior painting, road, bridge, and sidewalk repair, and general maintenance of structures and systems. Open Space Strategy projects, such as the recent update to UC Hill, may also be included in this category. A provision for unforeseen projects forms part of the allotment in this category.
6. **Housing Renovations.** This category includes all maintenance and modernization expenditures on University residences and apartment buildings. Construction of a new residence or apartment building would be included in category 1. Maintenance and modernization expenditures, projected to be \$13.3 million in 2024-25, are funded from Housing revenues. Housing has always set aside adequate maintenance funds and does not have the significant deferred maintenance on its buildings which may be observed in many other University buildings.
7. **Ancillary Projects.** This category includes capital expenditures on Ancillaries other than Housing, including Hospitality Services, the Book Store, Parking Services, student fee-funded units, self-funded support units, and self-funded research units. These units pay a charge to the University for the space they occupy.
8. **Carrying Costs and Debt Repayments.** This category consists of principal repayments and interest on debt for capital projects.
9. **Other Capital Expenditures.** This category includes asset acquisitions and other miscellaneous expenditures. It has been an established principle in Western's Campus Development Strategy (formerly the Campus Master Plan) that the University pursue, as appropriate, the purchase of lands contiguous to University property as lands become available. Western will continue to seek to protect the Regional Facilities zoning around the main campus and to buy land near our campus when it comes up for sale. The University will also look to acquire strategic physical assets.

The last twelve lines of Table 14 are labeled A to M. Line A shows total sources of funding for the Capital Budget, including debt; line B, sources of funds less expenditures; line C, the capital reserve at year-end; and line D, capital debt outstanding at year-end. Details of these items are shown in Tables 16 and 18. Annual changes in the capital reserve (line C) are driven by the differences between funding and expenditure (line B). Thus for 2022-23, line B shows a net source of \$23.6 million, the difference between funding of \$117.5 million and expenditures of \$93.9 million. The accumulated capital reserve in line C increases by this same amount of \$23.6 million. In years where the expenditure exceeds sources of funding, the reserve is drawn upon as planned, as is forecasted in the 2024-25 budget for (\$118.3 million).

Line E shows the replacement value of non-residential buildings and utilities and infrastructure, the assets eligible for MMI spending, while line F shows the ratio of the annual MMI expenditure to the replacement value. For example, in 2022-23, MMI expenditures were \$42.7 million, while the

estimated replacement value of non-residential buildings, utilities, and infrastructure was \$2,414 million. The ratio of the two is 1.8%, as shown in line F.

Line G of Table 14 shows the annual transfer from the Operating Budget to the Capital Budget for Maintenance, Modernization, and Infrastructure (the MMI transfer). The annual transfer has increased in 2024-25 to \$16.0 million, after having been maintained at \$15.5 million since 2017-18. This consistent level of funding commitment has established Western as a leader among Canadian universities in maintaining its facilities and dealing with deferred maintenance.

Line H of Table 14 shows the ratio of the annual MMI transfer to total MMI expenditures; for example, in 2022-23, the transfer was \$15.5 million, and expenditures were \$42.7 million, so the ratio is 36.3%. This ratio will fluctuate with the level of MMI expenditure each year. Other sources of funding for MMI expenditures can include the annual capital facilities renewal grant from the Province, special Provincial grants, additional one-time allocations from the University's Operating Budget, one-time allocations from the Province, fundraising, and borrowing.

Line J contains an estimate of maintenance spending, defined narrowly as spending required to bring aging facilities up to their condition when originally built. Whenever Western undertakes a major maintenance project, there is also modernization of the facility, and whenever we carry out a major modernization project, there is generally some maintenance expenditure; it is thus difficult to separate the two. Line J is calculated on the assumption that 2/3 of the expenditures in categories 2, 3, and 5 involve maintenance (the remaining 1/3 is modernization), while 1/3 of the expenditures in category 4 involve maintenance (the remaining 2/3 is modernization). While the ratio of maintenance to modernization would vary by project and by year, Facilities Management considers them a reasonable average for the four categories over several years.

The value of line J in 2022-23 is \$24.9 million, or 1.0% (line K) of the replacement value in that year. A standard target in industry for this ratio is 2.0%; if large buildings last an average of 50 years, then average maintenance spending should be 2.0% of replacement value. When the actual ratio is consistently lower than 2.0%, as has been the case at Western and most Canadian universities over the last three decades, the level of deferred maintenance will grow. As Western renovates aging buildings, there will be years that deferred maintenance will decline as a result.

Table 15 outlines major capital projects, which are assigned to one of the nine categories. Where possible, the year and month of the start and end of the project(s) are shown.

The projects listed in Table 15 reflect the Long-Range Space Plan outlined in Table 13 of the Operating Budget portion of this document. These projects include new construction that will create new student and research spaces, major building renovations as well as utilities and infrastructure projects. With new building construction on campus continuing, Western is utilizing scarce developable land in the core campus. The Campus Development Strategy highlights the constraints in the amount of buildable land on our campus and the fact that new buildings are being constructed on parking lots – thus increasing the pressure on available parking. We continue planning for the construction of additional parking structures at the periphery of campus – including siting, a funding plan, and the required parking fee rates to finance these structures. Campus sustainability, energy conservation, and infrastructure projects are also included on Table 15 and will play a prominent role in Western's pursuit of net-zero carbon emissions from campus operations by 2050, or sooner. Often, these projects are comprised of multiple projects completed over several years.

The approved integration of Brescia University College with Western on May 1, 2024, will increase the land holdings of the university; however, these lands have not been included in the Campus Development Strategy, which will require further consideration in a future update to the strategy.

B. Sources of Funding and Capital Expenditures in 2024-25

Table 16 displays sources of funding for budgeted capital expenditures with estimates of comparative data for 2023-24, divided into five major categories: federal, provincial, and municipal government grants; funds transferred from Western's Operating Budget; one-time funds from Internally Restricted Net Assets; borrowing; and other sources.

The University must carefully balance its available resources for use in capital expenditures. For example, projects financed by debt require an ultimate funding source, and one-time funding from Internally Restricted Net Assets, such as allocations from the Major Strategic Opportunities Fund, must be used strategically since they can be exhausted.

Table 17 shows expenditures in categories 1 and 2 for 2023-24 (estimates as of March 18, 2024) and 2024-25 (current proposals).

In alignment with the priorities in our Strategic Plan, Western is continuing our capital plan in support of "growth and impact". We closely monitor construction market conditions and have been adjusting our capital plan and related timing of projects accordingly.

Long-Term Financial Trends

The Operating and Capital Budgets set out in Tables 2 and 14 of this document describe proposed spending of some \$1.2 billion for the single year of 2024-25. That spending will take place, however, in a long-term context which must be understood when evaluating the Operating and Capital Budgets. The Administration and Board have identified three elements of that long-term context which should be reviewed in the annual Budget of the University: capital reserves and debt, employee future benefits, and deferred maintenance.

A. Capital Reserves and Debt

Table 18 displays Capital Reserves and Debt for fiscal years ending April 30. Capital Reserves are divided into two categories:

- the General Capital Fund, which includes funds not yet designated for specific purposes and funds designated for future projects.
- the Designated Capital Fund, which has been assigned to specific capital projects.

Capital Debt is divided into the following categories:

- **New Construction, Major Renovations, Infrastructure, and Other** – represents debt on projects that are largely new construction, additions to existing buildings, other new facilities, non-residential projects that involve major maintenance, and renovations to existing space. It also includes debt on purchases of property.
- **Housing** – debt required for new construction, maintenance, and modernization projects for University residences and apartment buildings.
- **Research Park** – debt incurred by the Research Park.
- **Unused and Invested Debenture Proceeds** – unused proceeds from Western’s debenture issuances that have been committed and invested until specific capital projects require the funding.

Capital Debt is viewed as part of the capitalization structure of the University and a resource that can help the University advance its Long-Range Space and Campus Master Plans. While the use of debt as a financing strategy is important in our planning, this financing requires an ultimate funding source. Careful consideration of the optimal capitalization levels is also required, balancing the ongoing debt burden and service costs with the University’s long-term financial sustainability.

The University has Capital Debt, acquired through debenture issuances of \$190 million and \$100 million in 2007 and 2017, respectively, and by entering into a \$100 million fifteen-year facility in 2013 to finance a residence and other capital projects. The University’s debentures necessitate an annual credit rating review. Standard & Poor’s completed its annual review in February 2024 and the credit rating was re-affirmed at AA although Western’s outlook was upgraded from Stable to Positive.

The Board of Governors has approved a Capital Debt Policy that outlines the principles used in guiding the University’s overall capitalization and debt management strategy. Western is in compliance with both of its compliance ratios set out in the policy (net assets-to-debt and debt burden). The University also utilizes monitoring ratios as part of its management strategy. Figure E shows selected Capital Debt monitoring ratios for the years ending April 30.

Figure E
CAPITAL DEBT MONITORING RATIOS

	FTE Enrolment	Debt (\$M)	Debt per FTE (\$)	Revenues Available for Repayment (\$M)	Debt / Revenues Available for repayment (%)
2020	33,737	353.9	10,490	1,022.5	34.6%
2021	35,258	345.9	9,810	1,152.7	30.0%
2022	36,904	328.7	8,907	1,110.8	29.6%
2023	38,013	320.6	8,434	1,200.8	26.7%
2024p	39,418	312.2	7,920	1,224.8	25.5%

The projected debt is based on Board-approved projects with allowance for other projects, which may be presented to the Board during the period under consideration.

B. Employee Future Benefits

Subject to eligibility rules set within various collective agreements, the University provides medical, dental, and life insurance benefits to eligible employees after their employment with Western ends.

The obligation for these employee future benefits is projected by actuarial valuation every three years. In the years between valuations, an extrapolation of the actuarial valuation is used to determine the projected benefit obligations. At April 30, 2023, the University's accrued benefit liability relating to the employee future benefit plans was \$420.7 million (2022 - \$478.6 million). The annual expense for non-pension employee future benefits in 2023 was \$23.3 million (2022 - \$27.6 million).

A recent review of major research universities identified only four institutions with significant post-employment benefit obligations greater than \$100 million, ranging from \$124 million to \$803 million and an unweighted average of \$373 million. Western ranked second in total liability for employee future benefits.

Figure F outlines the University employee future benefits, the obligation and expense for years ending April 30.

Figure F
EMPLOYEE FUTURE BENEFITS (EFB) AS A % OF TOTAL EXPENSES

	EFB Obligation (\$M)	EFB Expense (\$M)	Total University Expenses (\$M)	EFB Expense as % of Total
2019	546.5	23.4	1,170	2.0%
2020	561.8	21.9	1,182	1.9%
2021	565.3	30.1	1,137	2.6%
2022	478.6	27.6	1,212	2.3%
2023	420.7	23.3	1,323	1.8%

C. Deferred Maintenance

Deferred Maintenance is defined as work on the maintenance of physical facilities that has been deferred on a planned or unplanned basis to a future budget cycle or postponed until funds become available. To avoid increasing the size of the deferred maintenance backlog, it is necessary to carry out replacement of facility components on an annual basis.

The estimates of deferred maintenance are different from estimates of debt or employee future benefits in the previous sections. There are actual contracts in place for the first two categories that allow us to make reasonable estimates. For deferred maintenance, this is not the case; therefore, we have to find other ways to quantify this liability. The University uses a capital-asset management system common to the sector to assess, track, and report on the condition of facilities. The system requires that each major component of a building – roof sections, classrooms, heating, ventilation, air-conditioning systems and so on – be inspected, either entirely or on a sample basis. Data on the findings of these inspections are entered into a central database. The system uses industry-standard cost and lifecycle data to forecast the timing and costs of capital renewal projects. Cost forecasts also include soft costs and automatic renewal requirements to maintain assets.

The University, in coordination with all other Ontario universities, is undertaking a campus wide review of its facilities data, to further improve upon our facilities condition estimates. This data review is being conducted by a common vendor across the sector and is expected to be complete by 2024-25. As the data review continues, the estimates of deferred maintenance may fluctuate from year to year.

As at February 27, 2024, the Facilities Management Division estimates that deferred maintenance at Western is \$326 million for non-residential buildings and \$77 million for residences. Approximately 64% of the deferred maintenance for non-residential buildings relates to mechanical and electrical requirements. Other major components include maintenance driven by code requirements and maintenance for roofs and windows.

A common measure for determining the overall condition of facilities is the ratio of deferred maintenance over Current Replacement Value (DM/CRV) of the facilities. The calculation as at February 27, 2024, is outlined in Figure G as follows:

Figure G

DEFERRED MAINTENANCE TO CURRENT REPLACEMENT VALUE

		Non-Residential Buildings	Combined Residences
1	Current Replacement Value (CRV)	\$3,024 million	\$1,102 million
2	Deferred Maintenance (DM)	\$326 million	\$77 million
3	DM/CRV	10.8%	7.0%

The average age of buildings for universities in the Province of Ontario was 56 years as of March 2024. Western's average age is 43.2 years and 55% of our buildings were built before 1980. Western's residences are funded through rents which cover maintenance; the University has never had a problem

with deferred maintenance on residences. A ratio of 10.8% (Deferred Maintenance/Current Replacement Value) for non-residential buildings indicates a significant need for maintenance funding.

If the average component of a large building lasts 50 years, then on average, maintenance spending should be 2.0% of replacement value. This level of spending is a standard target in the industry. When the actual ratio is consistently less than 2.0%, as has been the case at most Canadian universities, the volume of deferred maintenance will grow. Failure to adequately address deferred maintenance results in substandard facilities and could result in the failure of critical systems. Based on the Current Replacement Value of our facilities at \$3,024 million, spending on major maintenance for campus buildings at 2.0% should be in the range of \$60 million annually, an estimate that has risen significantly over the past number of years as construction costs have risen.

As explained at the start of the Capital Budget, the annual maintenance transfer is used for Maintenance, Modernization, and Infrastructure (MMI). The Administration is sometimes asked by faculty and staff if the MMI transfer is too large. As lines G and E in Table 14 show, the ratio of the MMI transfer to the Current Replacement Value of our non-residential buildings, utilities, and infrastructure has been below 1% in recent years (Figure H).

Figure H
MMI TRANSFER TO CRV RATIO 2020-21 to 2024-25

		Actual 2020-21	Actual 2021-22	Actual 2022-23	Projected 2023-24	Budget 2024-25
1	MMI (\$M)	15.5	15.5	15.5	15.5	16.0
2	CRV (\$M)	2,062	2,162	2,414	3,024	3,342
3	Ratio	0.75%	0.72%	0.64%	0.51%	0.48%

Thus, the MMI transfer from the Operating to the Capital Budget is nearly a quarter of the 2.0% required to keep deferred maintenance from growing. Continuation of this MMI transfer is essential to maintaining a safe and reliable campus infrastructure, which supports modern research and teaching, and sustains faculty, staff, and student morale.

Line J of Table 14 presents an estimate of maintenance spending from all sources, with maintenance defined as spending required to bring aging facilities up to their condition when originally built. The last time the ratio of this estimate to current replacement value was about 2.0% was 2010-11. A projected ratio of 1.6% for 2024-25 will be higher than in recent years, but below the 2.0% target. Additional funding, from provincial and federal sources, continues to be required to catch up and maintain the 2.0% target over the long-term. Achieving the 2.0% target over time is required to sustain the condition of Western's facilities.

ITEM 11.1 – New MAPP policy: Policy 7.17 – Establishment, Governance and Review of Core Research Facilities

ACTION: APPROVAL INFORMATION DISCUSSION

EXECUTIVE SUMMARY:

P. Pexman, Vice-President (Research) and B. Neff, Associate Vice-President (Research), will present the new MAPP 7.17 – Establishment, Governance and Review of Core Research Facilities for discussion.

POLICY 7.17 – Establishment, Governance and Review of Core Research Facilities

Policy Category:	Research
Subject:	Establishment, Governance and Review of Core Research Facilities
Approving Authority:	Board of Governors on recommendation of Senate
Responsible Officer(s)	Vice-President (Research)
Responsible Office:	Office of the Vice-President (Research)
Related Procedures:	Procedures for the Establishment, Governance and Review of Institutional Core Research Facilities
Effective Date:	TBD

A. PURPOSE

1.00 The University is committed to research excellence and innovation. The University's strengths as a research-intensive institution have derived, in good measure, from the efforts of individual scholars. With ever-increasing needs by scholars for expensive, complex, or specialized research infrastructure, there is a need to enhance the functionality of research facilities, to consider economies of scale, and to ensure a coordinated effort to maximise efficient use and impact within the University. The purpose of this document is to set out the policies and procedures of Core Research Facilities related to their intended scope, required governance, and reporting structures.

B. DEFINITION & SCOPE

1.00 **Core Facility:** A unit within the institution that provides users with access to state-of-the-art research services, analyses, instruments, technology, expertise, resources, and/or training that are typically too expensive, complex, or specialized to be maintained by individual scholars. A core facility typically operates on a fee-for-service basis, supports multiple users, and is available to qualified users without any requirement for collaboration or co-authorship. A core facility is recognized and supported by the institution, has a sustainability plan, and a clear governance and management structure. The facility provides benefits such as financial savings through economies of scale, expert operators, training opportunities, and reduced duplication of services and effort within the institution.

2.00 This policy recognizes two types of core facilities: (i) Faculty and (ii) Institutional. Faculty Core Facilities receive oversight and administration from faculties and/or departments. Institutional Core Facilities are primarily administered within their respective faculty(s), while receiving additional oversight provided by the Office of the Vice-President (Research) through a structured governance framework. The formalized institutional oversight and assessment process can serve as a significant factor for external funding agencies when evaluating large-scale infrastructure proposals (e.g. Canadian Foundation for Innovation (CFI) Major Science

POLICY 7.17 – Establishment, Governance and Review of Core Research Facilities

Initiatives Fund, Innovation Fund). Institutional Core Facilities may be marked by the scale and diversity of services they provide, the complexity of equipment, utilization that transcends disciplinary boundaries, or influence on a provincial, national, or international scale.

C. ESTABLISHMENT AND RENEWAL

1.00 Establishment of a Faculty Core Facility

Proposals to establish a Faculty Core Facility are submitted to the relevant Dean(s). The Dean will ensure that the proposed facility meets the requirements and is aligned with Faculty interest and priorities. The Dean will also review sources of funding and resource requirements to ensure that requirements can be supported by the Faculty and that liabilities are minimized. For Faculty Core Facilities to be recognized, once per year the Dean will submit a report to the Vice-President (Research) listing the Faculty Core Facilities that are currently active within their Faculty, providing for each facility: the facility name, the name and contact information for the facility director, the facility website, and a list of services or equipment provided by the facility.

2.00 Terms and Renewals for a Faculty Core Facility

Terms and Renewals of Faculty Core Facilities are managed by the relevant Dean(s). Facility status is reported by the Dean to the Vice-President (Research) as described in section 1.00.

3.00 Establishment of an Institutional Core Facility

Proposals for Institutional Core Facilities are submitted to the Vice-President (Research) in accordance with the requirements enumerated in the [Procedures for the Establishment, Governance and Review of Institutional Core Research Facilities](#). Proposals will be reviewed by the Core Planning Group (CPG) to assess alignment with the definition and purpose of Institutional Core Facilities. Proposals that are supported by the CPG will be forwarded to the Vice-President (Research) for approval. Establishment of an Institutional Core Facility will be reported to the University Research Board (URB) and through it, to Senate for information.

4.00 Terms and Renewal for an Institutional Core Facility

The initial term shall normally not exceed five years. Upon application, additional terms, each normally not exceeding five years in duration, may be granted by the Vice-President (Research) in consultation with the Core Planning Group, and subject to the satisfactory review of performance and impact, alignment with Western's strategic research priorities, and business model of the Institutional Core Facility. The Vice-President (Research) will notify the URB of any renewal or expiration of the term of an Institutional Core Facility for information.

D. GOVERNANCE AND REPORTING

- 1.00 All core facilities are expected to adhere to general practices of good governance with administrative structures that utilize expert advice and which ultimately inform the Faculty Dean(s) and the Vice-President (Research) as to their activities and performance.

POLICY 7.17 – Establishment, Governance and Review of Core Research Facilities

2.00 Director

A Core Facility is led by a Director, who will typically hold a research-eligible appointment at Western University (e.g. faculty, adjunct, clinical, institute scientist). The term of the Director of an Institutional Core Facility will typically coincide with the term of the facility. The Director will normally hold an academic appointment and report to the appropriate Dean and Chair with respect to their academic responsibilities. The Vice-President (Research), in consultation with the appropriate Dean(s), will be responsible for the search and appointment of an Institutional Core Facility Director. The appropriate Dean(s) or Department Chair(s) will be responsible for the search and appointment of a Faculty Core Facility Director.

3.00 Manager

A Core Facility will normally employ a Manager, who reports to the Director, and is responsible for supervising the day-to-day operations of the facility and its staff.

4.00 Advisory Board

All Core Facilities are expected to incorporate expert advice to guide their activities. For Institutional Core Facilities, this advisory process will be formalized through the formation of an Advisory Board, by the Director, as appropriate to the facility. The Advisory Board is chaired by the Director and its mandate is to advise on the overall direction and operations of the Institutional Core Facility. It will meet at least once per year. The Advisory Board will receive an annual report from the Director on the status, progress, and immediate future plans of the Institutional Core Facility.

E. REVIEW, RENEWALS, RESTRUCTURING OR DISSOLUTION

1.00 Review of Institutional Core Facilities

Renewal applications for Institutional Core Facilities are submitted to the Vice-President (Research) in accordance with the requirements enumerated in the [Procedures for the Establishment, Governance and Review of Institutional Core Research Facilities](#). See section C.4.00 above for term details.

If the renewal deadline has been reached and no renewal application is forthcoming (and no extension has been approved), the Vice-President (Research), after consultation with the Core Planning Group, will inform the URB about the dissolution of the facility. Decommissioning of the facility may involve consultation with Institutional Planning and Budgeting, the Vice-President (Research), Faculties and other stakeholders as required.

Institutional Core Facilities will be reviewed by the Core Planning Group (CPG) in accordance to the [Procedures for the Establishment, Governance and Review of Institutional Core Research Facilities](#). The CPG will prepare a report for the Vice-President (Research) that summarizes the overall performance of the facility and Director and includes recommendations with respect to the renewal, restructuring or dissolution of the facility, renewal of the incumbent Director and comments about the proposed plan for a next term. After considering the information presented by the CPG, the Vice-President (Research) will decide one of the following: renewal of the facility (with specific recommendations to be implemented over the next term); dissolution/non-renewal of the facility; or restructuring of the facility into a Faculty Core Facility. If the Institutional Core Facility is recommended for renewal, the Vice-President (Research) will also assess the details of the term for the Director.

POLICY 7.17 – Establishment, Governance and Review of Core Research Facilities

2.00 Re-Appointment of or Search for the Facility Director

If the Institutional Core Facility is to be renewed, the Vice-President Research will either renew the Director's term or launch a search for a new Director.

F. BENEFITS AVAILABLE TO CORE FACILITIES

1.00 CFI John Evans Leaders Fund (JELF)

The Core Planning Group is expected to allocate a proportion of Western's CFI JELF envelope for applications from recognized Core Facilities.

2.00 Internal Assessment of Proposals

Core Facility status is a factor that will, as appropriate, be considered by internal evaluation committees when considering applications for programs with limited institutional envelopes (e.g. CFI Innovation Fund).

3.00 Research Support Fund (RSF)

Core Facility status is a factor that will be considered by Institutional Planning and Budgeting, the Vice-President (Research) or Faculties when allocating RSF funding.

4.00 Western Research Chairs

Directors of Institutional Core Facilities are eligible to be nominated for a Western Research Leadership Chair.

5.00 Alternative Workload

Departments and Faculties may consider alternative workloads for Core Facility Directors commensurate with the additional administrative responsibilities associated with the Core Facility.

6.00 Institutional Support

Core Facility status will, as appropriate, be considered in the allocation of institutional resources, including CFI Infrastructure Operating Funds and funding specifically allocated to support Core Facilities, as such funding becomes available.

7.00 Personnel Hiring and Retention

Recognition, support, and stability of Core Facilities will help establish Western University as a destination of choice for the Highly Qualified Personnel (HQP) that are critical for the operation of Core Facilities.

8.00 Budget Unit

Institutional Core Facilities may request to become an ancillary budget unit, subject to approval from Institutional Planning and Budgeting, the Vice-President (Research), and the associated Faculty Dean. Such designation can be used to direct research overhead in accordance with MAPP 7.7.

POLICY 7.17 – Establishment, Governance and Review of Core Research Facilities

9.00 Recognition and Discovery

Information about Core Facilities will be used to develop a web-portal that will enable potential users to identify services available from recognized Core Facilities at Western University.

G. GENERAL CONDITIONS

1.00 Adherence to University Policies

All Core Facilities are expected to adhere to all applicable university policies and procedures, financial and otherwise, as established or amended from time to time.

2.00 Incorporation

Requests for incorporation by Core Facilities will be entertained only in the most exceptional circumstances and must be approved by the Board of Governors of the University. Should such approval be granted, a formal Affiliation Agreement shall be established between the Core Facility and the University, the terms of which are subject to the approval of the Board of Governors. In any incorporated entity, the members of the governing board of the Core Facility shall be approved by the University's Board of Governors, and/or a majority of the members of the governing board of the Core Facility shall be appointed by the University.

3.00 Fundraising

All fundraising activities proposed by Core Facilities shall be undertaken in consultation with, and subject to the approval of, the Vice-President (University Advancement) and the Faculty Dean for Faculty Core Facilities or Vice-President (Research) for Institutional Core Facilities. All charitable income tax receipts will be issued in the name of the University and by the University.

4.00 Contracts

The University shall be solely responsible for the negotiation and approval of research contracts involving Core Facilities or its members, unless stipulated otherwise under the terms of a written and active agreement with the University.

**PROCEDURE FOR POLICY 7.17 – Establishment, Governance and Review of
Institutional Core Research Facilities**

A. Establishment

The following information is to be included in a proposal to establish an Institutional Core Facility:

1. Purpose and Function

- a) Proposed name.
- b) Link to the facility website.
- c) List of equipment and / or services provided by the facility.
- d) Faculties/Departments/School or external institutions directly involved in the facility operations (provide documentation indicating support for the proposal from each unit, as appropriate).
- e) Rationale and justification; potential for impact as it relates to research and, where applicable, teaching, training, and EDI; alignment with Western's strategic research priorities; and anticipated benefits such as financial savings through economies of scale and reduced duplication of services within the institution.
- f) Primary objectives, anticipated outcomes, and Key Performance Indicators (KPI) that will be used to measure progress towards those objectives as appropriate for the scope and mandate of the facility. Include current KPI benchmarks along with targets.

2. Governance, Administration and Organizational Relationships

- a) Name, affiliation and qualifications of the proposed Director or the plan to identify a Director.
- b) Description and membership of the Advisory Board. Include proposed membership if the Advisory Board is not yet established.

3. Students and Training

- a) Level and type of involvement of undergraduate students, graduate students and postdoctoral associates in Institutional Core Facility activities.
- b) Contribution to training and instructional programs.

PROCEDURE FOR POLICY 7.17 – Establishment, Governance and Review of Core Research Facilities

4. Physical Requirements

- a) Space requirements at Western: (i) at start-up; (ii) within 5 years.
- b) Space requirements at other institutions or locations as appropriate (provide documentation of any arrangements in place to secure such space).
- c) Requests for customized supports from university services such as library, security, computing, purchasing, accounting, human resources, payroll, and so forth.

5. Staffing Requirements

- a) Requirements for administrative, and/or technical personnel support from the University, including descriptions of the expected requirements from supporting units (e.g. Animal Care and Veterinary Services).
- b) Details of all proposed support staffing arrangements, as follows: For each support staff member, indicate: i) proposed source of budget (e.g. University, Faculty, Institutional Core Facility); ii) role or duties.

6. Business Model and Sustainability

- a) Provide a five-year budget plan. Summary of funding sources, including projected fee-for-service revenue and associated rate cards for internal and external users, in-kind support requested from Faculties/Schools/Departments, central administration of the University, or external sources. In the case of financial/in-kind support from external institutions, provide evidence that necessary agreements between the University and the external institution are in place or have been submitted for approval and attach a copy of the agreement or proposed agreement.
- b) Where available, a 5-year summary of past financial performance.
- c) Estimated total budget of the Institutional Core Facility (at start-up and for the first five years of operation).
- d) Anticipated remaining useful life for major equipment, as well as the estimated expenses and source of funds for decommissioning that equipment (e.g. reserved from user fees).
- e) Any proposed deviations from the standard rate and distribution of overhead on contract research as set out in MAPP 7.7 shall be detailed within the context of the overall budget plan.

7. Intellectual Property and Commercialization

- a) Details of proposed arrangements relating to the ownership and/or commercialization of intellectual property created through work undertaken at the Institutional Core Facility, including a statement recognizing the requirement to follow all guidelines set out by MAPP 7.16, the UWOFA Collective Agreement, and the Postdoctoral Associates Collective Agreement.
- b) Details of proposed arrangements for the conduct of private sector contract research (subject to individual negotiation).

PROCEDURE FOR POLICY 7.17 – Establishment, Governance and Review of Core Research Facilities

B. Renewal

The renewal application should be submitted to the Office of the Vice-President (Research) three months in advance of the end of the current mandate term. In order to meet this deadline, Institutional Core Facilities are advised to begin the review process at least 6 months prior to the end of the current mandate term. The following information is to be included in a proposal to renew an Institutional Core Facility:

1. Purposes and Function

- a) Facility Name.
- b) Link to the facility website.
- c) List of equipment and services provided by the facility.
- d) Faculties/Departments/School or external institutions directly involved in the facility operations (provide documentation indicating support for the renewal for each or all as appropriate).
- e) Rationale and justification; potential for impact as it relates to research and, where applicable, teaching, training, and EDI; alignment with Western's strategic research priorities; and anticipated benefits such as financial savings through economies of scale and reduced duplication of services within the institution.
- f) Primary objectives, anticipated outcomes, and Key Performance Indicators (KPI) that will be used to measure progress towards those objectives. Include current KPI benchmarks along with targets.
- g) Report on activities since formation or the previous renewal and progress towards objectives (as above) including:
 - i. Progress towards primary objectives, anticipated outcomes and KPI identified for the previous term.
 - ii. Overview/highlights of research productivity.
 - iii. Evidence of impact at the regional, national or international level including details about the organizations, groups and institutions involved.
 - iv. External grant applications and awards in support of the Institutional Core Facility.
 - v. Overview/highlights of other activities.
 - vi. Feedback / survey responses from facility users.

2. Governance, Administration and Organizational Relationships

- a) Name, affiliation and qualifications of the proposed Director.
- b) Description and membership of the Advisory Board.

PROCEDURE FOR POLICY 7.17 – Establishment, Governance and Review of Core Research Facilities

3. Students and Training

- a) Level and type of involvement of undergraduate students, graduate students and postdoctoral associates in Institutional Core Facility activities.
- b) Contribution to training and instructional programs.

4. Physical Requirements

- a) Space requirements at Western: (i) current; (ii) within 5 years.
- b) Space requirements at other institutions or locations as appropriate (provide documentation of any arrangements in place to secure such space).
- c) Requests for customized supports from university services such as library, security, computing, purchasing, accounting, human resources, payroll, and so forth.

5. Staffing Requirements

- a) Requirements for administrative, and/or technical personnel support from the University, including descriptions of the expected requirements from supporting units (e.g. Animal Care and Veterinary Services).
- b) Details of all proposed support staffing arrangements, as follows: For each support staff member, indicate: i) proposed source of budget (e.g. University, Faculty, Institutional Core Facility); ii) role or duties.

6. Business Model and Sustainability

- a) Provide a five-year budget plan. Summary of funding sources, including projected fee-for-service revenue, “in-kind” support requested from Faculties/Schools/Departments, central administration of the University, or external sources. In the case of financial/in-kind support from external institutions, provide evidence that necessary agreements between the University and the external institution have been approved by the University’s General Council or have been submitted for approval and attach copy of agreement or proposed agreement.
- b) Total budget of the Institutional Core Facility (over the previous term and expected for the next five years of operation).
- c) Anticipated remaining useful life for major equipment, as well as the estimated expenses and source of funds for decommissioning that equipment (e.g. reserved from user fees).
- d) Any proposed deviations from the standard rate and distribution of overhead on contract research as set out in MAPP 7.7 shall be detailed within the context of the overall budget plan.

PROCEDURE FOR POLICY 7.17 – Establishment, Governance and Review of Core Research Facilities

7. Intellectual Property and Commercialization

- a) Details of proposed arrangements relating to the ownership and/or commercialization of intellectual property created through work undertaken at the Institutional Core Facility, including a statement recognizing the requirement to follow all guidelines set out by MAPP 7.16, the UWOFA Collective Agreement, and the Postdoctoral Associates Collective Agreement.
- b) Details of arrangements for the conduct of private sector contract research.

C. Administrative Responsibilities

The administrative responsibilities of an Institutional Core Facility include, but are not limited to:

- a) Preparing an annual report. This report is submitted by the Director to the Advisory Board and details the status, progress and immediate plans of the facility. Following revision if required, the annual report should be shared with the Associate Dean(s) Research and the Vice-President (Research).
- b) Holding an annual meeting of the Advisory Board. This meeting will discuss the status, progress and immediate plans of the facility, with meeting notes recorded.
- c) Managing staff. The Institutional Core Facility is expected to oversee and provide continuing training opportunities for staff that maintain the operational needs of the facility.
- d) Maintaining website. Each Institutional Core Facility should maintain an up-to-date, Western-branded website including services and pricing, contacts, as well as details of the research activities supported by the facility.
- e) Performing education and outreach. Participate in educational activities, where appropriate, that benefit the University research community and broader community.
- f) Developing access model. Institutional Core Facilities are expected to develop fair, equitable and transparent access models that balance the needs of their research communities. Pricing models are expected to incorporate sound budgeting and provide access to Western users at rates that reflect the subsidy provided by institutional support, with rates for external users reflecting the full cost of the services provided. Institutional Core Facilities are also encouraged to develop guidelines that encourage users to pursue grants for shared equipment, which might include preferred access to that equipment or credits for services at the facility.

ITEM 12.0 – Report of the Academic Colleague

ACTION: APPROVAL INFORMATION DISCUSSION

The COU Academic Colleagues met on April 3 and 4, 2024. The April 3 meeting included a presentation on University Governance with Cheryl Foy, President of [Strategic Governance Consulting Services Ltd.](#), who spoke on the relationship between university governance, shared governance as a system, the roles of boards and academic governing bodies, and the role of faculty associations in governance. Ms. Foy stated that ineffective university governance is a threat to autonomy (failures invite provincial governments to step in), and that universities have an important democratic role to play in protection against the tyranny of ideas. University governance differs from corporate governance, with its complex relationship between Boards and Senates, the large number of people involved, and an academic culture that prizes individual professors' autonomy. It's critical for members of governing bodies to understand their roles within governance as a system.

Discussion around the presentation centered on the role of equity, diversity, and inclusion in university governance, and how governance might need to change to foster decolonization. Several members pointed out that an important role for faculty associations is in supporting members of marginalised groups to engage with university governance.

Information shared by Colleagues at the April 4 meeting included news about budgets, labour relations, and free expression at universities across Ontario.

COU's President, Steve Orsini, discussed the provincial budget: the \$1.26 billion of new funding for the post-secondary sector included \$93M to universities for STEM programming above enrolment corridors (1 year), \$700M to colleges and universities for base operating funding (3 years, details unknown), and \$203M for institutions in significant financial difficulty (3 years, details unknown). Tuition is frozen for an additional three years, and international enrolment at universities frozen at current levels. Negotiations for the fourth round of strategic mandate agreements (SMA4) begin soon, and COU expects that a press for additional operating funding will likely happen then.

Other instances of public attention toward university campuses include discussions of contentious topics, safety on campus, and research security, the last of particular interest to the federal government. Newly introduced Ontario Bill 166 requires institutions to produce reports on student mental health, disclosures of fees and costs, and anti-hate efforts.

The 317th meeting of Council on April 4 included a transition of COU to a new governance structure as required by the Ontario Not-for-Profit Corporations Act. The Council and its Constitution were dissolved, and reconstituted under new by-laws that enshrine the rights of voting members of COU – Executive Heads and Academic Colleagues – and the shift of all fiduciary responsibilities and liabilities to the COU Board of Directors.

ITEM 13.0 – The Unanimous Consent Agenda

ACTION: APPROVAL INFORMATION DISCUSSION

Recommended: That the items listed in the Consent Agenda be approved or received for information by the Senate by unanimous consent.

The Senate's parliamentary authority - *American Institute of Parliamentarians Standard Code of Parliamentary Procedure* (formerly called *Sturgis Standard Code of Parliamentary Procedure*) - explains the consent agenda:

Organizations having a large number of routine matters to approve often save time by use of a *consent agenda*, also called a *consent calendar* or *unanimous consent agenda*. This is a portion of the printed agenda listing matters that are expected to be non-controversial and on which there are likely to be no questions.

Before taking the vote, the chair allows time for the members to read the list to determine if it includes any matters on which they may have a question, or which they would like to discuss or oppose. Any member has a right to remove any item from the consent agenda, in which case it is transferred to the regular agenda so that it may be considered and voted on separately. The remaining items are then unanimously approved *en bloc* without discussion, saving the time that would be required for individual votes.

A number of Canadian university governing bodies have employed the consent agenda format to include not only routine approval items, but also information items. One reason for using this format is to allow the governing body to focus on major items of business. While approval of an omnibus motion saves time at meetings, members will want to review the agenda materials carefully in order that they properly discharge their responsibilities.

How it works for Senate:

In consultation with Committee chairs and principal resource persons, the University Secretary identifies action and information items that are routine and/or likely non-controversial. Action and information items on the agenda that are not noted on the consent agenda will be presented singly for discussion and voting (when appropriate).

When members receive their meeting agendas, they should review all reports in the usual manner. **If any member wants to ask a question, discuss, or oppose an item that is marked for the consent agenda, they can ask to have it removed from the consent agenda** by contacting the University Secretary (at senate@uwo.ca) prior to the meeting or by asking that it be removed before the Chair calls for a mover and seconder for the motion to approve or receive, by unanimous consent, the items listed.

At the Senate meeting, before the unanimous consent motion is presented for approval, the Chair of Senate (1) will advise the Senate of items that are to be removed from the list based on prior requests from Senate members; and (2) will ask if there are any other items that

should be removed from the list. The remaining items are then unanimously approved *en bloc* without discussion. Those matters that have been struck from the consent agenda will be handled in the usual way.

The minutes of the Senate meeting will report matters approved as part of the consent agenda as "carried by unanimous consent". Information items received as part of the consent agenda will be reported as received.

ITEM 13.1(a) – Senate Membership – Vacancies Filled by Appointment

ACTION: APPROVAL INFORMATION DISCUSSION

The Senate seats listed below were filled by appointment for the term indicated at the recommendation of the units concerned in accordance with the Senate Election Procedures.

Faculty of Science	
Anne Simon	July 1, 2024 – June 30, 2026

ITEM 13.1(b) – Revision to the Approval Level for SGPS Regulations (presented in the Report of the *ad hoc* Working Group – September 2022)

ACTION: APPROVAL INFORMATION DISCUSSION

EXECUTIVE SUMMARY:

In June 2021 the Operations/Agenda Committee (OAC) formed an *ad hoc* Working Group to review the structure and remit of the Senate Committee on Academic Policy and Awards (SCAPA) and its subcommittees.

The Second Report of the *ad hoc* Working Group (“the Report”), received by Senate at its September 16, 2022 meeting, presented recommendations relating to the review and approval of graduate-level academic policy.

As described in the Report, the *ad hoc* Working Group, in consultation with the Vice-Provost (Graduate and Postdoctoral Studies) reviewed the SGPS Regulations in effect at that time and considered the appropriate approval level for each Regulation. The Report included a table that presented the *ad hoc* Working Group’s recommendation for the approval level for each SGPS Regulation (i.e., Senate or Graduate Education Council).

SGPS Regulations that contained academic policy were identified as falling under the purview of Senate. SGPS Regulations that fell outside the scope of academic policy (e.g., financial support; process relating to thesis formatting, SGPS membership) were identified as falling under the purview of the Graduate Education Council.

At its meeting on September 16, 2022, Senate approved a motion to ratify the SGPS Regulations identified as falling under Senate’s purview in the Report as Senate Academic policy.

At that time, SGPS Regulation 7.01 (Visitor and Exchange Programs) was identified as falling under the authority of the Graduate Education Council (GEC) and SGPS Regulation 7.02 (Graduate Study at Western for Non-Western Students) was identified as falling under the purview of Senate.

Regulation 7.01 (Visitor and Exchange Programs) pertained to Western students accessing the Ontario Visiting Graduate Student Program (OVGS) and Canadian Universities Graduate Transfer Agreement (CUGTA) programs.

Regulation 7.02 (Graduate Study at Western for Non-Western Students) pertained to non-Western students attending Western via the OVGA and CUGTA programs.

It was subsequently determined that the policy on “Graduate Student at Western for Non-Western Students” (former SGPS Regulation 7.02) had been incorrectly classified as under the purview of Senate as both 7.01 and 7.02 pertained to the OVGS and

CUGTA programs which are under the authority the Council of Ontario Universities (COU) (specifically, the Ontario Council on Graduate Studies (OCGS)) and the Canadian Association for Graduate Studies (CAGS) respectively, and all member institutions of CAGS have access to the program.

Accordingly, at its March 15, 2024 meeting, on the recommendation of the Senate Committee on Academic Policy, Senate approved that effective March 15, 2024, the policy on “Graduate Study at Western for Non-Western Students” be rescinded as Senate Academic Policy.

SGPS subsequently reestablished the former policy on “Graduate Study at Western for non-Western Students” as an SGPS Regulation, which is presented for information at Item 13.2(c) of the Senate Agenda.

This proposal corrects the approval level for the former SGPS Regulation 7.02.

ITEM 13.2(a) – Schulich School of Medicine & Dentistry: Revisions to the “Dean’s Honour List and Graduation “With Distinction”” Policy

ACTION: APPROVAL INFORMATION DISCUSSION

Recommended: That on the recommendation of the Senate Committee on Academic Policy, Senate approve that effective September 1, 2024, the “Dean’s Honour List and Graduation “With Distinction”” policy be revised as shown in Item 13.2(a).

EXECUTIVE SUMMARY:

Schulich Dentistry is proposing to update the “Dean’s Honour List and Graduation “With Distinction”” policy to:

- remove the Dean’s Honour List from the Doctor of Dental Surgery (DDS) program; and
- specify that a DDS student will graduate “With Distinction” if they achieve a cumulative average in the top 10% of the class and have a minimum overall average of 80% with no course failures.

Schulich Medicine removed the Dean’s Honour List from the Doctor of Medicine (MD) program a number of years ago. Schulich Dentistry would like to align with the MD program by removing the Dean’s Honour List from the DDS program.

Inclusion on the Dean’s Honour List in any given year does not help students be competitive for a dentistry residency program following graduation from the DDS program. What does help a student to be competitive for a dentistry residency program is their cumulative average and their overall ranking in the class.

With the removal of the Dean’s Honour List, Schulich Dentistry is proposing that students graduate “With Distinction” if they achieve a cumulative average in the top 10% of the class and have a minimum overall average of 80% with no course failures.

The Secretariat has also included administrative updates to the provisions for the Honours Business Administration (HBA) program.

DEAN'S HONOUR LIST - UNDERGRADUATE STUDENTS

The following statements apply to undergraduate students in the Faculties of Arts and Humanities, Health Sciences, Information and Media Studies, Music, Science and Social Science, and at Brescia University College, Huron University College and King's University College.

Undergraduate students with outstanding academic records are adjudicated for inclusion in the Dean's Honour List in May and August of each year.

1. In May of each year the Dean of each Faculty establishes an Honour List containing the names of all full-time students registered in that Faculty who completed a minimum of 4.0 courses during the previous Fall/Winter Session (September-April) and earned an average of 80% or more with no failed courses.

Dean's Honour List and Graduation "With Distinction"

2. Students enrolled in fewer than 4.0 courses will qualify for the list in May or August each time they accumulate a new set of at least 4.0 consecutive courses and earn an 80% average with no failed courses within that set.
3. Graduating students who attained Dean's Honour List standing at their last checkpoint and maintained a cumulative average of 80% with no failures on any courses taken from then until graduation will be named to the Dean's Honour List upon graduation.
4. Grades received on a Letter of Permission will be included in the average.

The following statements apply to other undergraduate faculties/schools/programs:

1. **Richard Ivey School of Business:** The Honours designations that are available to **Honours Business Administration (HBA)** students are listed below. If an HBA student is found in breach of the Ivey Student Code of Conduct, the student may be ineligible to receive any of the Honours designations – Dean's Honours List, Ivey Scholar, Gold Medal, "With Distinction" – and may not be included in the Ivey Ring Tradition Ceremony.
 - a. **Pass with Distinction:** Students in the ~~Honours Business Administration (HBA)~~ program who achieve an overall average of at least 80% on a full year's work in HBA1 or HBA2, as defined by the program, will be designated as Pass with Distinction on Western's transcripts.
 - b. **Dean's Honour List:** A student must complete a full year's course work as defined by the program and attain grades in the top 25% of the class to receive the Dean's Honour List standing on Western's transcripts. Students may attain Dean's Honour List standing at the end of HBA1 and at the end of HBA2. The average excludes exchange and non-Ivey courses.
 - c. **Ivey Scholar:** A student who achieves a standing in the top 10% in both HBA1 and HBA2 will be designated as an Ivey Scholar on Western's transcripts. Students may attain Ivey Scholar designation only at the end of HBA2. The HBA1 and HBA2 averages exclude exchange and non-Ivey courses.
2. ~~**School of Dentistry (both DDS and ITD programs):** Students must complete a full year's work as defined by the program and achieve an average of 80% or have a special recommendation of the Director.~~

~~**Note:** Students who have sat supplemental examinations are not eligible to be ranked to the Dean's Honours List.~~

Dean's Honour List and Graduation "With Distinction"

3. **Faculty of Education.** At the end of each of years 1 and 2, students in the B.Ed. program who achieve an overall weighted average of at least 85%, with no failed courses, will qualify for inclusion on the Dean's Honour List.
4. **Faculty of Engineering,** to be named to the Dean's Honour List students in Engineering must complete a minimum of five courses (5.0 credits) in the academic year (i.e., September - April) and achieve an average of 80% on all courses with no failed courses.
5. **Faculty of Law,** students must complete a full year's work as defined by the program and be in the top 10% of the class to be named to the Dean's Honour List for that year.

Only the grades earned in courses taken at the Faculty of Law in a particular year (provided those courses total at least 14 credit hours) are used to calculate a student's standing for an overall achievement award in that year. Students who attend the Faculty of Law on a letter of permission from another law school are not considered for the Dean's Honour List or an overall achievement award in that year.

6. **School of Nursing.** Students who have achieved an 80 percent in each course, excluding electives, will be considered for Dean's Honour List.

The following statements apply to Undergraduate **Combined Degree Programs**:

Students who are registered in the Fall/Winter session in an approved program of full-time studies leading to two undergraduate degrees will be adjudicated for the Dean's Honour List of each Faculty provided that at least 3.5 courses of the year's work have been approved for credit toward the particular degree.

1. **Engineering:**
Students registered in a combined degree program will be adjudicated for the Dean's Honour List for Engineering based on all courses taken in the academic year (i.e., September - April) provided the student is registered in a minimum of five courses (5.0 credits). In addition, an average of 80% must be achieved on all courses taken towards the BESC degree with no failed courses.

Engineering and Business:

For Engineering students in the BESC/BA(HBA) program, refer to point 1 above. For Business students in this program, refer to point 2 below.

Engineering and Law:

For Engineering students in the BESC/JD program, refer to point 1 above. At the Law School, students are considered for the Dean's Honour List during their first year of Law (Year Four). Students enrolled in Years Five and Six of

Dean's Honour List and Graduation "With Distinction"

the combined program are considered for the Dean's Honour List provided they take Law courses totaling at least 12 credit hours. Only the Law courses will be used in the calculation for the Dean's Honour List for Law.

2. **Business – all Combined Degree Programs:**

At the Richard Ivey School of Business, students are considered for the Dean's Honour List during their first year of HBA. Students enrolled in Years 4 and 5 of the combined program are considered for the Dean's Honour List in Year 5 only and only grades obtained in 4000-level Business courses will be used in calculating averages for the purpose of determination of Dean's Honour List standing.

Exceptions:

a) Business and Law (HBA/JD program)

At the Richard Ivey School of Business, students are considered for the Dean's Honour List during their first year of HBA. Students enrolled in Years 5 and 6 of the combined degree program are considered for the Dean's Honour List in Year 6 only. Only grades obtained in 4000-level Business courses will be used in calculating averages for the purpose of determination of Dean's Honour List standing.

A student who takes Law courses totaling at least 12 credit hours in each of Years 5 and 6 of the combined program is considered for the Dean's Honour List at the Faculty of Law in that year on the basis of those courses.

b) Business and Health Sciences

For Business, see point 2 above. In the Faculty of Health Sciences, students will be adjudicated for the Dean's Honour List based on all courses taken in the academic year (i.e., September – April) provided the student is registered in a minimum of five courses. In addition, an average of 80% must be achieved on all courses taken toward the BHSc degree with no failed courses.

c) Business and Media, Information and Technoculture

For Business, see point 2 above. In the Faculty of Information and Media Studies, students may be eligible for the Dean's Honour list in Years 4 and 5. Adjudication will be based on having an overall 80% average on all courses (including both MIT and HBA courses) taken in each academic year.

d) Faculty of Arts and Humanities

For Business, see point 2 above. In Arts and Humanities, students will be considered for the Dean's Honour list in the usual way in Years 1 and 2. Students who take at least 3.0 Arts and Humanities courses in each of

Dean's Honour List and Graduation "With Distinction"

Year 4 and Year 5 will be considered for the Dean's Honour List in each year on the basis of those courses. If fewer than 3.0 Arts and Humanities courses are attempted in Year 4, all Arts and Humanities courses taken in Years 4 and 5 will be considered for the Dean's Honour list at the end of Year 5.

GRADUATION "WITH DISTINCTION" - UNDERGRADUATE STUDENTS

Students in degree programs who have achieved an overall average of 80% and no grade lower than 70% on the entire program with no failed courses will graduate "with distinction."

Exceptions:

- 1) **Business:** A student who achieves an overall average of 80% in each of HBA1 and HBA2 and no grade lower than 70% and with no failed courses in the program will receive the designation Graduation with Distinction on Western diplomas and transcripts.

*Note that the average required is in both HBA1 and HBA2 and it is not a cumulative average over both.

- 2) **Dentistry:** A Doctor of Dental Surgery (DDS) student who achieves a cumulative average in the top 10% of the class and has a minimum overall average of 80% with no course failures shall graduate "With Distinction" ~~A student who passes each year of the DDS or ITD program with Honours shall be graduated "With Distinction".~~
- 3) **Education:** Graduating students who obtain cumulative averages within the top 10% of graduating student averages within the program will graduate "With Distinction."
- 4) **Engineering:** Students must fulfill Dean's Honour List criteria for every year of study after first year to graduate with distinction. Students who were not registered in a full course load because of transfer credit(s), dual degrees, or varsity sports will be assessed on an individual basis by a committee.
- 5) **Law:** Students must be on the Dean's Honour List in at least two of their three years in the Law program to graduate with distinction.
- 6) **Nursing:** In order to graduate 'with distinction' the student will have achieved an average grade in the top 10% of the class, with a minimum average of 85%, no course failures, and no course average below 70%.

Dean's Honour List and Graduation "With Distinction"

Graduands of diploma or certificate programs offered by Western who have achieved an overall average of 80% and no grade lower than 70% on the entire program with no failed courses will receive the designation "With Distinction."

Notes:

- Students who qualify for Graduation "With Distinction" will receive the designation on diplomas, transcripts and reports.
- Letters of Permission: In accordance with the Senate [policy](#), letter of permission grades will be recorded as numeric values and included in the overall average for the calculation of Graduation "With Distinction."
- Since the designation "With Distinction" is conferred only when a student has achieved a certain average, a failure to achieve graduation with distinction may not be appealed (although the grades on which the designation is based may be appealed in the normal way. See Section on [Academic Rights and Responsibilities](#)).

HONOURS DESIGNATIONS IN THE IVEY GRADUATE PROGRAMS

Eligibility for Honours Designations in the Ivey Graduate Programs

If an Ivey graduate student is found in breach of the Ivey Student Code of Conduct, the student may be ineligible to receive any of the Honours designations listed below.

MBA Programs at Ivey (MBA, AMBA and EMBA)

MBA Dean's Honour List

A student must complete all courses as defined by the program and attain grades in the top 25% of the class to be included on the Dean's Honour List, or have special recommendation from the Dean. The Dean's Honour List calculation excludes non-Ivey and exchange courses. Non-Ivey exchange students are not eligible.

Graduation "With Distinction"

A student who receives the Dean's Honour List designation will be designated "With Distinction" on Western transcripts and the graduation diploma. Students must complete a full course load as defined by the program. The Ivey Scholar calculation excludes non-Ivey and exchange courses.

MBA Ivey Scholars

A student must complete all courses as defined by the MBA program and attain grades in the top 10% of the class to be considered as MBA Ivey Scholars. The Ivey Scholar calculation excludes non-Ivey and exchange courses.

Dean's Honour List and Graduation "With Distinction"

MBA Gold Medals

Ivey Gold Medals will be awarded to one student in each of the Ivey MBA Direct, AMBA and EMBA programs to the student with the highest combined average in each program. In addition, the Robert Johnson Gold Medal will be awarded to the student with the highest combined average after the completion of the full-time MBA Program. All students must have completed a full course load as defined by the programs. The Gold Medal calculation excludes non-Ivey and exchange courses.

Combined JD/MBA Program

Dean's Honour List

Students are considered for the Dean's Honour List at the Faculty of Law during their first year of Law. In subsequent years of the combined program, students who take Law courses totaling at least 12 credit hours in any year are considered for the Dean's Honour List at the Faculty of Law in that year on the basis of those courses. Students are considered for the Dean's Honour List at the Richard Ivey School of Business after completion of the MBA component of the combined JD/MBA program.

Graduation "With Distinction"

Eligibility is determined by the regulations in effect in the Faculty of Law and the Richard Ivey School of Business respectively.

Gold Medal

Students in the combined program are not eligible for the gold medal in the Faculty of Law and the Richard Ivey School of Business.

MSc in Management Program

MSc Ivey Dean's Honour List

The MSc Ivey Dean's Honour List designation will be awarded by field at the end of the program. A student must complete all courses as defined by the MSc program in each term and attain grades in the top 25% of the class by field to be designated as Dean's Honour List on Western's transcripts and designated as "With Distinction" on degree diplomas. The average includes only MSc grades received at Ivey and excludes exchange and non-Ivey courses.

MSc Ivey Scholars

A student must complete all courses as defined by the MSc program and attain grades in the top 10% of the class by field to be considered as MSc Ivey Scholars. The Ivey Scholar calculation excludes non-Ivey and exchange courses.

MSc Gold Medals

To be awarded by field, the recipients must complete all courses as defined by the Ivey MSc program and achieve the highest average within their field. The average is

Dean's Honour List and Graduation "With Distinction"

the simple average calculation over all courses taken at Ivey as defined by the Ivey MSc program and by the relevant field. The average excludes exchange and non-Ivey courses, while also excluding non-Ivey visiting exchange students.

Master of Management (MM) Program

MM Dean's Honour List

A student must complete all courses as defined by the program and attain grades in the top 25% of the class to be included on the Dean's Honour List, or have special recommendation from the Dean. The Dean's Honour List calculation excludes non-Ivey and exchange courses. Non-Ivey exchange students are not eligible.

Graduation "With Distinction"

A student who receives the Dean's Honour List designation will be designated "With Distinction" on Western transcripts and the graduation diploma. Students must complete a full course load as defined by the program.

MM Ivey Scholars

A student must complete all courses as defined by the MM program and attain grades in the top 10% of the class by field to be considered as MM Ivey Scholars. The Ivey Scholar calculation excludes non-Ivey and exchange courses.

MM Gold Medal

To be awarded by field, the recipients must complete all courses as defined by the Ivey MM program and achieve the highest average within their field. The average is the simple average calculation over all courses taken at Ivey as defined by the MM program and by the relevant field. The average excludes exchange and non-Ivey courses, while also excluding non-Ivey visiting exchange students.

ITEM 13.2(b) – Faculty of Law: Revisions to the Policy on “Progression Requirements – Law”

ACTION: APPROVAL INFORMATION DISCUSSION

Recommended: That on the recommendation of the Senate Committee on Academic Policy, Senate approve that effective September 1, 2024, the policy on “Progression Requirements – Law” be revised as shown in Item 13.2(b).

EXECUTIVE SUMMARY:

The Faculty of Law is proposing to eliminate the Upper Year January Intensive Period from the Faculty of Law’s Winter Term.

Western Law’s Upper Year January Intensive Period is, as the name suggests, an intensive instructional period that takes place over three weeks in January. During that period students in Years 2 and 3 of the JD program take intensive courses that meet daily for three hours or use the time to prepare for external competitive moots (for which students also receive academic credit).

The Upper Year January Intensive Period was initially conceived, at least in part, as an opportunity to bring experts from across the globe to Western Law to enhance, diversify, and internationalize the JD curriculum. This objective has proved to be expensive and has, unfortunately, been realized only to a limited extent.

While the Faculty of Law does host international visitors who teach comparative or special topics courses in the Upper Year January Intensive Period, the majority of the instruction is done by local adjuncts or by full-time Western Law faculty members.

The Upper Year January Intensive Period creates a number of administrative issues that are not easily addressed, including more complicated course scheduling and a compressed Winter Term. It is also increasingly expensive to run. Moreover, many of the courses taught during the Upper Year January Intensive Period could just as easily be taught in the Fall or Winter terms.

The consensus among colleagues is that the Upper Year January Intensive Period has outlived its usefulness and that it should be eliminated from the Winter Term.

LAW

The Academic Session

The Academic Session at the Faculty of Law comprises a period of approximately thirty weeks: the session is divided into two terms. (See [Faculty of Law – Sessional Dates](#))

The timetable for the first term is available in the Administrative Office on the first day of classes. The Faculty may, on notice, schedule compulsory classes and seminars additional to those indicated on the timetable.

Attendance

Success in law studies requires that students devote their full time to the work of the school. The Faculty advises all students to avoid outside employment unless absolutely necessary.

Progression Requirements – Law

No credit is allowed for work done in absentia. Leave of absence is not permitted except in unusual circumstances. Students in good standing who are permitted to withdraw can rejoin the Faculty of Law subject to the regulations in force at the time they apply to re-enter. Failure to attend classes, seminars, appointments or examinations without good cause constitutes a ground for exclusion from the Faculty.

The right to sit for examinations or to submit work for evaluation is conditional upon regular class attendance and participation in required exercises. An instructor, with the approval of the Associate Dean (Academic), may refuse to evaluate all or part of a student's work where attendance has not been regular.

Permission to Register in Individual Courses

A student registered in another faculty at Western may, upon application, be granted permission to register in one full or equivalent course offered by the Faculty of Law. Such registration occurs at the discretion of the student's dean and the dean of the Faculty of Law. Students granted such permission will be granted in the same way as regular students in the course; however, they can obtain no credit toward a Bachelor of Laws degree in this manner.

Evaluation

Course descriptions must set out clearly the contents of the course and the method of evaluation. These may not be changed after they have been published without the instructor's and students' agreement.

Instructors should be as specific as possible about the method of evaluation. While it may not be essential to indicate whether an examination is open or closed book, it is preferable to provide students with this information at the outset of the course.

In upper-year courses, a final examination may count for more than 75% of a student's final grade only if the student (i) has been given the option of a final examination worth 75% or less, and (ii) has declined that option. First-year courses (with the exception of Legal Research, Writing and Advocacy, Corporate Law and Legal Ethics and Professionalism) run the full academic year, with mid-term examinations held in December worth at least 20% and not more than 30% of the student's final grade in the course. Questions included in first-year December examinations cannot be released to students prior to the day after classes end in the fall term.

The Faculty uses a system of blind marking, and students are issued exam numbers each term. These numbers are the only identification used by students on examination papers. They also may be used for other methods of evaluation.

No more than 75% of a student's final grade in a course may be assessed on the basis of group work. This rule does not apply to a research paper undertaken as a joint Individual Research project for which a group of students has received approval.

Progression Requirements – Law

"Group work" means an assignment submitted by two or more students for which there is a single overall evaluation with one common mark allotted to all students in the group.

No more than 20% of the final grade in a course may be for class participation. The basis for the participation component must be clearly stated.

A student who has an unexcused absence from an examination, or an unexcused failure to submit an assignment or complete a course component, will receive an F for the examination, assignment or course component.

Grading Rules

The Faculty of Law uses the following grade designations:

Grades	Grade Meanings	Numeric Values
A+	Excellent	90-100%
A	Excellent	85-89%
A-	Excellent	80-84%
B+	Good	77-79%
B	Good	73-76%
B-	Good	70-72%
C+	Competent	67-69%
C	Competent	63-66%
C-	Barely Competent	60-62%
D	Marginal Pass	50-59%
F	Fail	0-49%
PAS	Pass	
FAI	Fail	
AUD	Audit	
WDN	Withdrawn	
INC	Work is Incomplete	

Students receive only a letter grade for each subject. The numeric values are used for letter grade calculation only.

The "PAS" and "FAI" designations are used only in courses identified specifically as being graded on a pass/fail basis. This pass/fail designation is used also for grades obtained on exchanges. A grade of "FAI" is treated the same as an "F" grade.

In any course not identified specifically as being graded on a pass/fail basis,

Progression Requirements – Law

no components of any student’s grade in the course can be assessed on a pass/fail basis.

The class average in an upper-year course of 25 or fewer students must be between 74.0 – 79.0. The class average in an upper-year course of more than 25 students and in all first year courses must be between 74.0 – 76.0. Grades in the “F” range will be excluded from the calculation of class averages. These grading rules do not apply to independent research projects, supplemental writing credits, courses in which students participate in external advocacy competitions, or to internships or externships with fewer than five enrolled students.

For the purposes of calculating class averages and the overall average of individual students, including the determination of Honours standing, final letter grades for each student are assigned the following fixed numeric values:

Grades	Fixed Numeric Value
A+	92
A	87
A-	82
B+	78
B	75
B-	71
C+	68
C	65
C-	61
D	58
F	45

Individual grades assigned by instructors remain provisional until they are approved at the Faculty of Law Grades Meeting. The grades assigned by instructors must comply with the applicable class average requirements and must be submitted, together with electronic evidence demonstrating such compliance, in the form stipulated by the Assistant Dean, Student Services. However, after grades have been assigned, the Faculty has the discretion, at a Faculty of Law grades meeting, to waive the class average requirements. If an instructor wishes to seek an exemption from the class average requirements, the instructor must apply to the Faculty at a Grades Meeting, supplying the reasons for the application and the recommended non-compliant grades along with an alternative set of compliant grades.

In the case of a class with fewer than six students, an instructor who has submitted non-compliant grades is not required to submit at the same time an alternative set of compliant grades.

Progression Requirements – Law

Supplemental Assessments

A student who has failed a course is normally entitled to write a supplemental assessment to attempt to obtain credit for the course.

A student is not entitled to write a supplemental assessment if:

1. The student obtained, prior to writing any supplemental assessment, more than one grade of F in first year or more than one grade of F in any single term of an upper year;
2. The student failed to demonstrate a reasonable or good faith effort to fulfill the academic requirements of the failed course; or
3. The grade of F in the course was attributable, in whole or in part, to the commission of a scholastic offence, as defined by university policy on scholastic offences, and the Associate Dean (Academic) has determined through that policy that the student should not be entitled to write a supplemental assessment.

If an instructor alleges that a student failed to demonstrate a reasonable or good faith effort to fulfill the academic requirements of a failed course, the Associate Dean (Academic) shall determine whether the allegation is valid. Before making a final determination, the Associate Dean (Academic) shall first give the failing student notice of the allegation, including the reasons for it, and provide the student a reasonable opportunity to explain how the student did demonstrate a reasonable and good faith effort.

A student who fails a course and is not entitled to write a supplemental assessment receives a final grade of F in the course.

A student who is entitled to write a supplemental assessment but does not do so receives a final grade of F in the course.

A student who is entitled to write a supplemental assessment must obtain a minimum grade of C on the assessment to pass and thereby obtain credit for the course. If the student obtains a C or better on the assessment, the original grade of F remains on the transcript with a notation that the course has been “passed by supplemental”. If the student does not obtain a C or better on the supplemental assessment, the student receives a final grade of F in the course.

Normally, a supplemental assessment will take the same form as the original assessment. However, it is within the instructor's discretion to select another form of supplemental assessment.

Progression Requirements – Law

Progression

Unless granted permission by the Associate Dean (Academic), a student is not entitled to take any additional courses before successfully completing all of the following courses: Constitutional Law; Contracts; Criminal Law; Legal Research, Writing and Advocacy; Property; Torts; and either Corporate Law or Legal Ethics and Professionalism.

Unless given academic accommodation, a student must enrol in enough courses to meet the minimum term and annual credit requirements stipulated in the Faculty's Academic Program. A student who fails to meet the minimum credit requirements of a given term or year for reasons other than failing a course must spend the next term only making up the missing credits. In that next term, the student is only entitled to enrol in the minimum number of courses necessary to make up the missing credits. No additional courses can be taken until after the missing credits have been earned.

A student earns no credit for any course in which the student receives a final grade of F. A failed course for which a student receives no credit does not fulfill any Law program requirements. If the student is entitled to remain enrolled in the Faculty, the student must make up any missing credits in a later term designated by the Associate Dean (Academic). The student is only required to make up credits to the extent necessary to meet, after the fact, the minimum credit requirements for the term and year in which the student obtained the final grade of F.

A student who obtains a final grade of F in a course in the winter term of third-year, and who is entitled to remain enrolled in the Faculty, may return in a fourth year to make up the missing credits. The student is only entitled to take a maximum of two courses. The course or courses must be taken in the fall term.

A student who obtains a final grade of F in a course, and who is entitled to remain enrolled in the Faculty, is normally permitted, but not required, to re-take the failed course in a later term. In appropriate circumstances, the Associate Dean (Academic) may deny such permission.

Continuing Enrolment

Continuing enrolment in the Faculty of Law is conditional on a student demonstrating sufficient academic competence. A student will be required to withdraw from the Faculty in any of the following situations:

1. Over the course of a student's enrolment in the Faculty, the student accumulates any of the following combinations of final grades:
 - a. Two or more grades of F;
 - b. One grade of F plus two or more grades of D;
 - c. One grade of F plus, collectively, three or more grades of D and/or C-;
 - d. Collectively, five or more grades of D and/or C-.
2. A student obtains a final grade of F in any compulsory course.

Progression Requirements – Law

For greater certainty,

1. A compulsory course is any course specified in the Faculty's Academic Program as one that a student must take;
2. In a pass/fail course, a fail will be considered a final grade of F and a pass will not count as a grade of F, D or C-;
3. A student shall be deemed not to have obtained a final grade of F, D or C- in a course if the student initially receives a failing grade but later passes the course by supplemental assessment.

Before requiring a student to withdraw, the Associate Dean (Academic) shall arrange for a review of all final grades of C- or lower in all courses taken by the student. This review will include rereading of all the student's examination papers to verify the accuracy of the marking process.

Despite the above, the Dean may grant a student who is required to withdraw permission to remain enrolled, subject to any conditions the Dean deems appropriate. Before making a final decision, the Dean shall first inform the student of the outcome(s) of the aforementioned review and give the student an opportunity to explain why the student should be permitted to remain enrolled.

Prerequisites

A student may not take a course for which there is a prerequisite if the final grade obtained in the prerequisite was an F.

Process

The Faculty of Law uses the Gradebook in OWL to record grades. It is the responsibility of all instructors to enter their students' final grades and, for first-year full-year courses, their students' mid-term examination grades into this program.

The deadline for entering grades is: (a) in courses with a final examination, one week following the writing of the examination; and (b) in courses without a final examination, one week after the last day of classes.

An instructor does not have the authority to unilaterally change a student's final grade after it has been submitted to the Student Services Office. However, if an instructor discovers a mathematical or other technical error in a grade that has been submitted, the instructor should contact the Student Services Office as soon as possible to officially record the appropriate grade.

The Faculty has the right to alter course grades at the grades meetings. The Dean or Associate Dean (Academic) will alert an instructor if the instructor's grades appear to be anomalous and may seek an explanation.

Progression Requirements – Law

Faculty of Law: Winter Term Format

The Winter Term **for first year students** begins with a period of intensive instruction. During this period students enrolled in first year will work exclusively in small groups developing research, writing, and advocacy skills, ~~while students in second and third year will select one from a range of optional intensive courses.~~ Students will fulfill their remaining course requirements for the year during ~~the balance of~~ the Winter Term.

Honours

A student who achieves an average of at least "B" on a full year's work as defined by the program and who is in the top 10% of the class, is named to the Dean's Honour List.

Students in any year who attend another law school on a letter of permission from Western and students in any year who attend the Faculty of Law on a letter of permission from another law school, are not considered for the Dean's Honour List in that year.

Only the grades earned in courses taken at the Faculty of Law in a particular year (provided those courses total at least 14 credit hours) are used to calculate a student's standing for an overall achievement award in that year.

A student who is on the Dean's Honour List for at least two of the three years at the Faculty of Law and who obtains a cumulative average of at least "B" over the three years shall graduate *With Distinction*.

The winner of awards or prizes for the highest marks in a particular subject will be determined without regard to whether the student has received other prizes or awards.

Appeal Procedures

Please refer to the Faculty of Law website, www.law.uwo.ca. For related information, refer to the [Student Academic Appeals – Undergraduate](#) section.

Academic Program

In first year, students take the following courses: Constitutional Law; Contracts; Criminal Law; Legal Research, Writing and Advocacy; Property; Torts; and either Corporate Law or Legal Ethics and Professionalism.

Students in their second and third years must take a minimum of fourteen course credit hours in each term and a minimum of twenty-nine such hours in an academic year. Students may take more than seventeen course credit hours in a term or thirty-three such hours in an academic year only with the permission of the Associate Dean (Academic).

Progression Requirements – Law

Students must, after first year, take Civil Procedure and Administrative Law. In second year, students must take whichever of Corporate Law or Legal Ethics and Professionalism that they did not complete in first year.

~~Students must complete a January Intensive course in each of second and third year, unless they participate in an exchange program in Winter Term.~~

By the end of third year, a student must satisfy the Faculty writing requirements. Students may satisfy the Faculty writing requirements in either of two ways, namely: (1) by completing in upper year courses two research essays, each worth at least two credits, or (2) by completing in upper year courses one research essay worth at least two credits and one or more practice-oriented legal writing assignments worth at least two credits collectively.

A practice-oriented legal writing assignment must involve independent legal research and/or analysis. To provide some examples, a factum or legal memo will generally count as a practice-oriented legal writing assignment, while a research essay worth less than two credits or a reflective journal will not.

A Supplemental Writing Credit may count towards fulfilling the Faculty writing requirements. Specifically, a student can complete the requirements for a research essay worth at least two credits by adding a Supplemental Writing Credit to a course assessed in part by a research essay (worth at least one but less than two credits), if the Supplemental Writing Credit is used to extend the research essay. A Supplemental Writing Credit can count toward completing a practice-oriented legal writing assignment if the Supplement Writing Credit is attached to a course that already includes a practice-oriented legal writing assignment.

In all cases, the Associate Dean (Academic) has the final authority to decide whether a component of a course will satisfy a Faculty writing requirement.

Note: In each of second and third years, a student may take courses outside the Law School up to the equivalent of six credit hours, but no more than four such hours in any one semester. The approval of the course instructor and the Associate Dean (Academic) of the Faculty of Law must be obtained.

Cross-Registration in Business Courses

The Faculty of Law and the Richard Ivey School of Business have a joint arrangement whereby second and third-year law students and MBA students may cross register in courses offered by the other Faculty or School. Students must obtain approval from both the Associate Dean of the school in which they are registered and the student services office of the school offering the course(s) they wish to attend. Such students are expected to meet all requirements of the course. Grades for Law students taking courses at the Richard Ivey School of Business will be recorded on their university academic records on the 100-point grading scale.

Progression Requirements – Law

JD/HBA COMBINED DEGREE PROGRAM

Structure of the Program

The combined program is administered on behalf of the Richard Ivey School of Business and the Faculty of Law by the two HBA/JD Program Directors, one of whom is appointed by the Richard Ivey School of Business and the other by the Faculty of Law. The combined program allows students to complete both the JD and HBA degrees in six academic years instead of the seven years that would be required if the degrees were taken separately.

Students are registered in the combined program for Years Four to Six. Below is a brief outline of the program by year. The specifics may change as courses change in each faculty. It is assumed that students do not take more than two years of course work prior to beginning HBA1; however, it is possible to undertake the combined program with more than ten credits prior to HBA1.

Admission to the Combined Program

See http://www.uwo.ca/univsec/pdf/academic_policies/admission/law.pdf

Years One and Two

All students must complete at least two years of full-time university courses obtaining 10.0 credits. Students may take a wide variety of courses in any faculty. However, they must take Business Administration 2257.

Year Three

All students will take: Business Administration 3300K, 3301K, 3302K, 3303K, 3304K, 3307K, 3311K, 3316K, 3321K, 3322K, 3323K.

No substitutes for any of the above courses are permitted under any circumstances.

Year Four - Combined Program

All students must take first-year Law in Year Four. They may not take any business or outside courses during this year.

Year Five and Six - Combined Program

Students will take an approved mix of required and elective courses from both faculties in these years.

Students must take:

(i) International Perspective Requirement: Business Administration 4505A/B.

(ii) Corporations and Society Perspective Requirement: at least 0.5 course from Business Administration 4521A/B, 4522A/B, 4523A/B or another business elective as determined and approved by the HBA Program Director as satisfying this requirement.

Progression Requirements – Law

(iii) Applied Project Requirement: Business Administration 4569.

(iv) 1.0 elective course chosen from 4000-level Business courses.

Students must take courses in Law totaling 45 credit hours. These courses must include the three compulsory upper-year courses, and a course or courses that satisfy the Faculty of Law writing requirements.

Students' choices of elective courses are subject to the approval of the Program Directors who must review proposed elective course selections to ensure that the objectives of the program are met. The elective courses may not include introductory courses of a dual law and business nature such as Law and Accounting or Business Law.

Exchange Programs

With advanced planning, students in this the combined program may be eligible for to participate in one exchange term in an academic exchange program in Year Five or Six. Interested students must discuss exchange options with the HBA Program Office and with the Faculty of Law's International Program Office. The student must satisfy both Program Directors that the student's course load is balanced appropriately before permission will be given to participate in an exchange program.

Progression Standards

Once admitted to the combined program, students must attain a minimum weighted average of 75% in their 4000-level HBA courses and a B- average in their Law courses.

Failure to Meet Progression Standards

A student who fails to meet the combined progression standards in any year must withdraw from the combined program. However, if that student has met the progression standards of either the HBA or Law program, the student will be allowed to proceed to the next year of that program. If that student has satisfied the progression standards of both individual programs, the student may continue in either program and may petition the School or Faculty whose program was not selected for permission to complete that program at later date. A student who is required to withdraw from the combined program, and wishes to pursue either or both of the individual programs, must complete all the degree requirements of the individual program or programs in order to graduate from that program or those programs.

Dean's Honour List

At the Richard Ivey School of Business, students are considered for the Dean's Honour List during their first year of HBA. Students enrolled in Years Five and Six of the combined degree program are considered for the Dean's Honour List in Year Six only. Only grades obtained in 4000-level Business courses will be used in calculating averages for the purpose of determination of Dean's Honour List

Progression Requirements – Law

standing. The Dean's Honour List for HBA2 typically includes the top 25% of all of HBA2 and is determined by vote of the teaching faculty. Courses taken outside the Business School are excluded. Calculations for Ivey Scholar and Gold Medals are completed in the same way.

A student who takes Law courses totaling at least 12 credit hours in each of Years Five and Six of the combined program is considered for the Dean's Honour List at the Faculty of Law in that year on the basis of those courses.

Graduation with Distinction

Eligibility to graduate "with distinction" for each degree is determined by each Faculty.

Gold Medal

Students in the combined program are eligible to be considered for the Gold Medal in either or both degree programs, along with other eligible graduating students in those programs, as determined by the requirements in the Faculty of Law or the Richard Ivey School of Business.

Fees

Students pay the prevailing fees as determined by the University policy on combined programs. Contact the Office of the Registrar, Western Student Services building, room 1120, 519-661-2100, or at www.registrar.uwo.ca for details.

JD/MBA COMBINED PROGRAM

Structure

Students are registered in the combined JD/MBA program for all three years. Upon completion of the combined program, students will receive both a JD and an MBA degree. Below is a brief outline of the program by year. The specifics may change as courses change in each faculty.

Year	Months	Program Structure
One	March - August (to Labour Day)	MBA Modules 1, 2 (with MBA 2015-2016 class)
	September - April	Law 1
Two	September - December	Law and MBA
	January - April	Law and MBA
	September - December	Law and MBA

Progression Requirements – Law

Three		
	January - April	Law and MBA
	June	Law Convocation MBA Convocation

JD/MBA combined program students must successfully complete:

- MBA core courses (Modules 1, 2, ICP/INVP), 6 MBA electives (weight of 0.75 each), totaling 14.50 credits.
- 1 independent research credit from MBA (0.75 weight) or Law.
- The compulsory elements of Western Law’s regular JD program, including ~~January Term intensives and~~ the Faculty writing requirement.
- Additional upper year Law courses totaling at least 33 credit hours.

ICP = Ivey Consulting Project course
INVP = New Venture Project course

Students’ choices of elective courses are subject to the approval of the Program Directors who must review proposed elective course selections to ensure that the objectives of the program are met. The elective courses may not include introductory courses of a dual law and business nature.

Visit:
https://law.uwo.ca/future_students/jd_admissions/combined_degree_programs/applications_combined_graduate_programs.html
for further details on the JD/MBA combined program.

Exchange Programs

Students enrolled in the combined program may be eligible for a Law exchange in Year Three. Students must ensure that their course load is appropriately balanced before permission will be given to participate in an exchange program.

Progression Standards

Students in the combined program must meet the regular progression requirements of the JD and MBA programs.

Failure to Meet Progression Standards

A student who fails to meet the progression standards must withdraw from the combined program. However, a student who has met the progression standards of either the MBA or JD program will be allowed to proceed in that program, and must complete all the degree requirements of the individual program in order to graduate from that program.

Progression Requirements – Law

Dean's Honour List

Students are considered for the Dean's Honour List at the Faculty of Law during their first year of Law. In subsequent years of the combined program, students who take Law courses totaling at least 12 credit hours in any year are considered for the Dean's Honour List at the Faculty of Law in that year on the basis of those courses. Students are considered for the Dean's Honour List at the Richard Ivey School of Business after completion of the MBA component of the combined JD/MBA program.

Graduation with Distinction

Eligibility is determined by the regulations in effect in the Faculty of Law and the Richard Ivey School of Business respectively.

Stephen Watchorn Memorial Medal

Students in the combined program are eligible for the Stephen Watchorn Memorial Medal, and are not eligible for the Gold Medal in the Faculty of Law or the Richard Ivey School of Business.

Fees

Tuition fees for the combined programs are set by the University. Contact the Office of the Registrar, Western Student Services building, RM 1120, 519-661-2100, or at www.registrar.uwo.ca for details.

**ITEM 13.2(c) – School of Graduate and Postdoctoral Studies: SGPS
Regulation: Visitor and Exchange Programs**

ACTION: APPROVAL INFORMATION DISCUSSION

EXECUTIVE SUMMARY:

The School of Graduate and Postdoctoral Studies (SGPS) Regulation “Visitor and Exchange Programs” is presented for information.

Background:

In June 2021 the Operations/Agenda Committee (OAC) formed an *ad hoc* Working Group to review the structure and remit of the Senate Committee on Academic Policy and Awards (SCAPA) and its subcommittees.

The Second Report of the *ad hoc* Working Group (“the Report”) presented recommendations relating to the review and approval of graduate-level academic policy.

At its meeting on September 16, 2022, Senate ratified the SGPS Regulations identified in the Report as falling under Senate’s purview as Senate Academic policy.

At that time, SGPS Regulation 7.01 (Visitor and Exchange Programs) was identified as falling under the authority of the Graduate Education Council (GEC) and SGPS Regulation 7.02 (Graduate Study at Western for Non-Western Students) was identified as falling under the purview of Senate.

Regulation 7.01 (Visitor and Exchange Programs) pertained to Western students accessing the Ontario Visiting Graduate Student Program (OVGS) and Canadian Universities Graduate Transfer Agreement (CUGTA) programs.

Regulation 7.02 (Graduate Study at Western for Non-Western Students) pertained to non-Western students attending Western via the OVGA and CUGTA programs.

It was subsequently determined that the policy on “Graduate Student at Western for Non-Western Students” (former SGPS Regulation 7.02) had been incorrectly classified as under the purview of Senate as both 7.01 and 7.02 pertained to the OVGS and CUGTA programs which are under the authority the Council of Ontario Universities (COU) (specifically, the Ontario Council on Graduate Studies (OCGS)) and the Canadian Association for Graduate Studies (CAGS) respectively, and all member institutions of CAGS have access to the program.

Accordingly, at its March 15, 2024 meeting, on the recommendation of the Senate Committee on Academic Policy, Senate approved that effective March 15, 2024, the policy on “Graduate Study at Western for Non-Western Students” be rescinded as Senate Academic Policy.

SGPS is now reestablishing the former policy on “Graduate Study at Western for non-Western Students as an SGPS Regulation.

The SGPS Regulation “Visitor and Exchange Programs” is presented for information.

Graduate Study at Other Universities for Western Students

This section outlines and describes the situations in which a graduate student at Western may study at other institutions.

1. Ontario Visiting Graduate Student Program

With the approval of their program and the School of Graduate and Postdoctoral Studies, students registered at Western may take courses at other Ontario universities under the Ontario Visiting Graduate Student program, without additional tuition.

Courses taken under this agreement must be required for the student's degree program and must be taken for credit.

For students in course based programs, no more than two half- courses can be taken at another institution.

To apply to take a course under the Ontario Visiting Graduate Student program, students must complete the Ontario Visiting Graduate Student Program Application Form:

- [Application Form](#)

2. Exchange Agreement with Canadian and International Universities

Western has exchange agreements with many Canadian and International universities.

With the approval of their Western program and the School of Graduate and Postdoctoral Studies, students may take courses for Western credit at a partner university, subject to the particulars of Western's exchange agreement with the partner institution.

Western Students on exchange must register as full-time students at Western, and pay tuition to Western and hence are not subject to tuition at the international rate at a partner university.

3. Canadian Universities Graduate Transfer Agreement

Western is a member of the Canadian Association for Graduate Studies (CAGS).

With the approval of their program and the School of Graduate and Postdoctoral Studies, students registered in a program at a CAGS member university (the home institution) may take courses for credit at another CAGS-member university (the host institution).

For students in course based programs no more than two half-courses can be taken at another institution.

To apply to take a course under the Canadian Universities Graduate Transfer Agreement, students must complete the Canadian Universities Graduate Transfer Agreement

- [Application Form](#)

4. Credit Courses at Non-Partner Universities

Western students may take courses for Western credit at a university that is not covered by an exchange or transfer agreement.

This requires the approval of the School of Graduate and Postdoctoral Studies and an offer for admission to the non-partner university.

In this case, the student pays tuition to the non-partner university.

Graduate Study at Western for Non-Western Students

This section outlines and describes the situations in which a non-Western graduate student may study at Western.

5. Full-Time Students on Exchange Programs

These students must be registered full-time in their home institution and satisfy Western admission requirements.

Exchange students may visit Western for research only or they may take Western courses for credit.

Exchange students cannot audit Western courses.

SGPS Regulations

Exchange students who fail to meet SGPS's English-language requirement, [see English Language Proficiency Requirements in the SGPS Admissions Policy], may visit Western for research only.

6. Visiting Graduate Students (for Research Only)

Students who are not part of an exchange program may register as Part-Time Visiting Graduate Students to engage in research activities.

They cannot take courses at Western and are not provided with a Western transcript.

If they are international students they must pay UHIP (University Health Insurance Plan) fees but no tuition.

7. Ontario Visiting Graduate Students

Students from other Ontario universities may take courses at Western under the Ontario Visiting Graduate Student program.

These students pay all fees at their home university.

8. Canadian University Graduate Transfer Students

Students registered in Canadian Association for Graduate Studies (CAGS) member universities may take courses at Western under the Canadian Universities Graduate Transfer Agreement.

These students pay part-time fees at Western.

Students must arrange the details of their visit with the Graduate Chair of the Western program and the Exchange Office at their home university if they are visiting Western as Exchange Students.

If they are not Exchange Students, they apply to the Western Graduate Chair, who then must obtain approval from the School of Graduate and Postdoctoral Studies.

These students pay part-time fees at Western.

Students must arrange the details of their visit with the Graduate Chair of the Western program and the Exchange Office at their home university if they are visiting Western as Exchange Students.

If they are not Exchange Students, they apply to the Western Graduate Chair, who then must obtain approval from the School of Graduate and Postdoctoral Studies.

ITEM 13.3(a) – Schulich School of Medicine & Dentistry, Department of Medical Biophysics and Faculty of Science: Withdrawal of the Honours Specialization in Medical Biophysics (Biological Science Concentration), Honours Specialization in Medical Biophysics (Physical Science Concentration), and Honours Specialization in Medical Biophysics and Biochemistry

ACTION: APPROVAL INFORMATION DISCUSSION

Recommended: That on the recommendation of ACA, Senate approve that effective September 1, 2024, admission to the following modules offered by the Department of Medical Biophysics in the Schulich School of Medicine & Dentistry and the Faculty of Science be discontinued:

Honours Specialization in Medical Biophysics
(Biological Science Concentration)

Honours Specialization in Medical Biophysics
(Physical Science Concentration)

Honours Specialization in Medical Biophysics and
Biochemistry

And, that students currently enrolled in the modules be permitted to graduate upon fulfillment of the module requirements by August 31, 2027, and

That the modules be withdrawn effective September 1, 2027.

EXECUTIVE SUMMARY:

The Department of Medical Biophysics is withdrawing all Honours Specializations in Medical Biophysics except the Honours Specialization in Medical Biophysics (Medical Science Concentration).

The Honours Specialization in Medical Biophysics (Biological Science Concentration), Honours Specialization in Medical Biophysics (Physical Science Concentration), and Honours Specialization in Medical Biophysics and Biochemistry are no longer relevant as stand-alone modules. There has been little interest in these modules in recent years and all have low enrolment.

The Department of Medical Biophysics will work with the Faculty of Science to introduce a new Honours Specialization module that appeals to non-medical science students, composed of courses aligned with the principles of the consolidated themed curriculum in Medical Biophysics.

**ITEM 13.3(b) – Schulich School of Medicine & Dentistry and Faculty of Science:
Revisions to the Policy on “Medical Sciences First Entry”**

ACTION: APPROVAL INFORMATION DISCUSSION

Recommended: That on the recommendation of ACA, Senate approve that effective September 1, 2024, the policy on “Medical Sciences First Entry” be revised as shown in Item 13.3(b).

EXECUTIVE SUMMARY:

The Department of Medical Biophysics has recently made changes to the admission requirements for the Honours Specialization in Medical Biophysics (Medical Sciences Concentration) to no longer strictly require that students take Physics 1202A/B or 1502A/B and Calculus 1301A/B or 1501A/B. These changes were approved at the March 15, 2024 meeting of Senate.

The Notes in the Medical Sciences First Entry Program policy are being revised to reflect these changes.

Effective Date: **TBD** ~~September 1, 2023~~

Supersedes: **September 1, 2023;** September 1, 2022;
September 2021

Students interested in the Bachelor of Medical Sciences (BMSc) Program should enrol in Medical Sciences First Entry. Medical Sciences First Entry is referred to as a Medical Sciences 1 in first year and Medical Sciences 2 in second year, and only students in Medical Sciences 1 who satisfy the requirements listed below may progress to Medical Sciences 2. Students in Medical Sciences 2 who satisfy certain conditions are assured admission to the BMSc Program in Year 3 (see Admission to the Bachelor of Medical Sciences (BMSc) Program).

It is anticipated that not all of the spaces available in Year 3 BMSc will be filled by the students in Medical Sciences 2 who satisfy the conditions for assured admission, allowing additional students to apply for admission to Year 3 BMSc from the “competitive pool”. See Admission to the Bachelor of Medical Sciences (BMSc) Program for the conditions that must be satisfied by these additional students applying from the “competitive pool” for admission to Year 3 BMSc.

MEDICAL SCIENCES 1 (YEAR 1):

5.0 courses and Medical Sciences 1000Y (non-credit course):

1.0 course: Biology 1001A and Biology 1002B.

1.0 course: Chemistry 1301A/B and Chemistry 1302A/B.

0.5 course from: Calculus 1000A/B or Calculus 1500A/B

0.5 course from: Applied Mathematics 1201A/B, Calculus 1301A/B or Calculus 1501A/B, Mathematics 1600A/B (see note below).

0.5 course from: Physics 1201A/B, Physics 1501A/B.

0.5 course from: Computer Science 1026A/B, Physics 1202A/B, Physics 1502A/B (~~see note below~~).

1.0 1000-level course from either Category A or Category B (see Breadth Requirements for Bachelor Degrees).

Medical Sciences 1000Y (non-credit course)

Note:

The Admission Requirements for the **Honours Specialization in Medical Bioinformatics** require either Calculus 1301A/B or Calculus 1501A/B. ~~following basic medical science modules require specific 1000-level courses from the picklists above:~~

- ~~• Medical Biophysics and Medical Bioinformatics modules require either Calculus 1301A/B or Calculus 1501A/B~~
- ~~• Medical Biophysics modules require either Physics 1202AB or Physics 1502A/B~~

To progress from Medical Sciences 1 to Medical Sciences 2, students must meet the following requirements prior to the beginning (September) of Medical Sciences 2:

- Achieve a minimum grade of 50% in any course(s) taken during Medical Sciences First Entry (including summer sessions);
- Achieve a PASS in Medical Sciences 1000Y (non-credit course);
- Achieve a mark of at least 50% in 1.0 1000-level course(s) from either Category A or B; and
- Achieve a mark of at least 60% in the first attempt at each of the half courses listed above in Biology, Chemistry, and mathematics (i.e., courses in Applied Mathematics, Calculus, Mathematics.
- Achieve a mark of at least 60% in the first attempt at each of the half courses listed above in Physics or Computer Science. Students may defer the completion of these two 0.5 requirements to the Fall/Winter of Medical Sciences 2.

MEDICAL SCIENCES 2:

Medical Sciences 2 consists of a full load of 5.0 courses comprised of the remaining courses (usually 2000-level courses) listed in the Admission Requirements for the module(s) each student plans to pursue if admitted to the BMSc Program in Year 3, as well as optional courses. The conditions that must be satisfied by students in Medical Sciences 2 for assured admission to the BMSc Program in Year 3, as well as the conditions that must be satisfied by students in the competitive pool applying for admission to Year 3 BMSc, are outlined in Admission to the Bachelor of Medical Sciences (BMSc) Program.

ITEM 13.3(c) – Faculty of Social Science, Departments of History and Political Science and Ivey Business School: Revisions to the Admission and Program Requirements of the Honours Specialization in International Relations and the Combined Honours Specialization in International Relations/HBA

ACTION: APPROVAL INFORMATION DISCUSSION

Recommended: That on the recommendation of ACA, Senate approve that effective September 1, 2024, the admission and program requirements of the Honours Specialization in International Relations and the combined Honours Specialization in International Relations/HBA be revised as shown in Item 13.3(c).

EXECUTIVE SUMMARY:

The Honours Specialization in International Relations is jointly offered by the Department of History and the Department of Political Science in the Faculty of Social Science. The combined Honours Specialization in International Relations / Honours Business Administration (HBA) is administered by the Faculty of Social Science and the Ivey Business School.

International Relations is seen as an elite program which attracts excellent students. While the program has no wish to change this, it feels there is room for growth which could be achieved with slightly easier admission requirements. This proposal brings the admissions requirements for both the modules in line with the current admission requirements for History and Political Science. The revised admission requirements will be easier to administer and should encourage the program's growth. The proposed changes need not dilute the quality of the program, nor do they oblige the program to expand beyond capacity, as meeting minimum requirements does not guarantee enrollment.

This proposal also makes minor changes to the combined Honours Specialization in International Relations/HBA module requirements to align it with changes made to the Honours Specialization in International Relations last year.

Editorial amendments to Calendar copy are also included.

HONOURS SPECIALIZATION IN INTERNATIONAL RELATIONS

Enrolment in this module is limited. Meeting the minimum requirements does not guarantee that students wishing to transfer into this module will be offered enrollment.

Please note: Political Science courses from different modules will not be double counted for credit. Students combining the Honours Specialization in International Relations with another Political Science module must consult the Department of Political Science concerning how best to claim credit for their Political Science courses.

Admission Requirements

Completion of first-year requirements with no failures. Students must have an average of at least ~~75%~~ **70%** in 3.0 principal courses, including **Political Science 1020E, 1.0 course in History at the 1000-level, and 1.0 additional course, with no mark in these principal courses below 60%** ~~a minimum grade of 75% in each of Political Science 1020E and 1.0 course in a 1000-level History course, and no mark in any other principal course below 60%.~~

10.0 courses:

0.5 course: Political Science 2531F/G.

1.0 course: History 2705E.

1.0 course: International Relations 2703F/G; International Relations 2704F/G or Political Science 2545F/G; or the former International Relations 2702E.

0.5 course: Political Science 2325F/G.

0.5 course: Political Science 3325F/G.

1.5 Political Science designated International Relations-eligible essay courses (E, F or G) at the 3000-level or above (normally taken in 3rd year).

~~2.0 courses:~~ **History designated International Relations-eligible essay courses** at the 3000-level or above (normally taken in 3rd year).

1.0 additional History or Political Science designated International Relations-eligible essay course (E, F or G) at the 3000-level or above.

1.0 History or Political Science designated International Relations-eligible essay courses (E, F or G) at the 4000-level.

0.5 course: International Relations 4703F/G.

0.5 course: International Relations 4704F/G or any 0.5 Political Science International Relations-eligible essay course at the 4000-level or the former International Relations 4702E or 4701E.

~~To enter the Honours Specialization in International Relations after second or third year, students must have achieved an overall average of 75% on the last 5.0 courses and a cumulative average of 70%.~~

Students are advised to check <http://internationalrelations.uwo.ca> for more detailed information regarding the program. See the listings of approved History and Political Science courses at the 3000- and 4000-levels.

HONOURS SPECIALIZATION IN INTERNATIONAL RELATIONS/HBA

The combined degree programs are administered on behalf of the Richard Ivey School of Business and the Departments of History and Political Science in the Faculty of Social Science.

The combined program is a five-year program leading to a BA in Honours Business Administration (HBA) and a BA Honours Specialization in International Relations. In Year 1 students complete the general first year program including the first-year prerequisites for admission to the Honours Specialization in International Relations. In Year 2 they register in the normal curriculum for the Honours Specialization in International Relations. In Year 3, students are registered in the HBA program. Students are registered in the combined program in Years 4 and 5. Admission requirements for the combined program are outlined below.

Admission Requirements

To be eligible for consideration for admission to the combined program, in the first two years students must complete a minimum of 10.0 courses including Business Administration 2257. In Year 1 they must complete the admission requirements as specified in the current Academic Calendar for entry into the Honours Specialization in International Relations module offered by the Departments of History and Political Science.

Admission to the International Relations Honours Specialization occurs at the end of Year 1. The requirements are: completion of first year requirements with no failures, as well as an average of **75% at least 70%** in 3.0 principal courses, including **Political Science 1020E, 1.0 courses in History at the 1000-level, and 1.0 additional courses, with no mark in these principal courses below 60%** ~~a minimum grade of 75% in Political Science 1020E, 75% in 1.0 course in 1000 level History, and no mark in any other principal course below 60%.~~

For admission to the HBA, students must attain a minimum weighted average of 78%, a minimum mark of 70% in Business Administration 2257, and no mark less than 60%, in the first two years of study. They also must gain admission to the HBA program through the regular application process. In addition, students must normally attain a minimum weighted average of 78% in the first year of the HBA.

Students apply for the combined degree program during the HBA 1 year, typically their third year of University. Applications to the combined program must be made in

writing to the Director of the International Relations Program and to the HBA Program Office by the deadlines published by the Richard Ivey School of Business. Entrance to the program may be limited.

Module/Program Information

Year 1

5.0 courses:

1.0 course: first year History.

1.0 course: Political Science 1020E.

3.0 first year courses.

Note: It is strongly recommended that students include in their first-year course selection 1.0 course requirement from Category B and 1.0 course requirement from Category C in order to meet the breadth requirements of their degree.

Year 2

5.0 courses:

0.5 course: Political Science 2531F/G.

0.5 course: Political Science 2325F/G.

1.0 course: History 2705E.

1.0 course: International Relations 2703F/G; International Relations 2704F/G or Political Science 2545F/G; or the former International Relations 2702E.

1.0 course: Business Administration 2257.

1.0 course: complete breadth requirements if not already done.

Year 3

HBA 1:

The third year of the undergraduate program in Business Administration consists of an integrated set of courses (7.5 courses) designed to give a basic understanding of the functions and the interrelationships of the major areas of management, as well as to develop problem-solving and action-planning skills.

All students will take: Business Administration 3300K, Business Administration 3301K, Business Administration 3302K, Business Administration 3303K, Business Administration 3304K, Business Administration 3311K, Business Administration 3316K, Business Administration 3321K, Business Administration 3322K, Business Administration 3323K (with at least a 78% average for combined degree acceptance)

Years 4 and 5

HBA (Requirements can be taken over Year 4 or 5, except Business Administration 4569 which must be taken in Year 4).

5.0 courses:

0.5 course: International Perspective Requirement: Business Administration 4505A/B.

0.5 course: Corporations and Society Perspectives Requirement: At least one course from Business Administration - Corporations and Society designated electives offered during the academic year (Business Administration 4538A/B, Business Administration 4539A/B, Business Administration 4588A/B, Business Administration 4625A/B) or other business elective as determined and approved by the HBA Program Director to satisfy this requirement.

0.5 course: Managerial Accounting Requirement: Business Administration 4624A/B.

1.0 course: Applied Project Requirement: Business Administration 4569.

2.5 additional business elective courses. (These must be taken at the Business School and cannot be substituted with other Western courses.)

Years 4 and 5

International Relations (Requirements can be taken over Year 4 or 5 although students must have the prerequisites for 4000-level courses).

7.0 courses:

0.5 course: Political Science 3325F/G or acceptable substitute (must be pre-approved by the Department of Political Science through Special Permission)

1.5 Political Science designated International Relations-eligible essay courses (E,F, or G) at the 3000-level or above*

2.0 ~~courses in~~ History designated International Relations-eligible essay courses (E,F, or G) at the 3000-level or above*

1.0 additional ~~course in~~ History or Political Science designated International Relations-eligible essay course (E,F, or G) at the 3000-level or above*

1.0 ~~course in~~ History or Political Science designated International Relations-eligible essay course (E,F, or G) at the 4000-level*

~~1.0 course: International Relations 4703F/G and International Relations 4704F/G or the former International Relations 4702E~~

0.5 course: International Relations 4703F/G.

0.5 course: International Relations 4704F/G or any 0.5 Political Science International Relations-eligible essay course at the 4000-level or the former International Relations 4702E or 4701E.

*Only ~~eligible~~ courses **designated as International Relations eligible** may count toward completion of ~~the~~ **these** module requirements. For a list go to: http://internationalrelations.uwo.ca/undergraduate/course_information/index.html

Note: Students must take a 1.0 course overload in Year 4 and Year 5.

ITEM 13.3(d) – Brescia University College: Withdrawal of the Major in Philosophy

ACTION: APPROVAL INFORMATION DISCUSSION

Recommended: That on the recommendation of ACA, Senate approve that effective May 1, 2024, admission to the Major in Philosophy currently offered by Brescia University College be discontinued, and

 That students currently enrolled in the module be permitted to graduate upon fulfillment of the module requirements by August 31, 2025, and

 That the module be withdrawn effective September 1, 2025.

EXECUTIVE SUMMARY:

The cyclical program review of the Major in Philosophy at Brescia University College was held in March 2022. At its June 29, 2022, meeting SUPR-U recommended a “Conditionally Approved with Report in 12 months” evaluation which ACA subsequently approved and forwarded to Senate in September 2022.

The “Conditionally Approved” evaluation included a requirement that there be additional full-time hires in Philosophy. Brescia University College is closing and will not appoint additional faculty members in Philosophy.

A proposal to withdraw the Major in Philosophy at Brescia University College is now presented for ACA’s consideration.

There are currently four students enrolled in the Major (two in Year 3, two in Year 4). Students currently enrolled in the module will be permitted to complete the module through Western University.

ITEM 13.3(e)(i) – School of Graduate and Postdoctoral Studies: Major Modification to the Master of Engineering (MEng) in Mechanical and Materials Engineering

ACTION: APPROVAL INFORMATION DISCUSSION

Recommended: That on the recommendation of ACA, Senate approve that effective May 1, 2024, the Master of Engineering (MEng) in Mechanical and Materials Engineering be revised as shown in Item 13.3(e)(i).

EXECUTIVE SUMMARY:

The proposed modification is the addition of a new field of “Advanced Manufacturing” in the Master of Engineering (MEng) in Mechanical and Materials Engineering (MME) program.

Advanced/Intelligent manufacturing techniques and approaches are critical for keeping Canada competitive in the manufacturing sector. Manufacturing covers a very broad spectrum of industries, including automotive, aerospace, textile, food processing, construction components, and packaging and shipping, all of which can benefit from advanced automation, artificial intelligence, machine learning, and control.

The Advanced Manufacturing field will afford students the option to enrich their skillset in manufacturing and prepare themselves for this continually emerging sector. The proposed field will have a similar structure to the existing fields in the MEng in MME.

Major Modification to the Master of Engineering (MEng) in Mechanical and Materials Engineering

The proposed modification is the addition of a new field of “Advanced Manufacturing” in the Master of Engineering (MEng) in Mechanical and Materials Engineering (MME) program.

The MEng in MME currently has the following fields:

- Automation Technologies and Systems
- Composite Materials
- Heating, Ventilation and Air Conditioning (HVAC)
- Materials and Solid Mechanics
- Mechanical Engineering
- Thermofluids

Advanced/Intelligent manufacturing techniques and approaches are critical for keeping Canada competitive in the manufacturing sector. Manufacturing covers a very broad spectrum of industries, including automotive, aerospace, textile, food processing, construction components, and packaging and shipping, all of which can benefit from advanced automation, artificial intelligence, machine learning, and control. The Advanced Manufacturing field will afford students the option to enrich their skillset in manufacturing and prepare themselves for this continually emerging sector.

Already, many students who enroll in the MEng in MME program gravitate towards courses within the manufacturing realm like: Production Management, Robotics and Automation, Reverse Engineering, and Design and Manufacturing. The Department is also developing/rejuvenating an Advanced/Intelligent Robotics and Automation laboratory that will serve as a workspace for additional courses in modern automation and intelligent manufacturing, including AI techniques and digital twinning. Promotion of an MEng field in Advanced Manufacturing with AI will broaden the appeal of the MEng in MME program to a greater population of foreign and domestic students. The Department has a great deal of expertise in Manufacturing and has recently hired additional faculty members in the Artificial Intelligence Systems Engineering area who will help in the development and delivery of intelligent manufacturing courses in the proposed field.

The proposed field will have a similar structure to the existing MME fields, however, some core courses will be restricted to the new field. Students will be required to take 10 courses (or eight courses plus a project), including two core technical courses, two professional courses, and six (or four if students pursue a project) technical elective courses from a list of electives.

Current fields	Advanced Manufacturing field
<ul style="list-style-type: none"> • Required courses (2) • Required elective courses: <ul style="list-style-type: none"> ○ 2 Professional courses ○ 6 or 4 technical courses, depending on course- or project-based curriculum option 	<ul style="list-style-type: none"> • Required courses (3) • Required elective courses: <ul style="list-style-type: none"> ○ 1 Core course ○ 2 Professional courses ○ 4 or 2 technical courses, depending on course- or project-based curriculum option ➤ Four courses without a project ➤ Two courses with a project

The proposed specialization field will have the following requirements:

MEng in MME, Advanced Manufacturing Field

Required courses:

Students must take all required courses:

- MME 9601 – Design and Manufacturing
- MME 9605 – Production Management (new field specific course)
- MME 9606 – Robotics & Automation (new field specific course)

Required elective courses:

Core courses:

Students must select one of:

- MME 9602 – Engineering Materials
- MME 9603 – Solid Mechanics
- MME 9604 – Fluid Mechanics

Professional courses:

Students must select two of:

- ELI 9110 – Risk Assessment and Management in Engineering Systems
- ELI 9200 – Engineering Planning and Project Management
- ELI 9001 – Engineering Business
- ELI 9100 – Intellectual Property for Engineers
- ELI 9310 – New Venture Creation
- ELI 9600 – Engineering Communication
- ELI 9105 – Commercialization Innovation

Elective courses:

Students must take two or four courses, depending on project-based or course-based option, respectively:

- MME 9527 – ADVANCED CAE: REVERSE ENGINEERING
- MME 9622 – ADVANCED KINEMATICS AND DYNAMICS
- MME 9612 – FINITE ELEMENT METHODS
- MME 9521 – SYSTEMS AND CONTROL
- MME 9624 – ACTUATOR PRINCIPLES, INTEGRATION AND CONTROL
- MME 9640 – MEDICAL DEVICE DESIGN
- MME 9643 – COMPOSITES PROCESSING
- MME 9651 – ADDITIVE MANUFACTURING
- MME 9654 – MECHATRONIC SYSTEMS ENGINEERING

Milestones:

- Academic Integrity Module
- MEng Proposed Program Form
- MEng Project (Project-based only)

The program learning outcomes will not change.

MEng students who will start their second term in May 2024 will be given the option to switch to this new field.

ITEM 13.3(e)(ii)– School of Graduate and Postdoctoral Studies: Major Modification to the Master of Library and Information Science (MLIS)

ACTION: APPROVAL INFORMATION DISCUSSION

Recommended: That on the recommendation of ACA, Senate approve that effective September 1, 2024, the Master of Library and Information Science (MLIS) be revised as shown in Item 13.3(e)(ii).

EXECUTIVE SUMMARY:

The Faculty of Information and Media Studies is proposing to offer a completely online delivery mode for the existing Master of Library and Information Science (MLIS). This will be in addition to the existing in-person and hybrid delivery modes. The program learning outcomes, length, and the number of courses available will be the same, but students will have the option to complete the program entirely online.

ATTACHMENT(S):

[Major Modification to the Master of Library and Information Science \(MLIS\)](#)

Major Modification to the Master of Library and Information Science (MLIS)

The Faculty of Information and Media Studies will offer a completely online delivery mode for the existing Master of Library and Information Science (MLIS) program. This will be in addition to the existing in-person and hybrid delivery modes. The program learning outcomes, course requirements, content, length, and the number of courses available will be the same, but students will have the option to complete the program entirely online.

Historically, the MLIS program has been in-person with few online course offerings. The emergency online teaching related to the COVID-19 health measures in 2020 and 2021 showed that the Faculty has the capacity to offer courses online. Since the return to regular operations, the Faculty has seen strong interest from MLIS students in online courses and has further expanded its capacity. Currently, the program works in a hybrid manner with some courses offered in-person and others offered online.

The American Library Association accredits MLIS programs in both Canada and the United States. Of the eight MLIS programs in Canada, only one currently offers an online program. In the United States, however, online MLIS programs are normalized. Because only one Canadian university offers an online option with limited enrolment, some Canadians are forced to attend an online program in the United States if they want to obtain the degree. The addition of the online MLIS option to the current program will allow greater accessibility to a wider range of students.

For current students, online courses are in high demand and are consistently at capacity. Additionally, there are equity issues involved. Remote learning provides a broader level of access to people who would not otherwise be able to attend. For potential students, the Faculty is currently unable to accommodate individuals who cannot be on campus due to disability, are unable to move to London, or have a preference to stay in their communities.

The in-person program will remain unchanged. The proposed online program will create a dedicated online delivery mode for students. With this change, students who enroll in the online MLIS program will have priority in enrolling in online courses whilst in-person students will have priority in enrolling in in-person courses. The program will be working to increase the number of courses available in both formats.

Current program	Proposed Change(s)

ITEM 13.3(f) – Dissolution of the Subcommittee for Western Approved Micro-credentials (SWAM)

ACTION: APPROVAL INFORMATION DISCUSSION

EXECUTIVE SUMMARY:

At its April meeting, ACA approved a motion that the Subcommittee for Western Approved Micro-credentials (SWAM) be dissolved effective July 1, 2024.

RATIONALE

In March 2021, a discussion took place at Senate regarding micro-credentials. The Senate minutes note that at that time, the Ministry did not have a policy framework or conclusive definition of micro-credentials and was in the process of developing a regulatory framework. Subsequently in April, the Vice-Provost (Academic Programs) brought forward a proposal to the Senate Committee on Academic Policy and Awards (SCAPA) to establish SWAM effective July 1, 2021, and introduce a “General Definition of Approved Western Micro-credentials” policy. The rationale provided to SCAPA included:

- There was increasing interest in micro-credentials in post-secondary education.
- Western did not have a policy framework or official definition of micro-credentials.

In May 2021, Senate received notice of the establishment of SWAM and approved the introduction of a “General Definition of Western Approved Micro-credentials” policy (this was subsequently included in the “Certificate and Diplomas” policy, which was renamed as the “Certificates, Diplomas, and Micro-credentials” policy). In its first year, SWAM focused on the development of the SWAM application form.

Based on SWAM’s annual reports, the work of the sub-committee has focused on approving OSAP-eligible micro-credentials. SWAM has provided an expedient path to approve pre-existing offerings by Western Continuing Studies and the Faculty of Education. SWAM served a role in moving these existing certificates forward so they could be called micro-credentials and be eligible for OSAP funding.

In making this decision, ACA and SWAM considered the following:

- Since its first year of activity (2021), SWAM has received a low volume of proposals.
 - Given the low volume, ten meetings have been cancelled;
 - While SWAM served a key role in moving forward existing offerings, the current workload of the committee is minimal;
 - Given the low workload, a free-standing subcommittee is not required; and
 - ACA is a suitable body to approve credit-bearing alternative credentials (micro-credentials, post-degree diplomas, and certificates).

ITEM 14.0 - Items Removed from the Consent Agenda

ACTION: APPROVAL INFORMATION DISCUSSION

EXECUTIVE SUMMARY:

The following items have been removed from the Consent Agenda by request:

ITEM 15.0 – Discussion and Question Period

1. Jane Toswell, Senator:

The grand excitement about getting a new learning management system to move forward from OWL has gotten me thinking. Since I remember being a beta-tester for the OWL system (back when it was a free Sakai system and before Western got hold of it), and that memory is more recent than the adoption of PeopleSoft, I find myself thinking about that very bumpy year or two when that system was being implemented. Since it was American software there were set holidays in it and no chance of Canada Day being used to replace July 4 at all. (If you think this does not matter, think about the fact that this system runs your paycheque delivery.) Oh, the glitches. Staff members racing away from their computers to get outside before they turned the air blue. Logins that did not work for no discernible reason. Window after window that had to be filled in with precisely the right information in a precise but unclear order. Happiness. But all of this came before the millennium, if I remember correctly. Indeed, there were covens of people hoping that PeopleSoft would crash irretrievably at the millennium so we could get something else. And yet, we seem to keep using this. I found this mission statement for the courageous souls who continue to support what is now called Oracle/PeopleSoft Enterprise administration systems:

Our Mission

The Western Information Systems Group (WISG) is responsible for the support, maintenance, and development of the Oracle/PeopleSoft Enterprise administrative applications at Western. We work in partnership with Advancement Services, the School of Graduate and Postdoctoral Studies, Financial Services, Human Resources, Information Technology Services, the Office of the Registrar, and Research Western to promote and support the development of administrative systems and re-engineering of operational processes. WISG is a division within the Western Technology Services.

We believe in leveraging [Oracle/PeopleSoft Enterprise technology](#) to reduce costs and redundancy, improve efficiency and service, and simplify and optimize processes. We believe in continual learning, in finding the best solution to a problem, in the value of automating manual processes, and in the importance of delivering systems that enable staff to perform at a higher level and to deliver better service to their constituents. We believe in providing self-service applications and enabling access by decision-makers to the systems that support their work. Our small group of highly trained, committed staff provide strategic services in the areas of project management, business process analysis, technical design and analysis, client server and web development, systems management, and database optimization for the Oracle/PeopleSoft administrative applications.

My question is: is PeopleSoft now so deeply embedded into the Western DNA that we can never dig it out? It was sold to us as a benefit that it runs the HR systems, the financial systems, the advancement systems, the student systems, the counselling systems, and so very much else. And yet, is it still working optimally (part of me wonders if it ever worked optimally)? Are we thinking about PeopleSoft 2.0?

2. Jane Toswell, Senator:

I have an array of concerns related to the strike by PSAC 610, our graduate student teaching assistants. My first concern is whether we are taking this situation seriously enough as a university. I don't see anything on the website, yet there are effects on every student trying to get to a final examination and get it written, and on every faculty member who has a t.a. scheduled to invigilate or grade an exam, and on every unionized member of the campus who hates (rightly) to walk by a picket line peopled by very very young and enthusiastic souls who represent the future of the academy and are fighting for their own individual futures.

My second concern surrounds questions of safety and security. I grasp that exams need to proceed, and that some members of PMA are willing to train and to proctor these (presumably for extra pay). However, none of us should be asked to facilitate this or to support this or endorse this. Nor should students or faculty feel unsafe in exams, and I gather there have been some difficulties. Notably, could someone please explain whether the current problem with fire alarms is in some way connected to the PSAC 610 strike?

My third concern is really about information. Since I do not do social media, I do not know what the bones of contention are. Is salary the issue? or working conditions? or are the t.a.s trying to improve their benefits or workload or EDI situation? This concern is not wholly curiosity; Canada remains a very rich country yet in Senate just over a year ago we heard many stories of grad students suffering food insecurity, and since then I think we are all aware that Western has less grad student housing while London has a very very low rental vacancy rate. Our teaching assistants hold those positions because they are starting to learn how to teach at the university level, and we expect that apprenticeship to consist of ten hours per week, but we all know that a more subtle and complex calculus is done by students and by faculty in developing the details of workload and academic responsibilities. I'm a faculty member; I'd like information, which means neither pious platitudes nor simple slogans. Please.

My fourth concern is our students, both grad and undergrad. If the strike is not settled soon, the lack of exam grading may well lead to problems with adjudications to graduate. We have a list of honorary degree recipients in the package for Senate, but some of those convocations will be in jeopardy if final grades cannot be provided. I also worry about recruitment of new graduate students. The strike has drawn national media attention, which makes it hard for us to recruit future students, particularly given the complications with international student visas. I have colleagues in graduate offices who are trying to answer questions from prospective graduate students, but have no information to provide.

My fifth concern is that there does not seem any sense of urgency here. I have been told (and I hope this is wrong) that the negotiating teams are not at the bargaining table and do not have their next sessions scheduled. Surely this cannot be. Graduate students are the lifeblood of a research university: I hope we are taking their concerns seriously.

3. Ken Kirkwood, Senator:

As a two-term Senator, and Acting Director of the School of Health Studies, I have a question related to the effects of the Graduate Teaching Assistant's strike on undergraduates.

While exams have gone forward with replacement proctors, many courses have written work which was contracted out to GTAs for grading. This grading work has stopped, and faculty members have the right to refuse this grading, and most simply can't do more in this circumstance. I have waited for some leadership from Central Administration on this issue, and as of the question submission deadline, have seen none.

After an informal survey of the School of Health Studies, it would seem that most of our students are going to be harmed by the delay in grading, most significantly the second and third year students. A rough calculation suggests that about 1,000 students in our School alone could be harmed.

4. Johanna Weststar, Official Observer:

The strike of GTAs has proceeded for over one week with no meetings of the parties. Exam procedures and academic integrity are the purview of Senate. The university community has been assured in emails from senior administrators that exams have been proceeding "normally" and in a "responsible, safe and inclusive way". However, the use of strikebreaking replacement workers can not be considered "normal" and many faculty do not feel that pressure to supervise replacement workers and striking GTAs is "normal" or "responsible" or "inclusive" of rights, values and constitutionally supported principles. Could there please be a fulsome account of how exams have been proceeding and what the senior administration intends to do about marking and grade submission and about the allocation of TAs for summer and intersession courses.

Excerpt from Senate's Adopted Policies and Procedures:

4.1 Purpose

The Discussion Question Period has two functions:

- 4.1.1 To allow members to ask questions about the progress of current Senate business, re-open matters previously dealt with by Senate, and raise questions on other matters within Senate's mandate.
- 4.1.2 To provide time for open discussion and debate of issues related to Senate's mandate that are not on the agenda but may be of interest or concern to Senate members or their constituencies.

4.2 General Regulations

- 4.2.1 No motions may be put or considered during this period on the agenda.
- 4.2.2 The length of the Discussion and Question Period is limited to 30 minutes unless extended by a majority vote of Senate.
- 4.2.3 Questions or issues will be dealt with in the order in which they are received, although related questions or issues received in advance of the meeting may be grouped together by the Secretariat. Questions or issues submitted in advance of the meeting will be dealt with before questions or issues raised from the floor.
- 4.2.4 Members who submit more than one question or issue will be asked to indicate their order of precedence. At the Senate meeting, second and subsequent questions or issues presented by any member will be dealt with after all other

members have an opportunity to have their first question or issue discussed.

- 4.2.5 At the Senate meeting, questions or comments should be directed to the Chair who will call upon the appropriate individuals to answer or direct the discussion thereafter.
- 4.2.6 In order to ensure that all those who wish to raise a matter have the opportunity to do so, presentation of issues and questions should be brief and to the point. Members are discouraged from reading or reiterating the material that has already been presented in written form.
- 4.2.7 If there are issues or questions that have not been put at the end of the 30 minute period or any extension, and there is no further extension, the remaining questions or issues will be carried forward to the Discussion and Question Period of the following meeting of Senate, unless withdrawn by the members who initially submitted the questions or issues.

4.3 Process

4.3.1 Questions

- (a) It is suggested, though not required, that members who wish to ask questions at this point in the agenda, submit them to the University Secretary at least 48 hours prior to the meeting at which they are to be raised. Questions received within this time frame will be included in a reposted agenda in advance of the meeting.
- (b) The Secretary will forward questions submitted at least 48 hours prior to the meeting to the appropriate individuals for preparation of responses and every effort will be made to have responses available at the meeting.
- (c) Questions not submitted at least 48-hours prior may need to be deferred to the next meeting for response.
- (d) If after an answer is received, there are concerns or issues remaining that are within Senate's mandate, those issues will be referred to the appropriate Senate standing committee for review and a report will be made back to Senate. If the concerns or issues remaining are not within Senate's mandate, the Chair will refer the matter to the appropriate vice-president.
- (e) A member who has submitted a question is entitled to ask one supplementary question relating to the response.

4.3.2 Issues for Discussion

- (a) It is suggested, though not required, that members who wish to raise an issue for discussion at this point in the agenda, submit the issue to the University Secretary at least 48 hours prior to the meeting at which it is to be raised. Notice of issues for discussion received within this time frame will be included in a reposted agenda in advance of the meeting.

- (b) Members are responsible for preparing any background documentation they wish to distribute related to the issue they are raising. The Secretariat must be provided with an electronic copy of such documentation for Senate's records. Documentation received at least 48 hours before the meeting will be circulated to members of Senate with the notice of the issue to be discussed.
 - (c) If at the end of the 30 minute period there are still members who wish to speak on an issue under discussion, and the period is not extended, discussion will be resumed at the following meeting of Senate as part of that meeting's Discussion and Question Period.
 - (d) If after discussion of an issue is concluded, there are concerns or issues remaining that are within Senate's mandate, those issues will be referred to the appropriate Senate standing committee for review and a report will be made back to Senate. If the concerns or issues remaining are not within Senate's mandate, the Chair will refer the matter to the appropriate vice-president.
-
