**Jamie Q** is one of the 200 artists included in The Cheaper Show at LES Gallery, June 26th in Vancouver.  
<http://thecheapershow.com/>

"The concept of The Cheaper Show is very simple: 200 multi-disciplined international artists presenting 400 pieces of art, each priced at \$200 for one night only. Far from being an 'art sale,' each exhibiting artist consciously makes a sacrifice by selling their work for less than its potential value. This creates united support for the event, the arts community, and an opportunity for this show to take place in an environment that is accessible to everyone. In turn, many walk away with sales, exposure, commissions and gallery representation, as well as having an opportunity to connect with peers on an even playing field."

**Matthew Smith** is publishing an exhibition in Fuse Magazine titled, "Autobiography and the Family Frame: Jaret Belliveau at Gallery TPW".

**Paul Walde** has received a Canada Council Project Grant for upcoming exhibitions in Vancouver, Ottawa, and an installation at the Electric Eclectics Festival in Meaford, Ontario.
