Course Description:

Catalogue: Architecture, painting, sculpture in Italy from the 14th-century Tuscany to late 16th-century Venice.

The course examines the development and evolution of the Italian Renaissance through the analysis of canonical artistic figures including Giotto, Botticelli, Donatello, Raphael, Michelangelo, and Leonardo. We will trace the evolution of Italian Renaissance art as it evolved in distinct directions in various Italian urban-centers, including Pisa, Milan, Florence, Rome, and Venice, while also examining why certain universal tenets inevitably were shared throughout Italy: some of which were incorporated into and were influenced by other strands of the Renaissance that were developing in Western Europe. Therefore, our objective is to analyze why certain elements of Renaissance art and architecture were so universally accepted while others were not—i.e. what political, religious, economic, and cultural factors were effecting artistic production.

Prerequisite: 1.0 from VAH 1040 or two of VAH 1041A/B – VAH 1045A/B or Permission from the Department.
