Submitting Assignments

In this course, you will be required to submit the final version of each of your assignments electronically via OWL as a PDF to Turnitin.com and provide your instructor with a hard copy in class the day the assignment is due. Some assignments will require first draft submissions via email or dropbox in advance of final drafts.

Late assignments will receive a penalty of up to 5% per day including weekends. If you need an extension for a medical reason, you must contact the Academic Counselling of your home Faculty.

Attendance Policy

This course will be conducted as asynchronously, and therefore students will be able to engage in relevant class materials at their own pace on their own schedule.

However engagement in these materials is required to improve as a writer. Students will be expected to watch lecture materials and screenings and to participate in classroom discussions where applicable. Lecture modules and screenings will sometimes feature short questionnaires or surveys as means of measuring engagement. Participation in these activities will count towards the "Exercise Engagement & Discussion" portion of the

student's grade.

Many assignments, will require students submit their work in advance of the final deadline, so that students can provide constructive feedback on their peers work. This process is mandatory, and counts towards the Workshop Peer Review portion of the grade.

If you are unable to meet a course requirement due to illness or other serious circumstances, please follow the procedures below. For work totalling 10% or more of the final course grade, you must provide valid medical or supporting documentation to the Academic Counselling Office of your Faculty of Registration as soon as possible. For further information, please consult the University's medical illness policy at https://www.uwo.ca/univsec/pdf/academic_policies/appeals/accommodation_medical.pdf.

The Student Medical Certificate is available at

Academic Offences

Scholastic offences are taken seriously and students are directed to read the appropriate policy, specifically, the definition of what constitutes a Scholastic Offence, at the following Web site:

http://www.uwo.ca/univsec/pdf/academic_policies/appeals/scholastic_discipline_undergrad.pdf.

Students must write their essays and assignments in their own words. Whenever students take an idea, or a passage of text from another author, they must acknowledge their debt both by using quotation marks where appropriate and by proper referencing such as footnotes or citations. Plagiarism is a major academic offence.

All required papers may be subject to submission for textual similarity review to the commercial plagiarism detection software under license to the University for the detection of plagiarism. All papers submitted for such checking will be included as source documents in the reference database for the purpose of detecting plagiarism of papers subsequently submitted to the system. Use of the service is subject to the licensing agreement, currently between The University of Western Ontario and Turnitin.com (<http://www.turnitin.com>).

In this course, students are permitted to use AI tools for information gathering and preliminary research purposes **only** (unless otherwise indicated in the assignment instructions). These tools are intended to enhance the learning experience by providing access to diverse information sources. It is essential, however, that students critically evaluate the obtained information, exercise independent thinking, and engage in original research to synthesize, develop, and articulate their own ideas, arguments, and perspectives. The use of AI tools can serve as a starting point for exploration, but students

are expected to uphold academic integrity by appropriately attributing all sources and avoiding plagiarism in any form.

Assignments should always reflect students' own thoughts and constitute independent written work. By adhering to these guidelines, students contribute to a responsible and ethical learning environment that promotes critical thinking, supports independent inquiry, and encourages original written contributions.
